The End Ian Kershaw, 2011-09-08 From the preeminent Hitler biographer a fascinating and original exploration of how the Third Reich was willing and able to fight to the bitter end of World War II Countless books have been written about why Nazi Germany lost World War II yet

remarkably little attention has been paid to the equally vital question of how and why it was able to hold out as long as it did. The Third Reich did not surrender until Germany had been left in ruins and almost completely occupied. Even in the near apocalyptic final months when the war was plainly lost, the Nazis refused to sue for peace. Historically, this is extremely rare. Drawing on original testimony from ordinary Germans and arch Nazis alike, award-winning historian Ian Kershaw explores this fascinating question in a gripping and focused narrative that begins with the failed bomb plot in July 1944 and ends with the German capitulation in May 1945. Hitler, desperate to avoid a repeat of the disgraceful German surrender in 1918, was of course critical to the Third Reich's fanatical determination, but his power was sustained only because those below him were unable or unwilling to challenge it. Even as the military situation grew increasingly hopeless, Wehrmacht generals fought on, their orders largely obeyed, and the regime continued its ruthless persecution of Jews, prisoners, and foreign workers. Beneath the hail of allied bombing, German society maintained some semblance of normalcy in the very last months of the war. The Berlin Philharmonic even performed on April 12, 1945, less than three weeks before Hitler's suicide. As Kershaw shows, the structure of Hitler's charismatic rule created a powerful negative bond between him and the Nazi leadership; they had no future without him, and so their fates were inextricably tied. Terror also helped the Third Reich maintain its grip on power as the regime began to wage war not only on its ideologically defined enemies but also on the German people themselves. Yet even as each month brought fresh horrors for civilians, popular support for the regime remained linked to a patriotic support of Germany and a terrible fear of the enemy closing in. Based on prodigious new research, Kershaw's *The End* is a harrowing yet enthralling portrait of the Third Reich in its last desperate gasps. Germany 1945 Richard Bessel, 2012-09-27

In 1945, Germany experienced the greatest outburst of deadly violence that the world has ever seen. Germany 1945 examines the country's emergence from the most terrible catastrophe in modern history. When the Second World War ended, millions had been murdered, survivors had lost their families, cities and towns had been reduced to rubble and were littered with corpses. Yet people lived on and began rebuilding their lives in the most inauspicious of circumstances. Bombing, military casualties, territorial loss, economic collapse, and the processes of denazification gave Germans a deep sense of their own victimhood, which would become central to how they emerged from the trauma of total defeat, turned their backs on the Third Reich and its crimes, and focused on a transition to relative peace. Germany's return to humanity and prosperity is the hinge on which Europe's twentieth century turned. For years, we have concentrated on how Europe slid into tyranny, violence, war, and genocide; this book describes how humanity began to get back out. **The Führer Bunker** Sven Felix Kellerhoff, 2004

Felix Kellerhoff beschäftigt sich seit Jahren mit dem Nationalsozialismus. Er stellt die wichtigsten Quellen und Fakten über den Führerbunker zusammen. Von Baubeginn bis heute. September 2003 erschien der Band in deutsch. **Blood Is Thicker than War** Martin King, 2022-09-06. From the author of *Triage* and *Searching for Augusta* comes a history of love, hate, jealousy and revenge between brothers and sisters during times of war through the ages. Journey back through time to discover remarkable accounts of parents who waved off their sons and daughters never knowing if they would ever see them again. One mother saw no less than ten of her sons between the ages of eighteen and thirty-seven dispatched to the frontline in the First World War. The biggest real band of brothers that ever served their country but to discover how many made it back and who this dear lady was you will have to read the rest. War is completely indiscriminate when it comes to inflicting suffering and heartbreak on families, particularly when one's own blood takes up arms to fight with and in some cases against their own kin. These stories recount some of the prime examples of families divided and united in some of the direst conflict. When British police discovered the body of a dead woman who locals knew as the Crazy Cat Lady, they found a small bundle of possessions that revealed a truly incredible story of two amazing sisters who served behind enemy lines as elite Special Operations Agents SOE during World War II.

Identity, Trauma, Sensitive and Controversial Issues in the Teaching of History Hilary Cooper, Jon Nichol, 2015-10-13. History Education is a politically contested subject. It can be used to both promote xenophobia and to develop critical thinking, multiple perspectives and tolerance. Accordingly, this book critically examines complex issues and constructivist approaches that make history relevant to students' understanding of the modern world. As such, it has global appeal, especially in North and South America, Canada, Europe and Asia. The book's authors address the major challenges that History Education faces in an era of globalisation, digital revolution and international terrorism, nationalism and sectarian and religious conflict and warfare. Central to this volume are controversial issues, trauma and questions of personal and national identity from a wide range of international settings and perspectives. The research in this book was undertaken by leading history educators from every continent. Their interdisciplinary research represents an important contribution to the teaching of social sciences, social psychology, civic education programmes, history and history education in schools, colleges and universities. The book offers new approaches to history educators at all levels. In addition, the chapters offer potential as required reading for students to both develop an international perspective and to compare and contrast their own situations with those that the book covers. Section I considers issues related to identity: how can history education promote social coherence in multicultural societies in societies divided by sectarianism or countries adapting to regime changes, whether Communist or Fascist, including for example South Africa, previously Communist countries of Eastern Europe and previous dictatorships in South America and Western Europe. It discusses such questions as: How important is it that students learn the content of history through the processes of historical enquiry? What should that content be and who should decide it: educators or politicians? What is the role of textbooks and who should write and select them?

Should history be taught as a discrete discipline or as part of a citizenship or social sciences curriculum Sections II and III explore ways in which memory of sensitive issues related to the past to war or to massacres may be addressed Are there new methodologies or approaches which make this possible How can students understand situations involving intolerance and injustice
