response to the perceived failure of the political negotiations This book provides a unique comparative study of environmental movements in USA Japan Denmark and Sweden analyzing their interaction with the international climate institutions of the United Nations with national governments and with currents in the global climate movement It documents how and why the movement evolved between the Copenhagen Summit of 2009 and the Paris Summit of 2015 altering its strategies and tactics while attracting new actors to the issue area Further it demonstrates how the development of global environmental networks has increased contact between environmental movements in the Global North and those from the Global South resulting in the establishment of climate justice as a political cause and unifying frame for global climate activism

The Rhodesian Air Force in Zimbabwe's War of Liberation, 1966-1980 Darlington Mutanda, 2016-11-22 This book evaluates the development of the Rhodesian Air Force during the Second Chimurenga or Bush War 1966 1980 Airpower in irregular conflict is effective at the tactical level because guerrilla warfare is not a purely military conflict The Rhodesian Air Force was deployed in a war winning versus a supporting role as a result of the shortage of manpower to deal with insurgency and almost all units of the Rhodesian Security Forces depended on its tactical effectiveness Technical challenges faced by the Air Force combined with the rate of guerrilla infiltration and the misuse of airpower to bomb guerrilla bases in neighboring countries largely negated the success of airpower

Memory and Cultural Landscape at the Khami World Heritage Site, Zimbabwe Ashton Sinamai, 2018-10-10 This book focuses on a forgotten place the Khami World Heritage site in Zimbabwe It examines how professionally ascribed values and conservation priorities affect the cultural landscape when there is a disjuncture between local community and national interests and explores the epistemic violence that often accompanied colonial heritage management and archaeology in southern Africa The central premise is that the history of the modern Zimbabwe nation in terms of what is officially remembered and celebrated inevitably determines how that past is managed It is about how places are experienced and remembered through narratives and how the loss of this heritage memory may mark the un inheriting of place Memory and Cultural Landscape at the Khami World Heritage Site Zimbabwe is informed by the author s experience of living near and working at Great Zimbabwe and Khami as an archaeologist and uses archives and traditional narratives to

build a biography for this lost cultural landscape Whereas Great Zimbabwe is a resource for the state's contentious narrative of unity and a tool for cultural activism among communities whose cultural rights are denied through the nationalisation and globalisation heritage at Khami which has lost its historical gravity there is only silence Researchers and students of cultural heritage will find this book a much needed case study on heritage identity community and landscape from an African perspective

The iPINIONS Journal Anthony

Livingston Hall, 2021-03-14 ANTHONY L HALL takes aim at the global events of 2020 with a unique and refreshing perspective. Some of the topics in this volume include Governments ordering lockdowns to combat Covid 19. Telling people to lockdown to combat Covid makes about as much sense as it would've been to tell people to stop having sex to fight HIV. Mandating wearing masks like wearing seatbelts or promoting the use of masks like the use of condoms would have been a lot cheaper and more effective. Trump failing to defend America against Russian cyber attacks. America is now a certifiably dysfunctional dystopian and defenseless mess. Superpower Hell even the Roman Empire was never this messed up before the fall. Evidently that shining city on a hill was just the flickering embers of a supernova. Kim declaring nuclear deal with Trump a bust. Kim Jong un is feeling like a woman scorned. Never mind that he behaved throughout his affair with Donald Trump like a shrew too uptight to screw Harry and Meghan announcing split from royal family. Most Britons will feel about Meghan breaking up the royals the way they felt about Yoko breaking up the Beatles. The Last Dance revealing how Bulls paid Jordan like a king. Pippen like a pauper. Michael is clearly the NBA's GOAT. Unfortunately Pippen is arguably its greatest goat of all time. Chinese leaders quarantining millions to contain Covid 19. Practice from quarantining millions of Uyghur Muslims for years in religious cleansing camps means that they are doing so in this case with Nazi-like efficiency. Democrats trying to impeach Trump. Even if lead House manager Rep Adam Schiff were Christ incarnate he would still be unable to break the cult-like loyalty. Republicans show their two-legged golden calf. Republicans bending over to be cuckolded by Trump. The more he humiliates white Republican men the more they like him. Hell some like Senator Ted Cruz of Texas even like him when he humiliates their wives which puts a fetishistic twist on cuckoldry that is just too perverse for words. White cops patrolling Black communities. It's a curious thing that Black men seem so willing to cede that role of protecting their own to white men who seem all too eager to patrol Black communities like invading soldiers. Mary Trump's tell-all selling like hotcakes. Given the egregious way Donald exaggerates his wealth the irony cannot be lost on Mary that this book could make her the richest Trump of them all. It might not be revenge but it would be sweet. *The Conservation of Violence* Tafadzwa Mushonga, 2025-07-14 The Conservation of Violence explores the governance of protected forests in Zimbabwe highlighting the structural and operational mechanism through which violent tactics are produced, employed and sustained to promote nature conservation. Drawing on political ecology, geography and environmental politics it examines the central role of the state in conserving conservation violence. The book presents contemporary case studies of violence in conservation and introduces the concept of conservation of violence as an alternative framework for understanding the tenacity of violence in conservation areas across Africa. It also delves into the constitutionalisation of environmental rights illustrating how these rights have been leveraged to enable and preserve conservation violence as well as the ways in which militarisation fosters and circulates violence. By offering new ways for investigating violence in conservation the book interrogates the complexities of dismantling entrenched systems of violence and provides insights into the theoretical and practical obstacles

of transforming conservation ideologies The explored include coloniality nature culture dichotomies resource governance extraction capitalism sustainability policy and conservation law regulation and policing environmental rights and environmental justice The Conservation of Violence will be a significant contribution to the fields of political ecology geography development environmental justice and the broader environmental humanities **Transitional Justice in Pre-transitional Times** Tony Reeler,Eustinah Tarisayi,Prosper Maguchu,2017 China's Belt and Road Initiative in Africa R. Mireille Manga Edimo,Julien Rajaoson,2025-05-19 This book provides insight into the economic partnerships between African governments and China offered by the Belt and Road Initiative It examines the Belt and Road Initiative from a macro and microeconomic perspective to present a detailed understanding of the transformation of African development policies since the initiative began Particular attention is given to the historical context behind the Belt and Road Initiative the financing of infrastructure and public services in Africa the spread of technology from China to Africa China s position within the global political order African energy markets and the development of special economic zones This book grounds analysis of the Belt and Road Initiative within specific policies and case studies from Africa It will be relevant to students researchers and practitioners interested in development economics and the political economy
