Index of English Literary Manuscripts Margaret M. Smith, 1989-11-01 Eleven authors are included in this final part of Volume III of the Index beginning with Laurence Sterne and concluding with Edward Young It also includes the final cumulative first line index of all the verse which is described in the manuscript entries or mentioned in the Introductions in Parts 1 4 of Volume III

Gnosis and Hermeticism from Antiquity to Modern Times R. van den Broek, Wouter J. Hanegraaff, 1998-01-01 This volume introduces what has sometimes been called the third component of western culture It traces the historical development of those religious traditions which have rejected a world view based on the primacy of pure rationality or doctrinal faith emphasizing instead the importance of inner enlightenment or gnosis a revelatory experience which was typically believed to entail an encounter with one's true self as well as with the ground of being God The contributors to this book demonstrate this perspective as fundamental to a variety of interconnected traditions In Antiquity one finds the gnostics and hermetics in the Middle Ages several Christian sects The medieval Cathars can to a certain extent be considered part of the same tradition Starting with the Italian humanist Renaissance hermetic philosophy became of central importance to a new religious synthesis that can be referred to as Western Esotericism The development of this tradition is described from Renaissance hermeticists and practitioners of spiritual alchemy to the emergence of Rosicrucianism and Christian theosophy in the seventeenth century and from post enlightenment aspects of Romanticism and occultism to the present day New Age movement

Studies in Gnosticism and Alexandrian Christianity Roelof van den Broek, 2020-10-26 The discovery of the Nag Hammadi Library 1945 has given an enormous impetus not only to the study of ancient Gnosticism but also to that of early Christianity in general Most of the studies contained in this volume deal with mythological conceptions and theological ideas found in various Nag Hammadi writings The gnostic views on the nature of God and on creation and salvation receive particular attention ranging from Philo to the medieval Cathars The Nag Hammadi Library also shed new light on the development of early Alexandrian Christianity and its theology The book contains six studies which explicitly deal with these topics This volume is of interest to students of Gnosticism early Christianity and Graeco Roman religious and philosophical ideas in general

Robin Hood Thomas H. Ohlgren, Lister M. Matheson, 2007 While references to Robin Hood began to appear as early as the thirteenth century in legal records the earliest surviving poems did not appear in manuscripts and early printed books until the fifteenth and sixteenth centuries Several fourteenth century allusions in the works of William Langland and Geoffrey Chaucer suggest that the rymes of Robyn Hood were widely circulating by the 1370s but it is vital to note none of these late fourteenth century works survives A better approach Thomas H. Ohlgren argues is to focus on what has actually survived rather than on what might have existed As a result the poems Robin Hood and the Monk and Robin Hood and the Potter which survive in two different Cambridge manuscripts of the last third of the fifteenth century and A Lytell Geste of Robyn Hode which was printed at least seven times in the sixteenth

century must receive pride of place in the canon because they have a physical reality as material artifacts in short they exist and provide valuable information about the places and times of their composition and dissemination **At Translation's Edge** Nataša Durovicova, Patrice Petro, Lorena Terando, 2019-06-14 Since the 1970s the field of Translation Studies has entered into dialogue with an array of other disciplines sustaining a close but contentious relationship with literary translation At Translation s Edge expands this interdisciplinary dialogue by taking up questions of translation across sub fields and within disciplines including film and media studies comparative literature history and education among others For the contributors to this volume translation is understood in its most expansive transdisciplinary sense translation as exchange migration and mobility including cross cultural communication and media circulation Whether exploring the Universal Declaration of Human Rights or silent film intertitles this volume brings together the work of scholars aiming to address the edges of Translation Studies while engaging with major and minor languages colonial and post colonial studies feminism and disability studies and theories of globalization and empire *The Splendor of the Church in Mary Theresa* Marie Chau Nguyen, 2023-05-05 Henri de Lubac SJ 1896 1991 is one of the most renowned theologians of the twentieth century Numerous studies have been undertaken to examine his many contributions to theology but little attention has been paid to the specific topic of the relationship of the Blessed Virgin Mary and the Church in his writings This was a topic that gave rise to contentious discussion at the Second Vatican Council and although the Council fathers approved the integration of Marian doctrine into the Dogmatic Constitution on the Church this synthesis of Mariology and ecclesiology has been largely neglected in theology today The Splendor of the Church in Mary retrieves de Lubac s Marian ecclesiology and revives an understanding and appreciation of its enduring influence at the Vatican Council and beyond The first part examines de Lubac s pre conciliar works which evince a steady biblical and patristic ressourcement of Marian themes It also explores his writings on Teilhard de Chardin s Eternal Feminine Christian mysticism and Amida Buddhism and discovers in them the essential building blocks of his Marian thought The second part turns to the Second Vatican Council and post conciliar developments Rereading the debates and texts of Lumen Gentium through a Marian lens brings to light the extent of de Lubac s influence M ditation sur l Eglise 1953 his principal work on Mary and the Church anticipated the structure and content of Lumen Gentium a decade before the Council De Lubac s writings provided a theological compass for the Council fathers and they continue to provide direction and orientation for ecclesiological discourse today The Splendor of the Church in Mary culminates in a constructive analysis of one of the most pressing pastoral and ecclesiological questions of our times the question of the relationship of the universal and particular churches Directly engaging the crucial debate between then Cardinal Ratzinger and Cardinal Kasper it proposes that de Lubac s Mariology effectively offers a new perspective and a refreshing path forward Attentive to the mystical identification of Mary and the Church de Lubac s ressourcement has the potential to re enchant and advance contemporary theology in new and significant ways *The Embroidered Bible: Studies*

environmental movement is increasingly dominated by the environmentalism of the rich diverted into eco business eco consumption wilderness preservation energy efficiency and recycling While it s good that for example Barbie dolls packaging no longer depletes Indonesian rainforest and that Toyota Highlanders are available as hybrids none of this gets at the source of the current sustainability crisis More eco products can just mean more corporate profits consumption and waste Dauvergne examines extraction booms that leave developing countries poor and environmentally devastated with the ruination of the South Pacific island of Nauru a case in point the struggles against consumption inequities of courageous activists like Bruno Manser who worked with indigenous people to try to save the rainforests of Borneo and the manufacturing of vast markets for nondurable goods for example convincing parents in China that disposable diapers made for healthier and smarter babies Dauvergne reveals why a global political economy of ever more more growth more sales more consumption is swamping environmental gains Environmentalism of the rich does little to bring about the sweeping institutional change necessary to make progress toward global sustainability
