conquers all her demons and survives deprivation overload But relying religiously on Dr Winters she soon realizes that the only obsession she has left to quit is him Never has the battle to stem substance abuse been captured with such wit sophisticated insight and candor *Lighting Up* is so compulsively readable it s addictive Catalog of Copyright Entries, Third Series ,1967 The record of each copyright registration listed in the Catalog includes a description of the work copyrighted and data relating to the copyright claim the name of the copyright claimant as given in the application for registration the copyright date the copyright registration number etc **Tax Treatment of Tuition Expenses** United States. Capturing the News Anthony Collings, 2010-05-10 Anthony Collings found himself in his share of difficult situations in his thirty four years as a newsman Like being captured by AK 47 toting Syrians in Lebanon in 1981 while looking for missiles that threatened a new outbreak of hostilities with Israel or being detained by the KGB in Moscow in 1967 during his first foreign posting for the Associated Press filing stories about Soviet dissidents Name a hot spot and Collings has likely been there From AP correspondent to Newsweek bureau chief to CNN reporter he covered the Middle East Rome Moscow London Paris and Washington Now he has gathered stories about his work in a book that is both a journalist s memoir and a commentary on the current ethical crises in the news media and how to address them Brimming with entertaining stories about journalism especially the chaotic early years at CNN when he and his colleagues established the first major cable news network Collings s book reveals the dangers and pressures of covering the news and the difficulties of overcoming obstacles to the truth He recalls smuggling tapes out of Poland after the Communists had imposed martial law flying dangerously near Libya s Line of Death interviewing world figures from Brezhnev to Kaddafi and Arafat and winning awards for covering Iran Contra and the Oklahoma City bombing Collings brings fresh insights to the Oliver North affair and examines how the press was suckered in its coverage of the Jessica Lynch prisoner of war story in 2003 He voices his concerns regarding oversimplified reporting of complex issues and poses provocative questions about covering terrorism In this book Collings presents an insider s appraisal of the American news media s failings and accomplishments Easy to read informative and thoughtful *Capturing the News* will enlighten general readers interested in how journalists cover current affairs while offering newsmen food for thought about the craft and ethics of journalism

Cinematic Sociology Jean-Anne Sutherland, Kathryn Feltey, 2012-04-17 *Cinematic Sociology* is a one of a kind resource that helps students recognize and critique sociological concepts as they appear in blockbuster Hollywood films In addition it provides pedagogy for instructors who use film in their classes In this engaging text the authors take readers beyond watching movies and demonstrate how to read films sociologically In the process students are exposed to major substantive areas of sociology and encouraged to critically think about their social world The book s 27 essays from expert scholars in sociology and cultural studies explore the ways social life is presented distorted magnified or politicized in popular film

From Martyrs to Murderers Robert L. Dahlgren, 2017-04-13 In *From Martyrs to Murderers* the author explores the connections between the dark unflattering representations of public schools teachers and teaching in popular

Hollywood films and the conservative attacks on public education that have culminated in a generation of neo liberal standards reform measures The author s analysis is based on a survey of 60 movies that feature significant interactions between public school teachers and their students This study employed a textual analysis method involving viewing the films alongside original script material which reveals that the narratives involving public schools during the late 20th century and early 21st century are distinct from those involving other types of schools or eras Rather than the romantic figures of earlier portraits such as Eve Arden s beloved Our Miss Brooks in the 1940s and 1950s radio and television serial these teachers are consistently portrayed as negative archetypes thus providing a rationale for the school reform agenda of the 1980s The sheer repetition of these damaging images in Hollywood products of the period made the American public more susceptible to the deceptive arguments outlined in A Nation at Risk the seminal 1983 report that provided the blueprint for the standards reform movement that has dominated education policy for the past generation This work thus develops upon the critical perspectives of educational historians and social studies educators who have probed this turning point in the history of American schooling It also offers an alternative means of viewing the reality of life in the nation s public institutions
