Rainbow Nation My Zulu Arse Sihle Khumalo,2018-10-12 After exploring more than twenty other African nations using only public transport Sihle Khumalo this time roams within the borders of his own country The familiarity of his own car is a luxury but what he finds on his journey through South Africa ranges from the puzzling to the downright bizarre Voyaging from the northernmost part of South Africa right to the south the author noses his car down freeways and back roads into small towns townships and villages some of which you ll have trouble finding on a map But this is no clich d description of beautiful landscapes and blue skies Khumalo is out to investigate the state of the nation from its highest successes to its most depressing failures Whether or not he s baffled surprised or sometimes plain angry Sihle Khumalo will always find warmth in his fellow South Africans security guards religious visionaries drunks political activists and the many other colourful personalities that come alive in his riveting account **Healthcare Policy and Reform: Concepts, Methodologies, Tools, and Applications** Management Association, Information Resources,2018-08-03 Industry professionals government officials and the general public often agree that the modern healthcare system is in need of an overhaul With many organizations concerned with the long term care of patients new strategies practices and organizational tools must be developed to optimize the current healthcare system Healthcare Policy and Reform Concepts Methodologies Tools and Applications is a comprehensive source of academic material on the importance of policy and policy reform initiatives in

modern healthcare systems Highlighting a range of topics such as public health effective care delivery and health information systems this multi volume book is designed for medical practitioners medical administrators professionals academicians and researchers interested in all aspects of healthcare policy and reform Urban Political Ecology in the Anthro-po-obscene Henrik Ernstson,Erik Swyngedouw,2018-12-07 Urban Political Ecology in the Anthro-po-obscene Interruptions and Possibilities centres on how to organize anew the articulation between emancipatory theory and political activism Across its theoretical and empirical chapters written by leading scholars from anthropology geography urban studies and political science the book explores new political possibilities that are opening up in an age marked by proliferating contestations sharpening socio ecological inequalities and planetary processes of urbanization and environmental change A deepened conversation between urban environmental studies and political theory is mobilized to chart a radically new direction for the field of urban political ecology and cognate disciplines What could emancipatory politics be about in our time What does a return of the political under the aegis of equality and freedom signal today in theory and in practice How do political movements emerge that could re invent equality and freedom as actually existing socio ecological practices The hope is to contribute discussions that can expand and rearrange critical environmental studies to remain relevant in a time of deepening depoliticization and the rise of post truth politics Urban Political Ecology in the Anthro-po-obscene will be of interest to postgraduates established scholars and upper level undergraduates from any discipline or field with an interest in the interface between the urban the environment and the political including geography urban studies environmental studies and political science **Transitioning Vocational Education and Training in Africa** Simon McGrath,George Openjuru Ladaah,Heila Lotz-Sisitka,Stephanie Allais,Jacques Zeelen,Volker Wedekind,Presha Ramsarup,David Monk,Luke Metelerkamp,Jo-Anna Russon,Bonaventure Kyaligonja,Glen Robbins,Scovia Adrupio,David Ocan,Kenneth Nyeko,Adoye Primo,Palesa Molebatsi,Themba Tshabalala,Sidney Muhangi,Maxwell Openjuru,2023-01-06 EPDF and EPUB available Open Access under CC BY NC ND licence The transition to more just and sustainable development requires radical change across a wide range of areas and particularly within the nexus between learning and work This book takes an expansive view of vocational education and training that goes beyond the narrow focus of much of the current literature and policy debate Drawing on case studies across rural and urban settings in Uganda and South Africa the book offers a new way of seeing this issue through an exploration of the multiple ways in which people learn to have better livelihoods Crucially it explores learning that takes place informally online within farmers groups and in public and private educational institutions Offering new insights and ways of thinking about this field the book draws out clear implications for theory policy and practice in Africa and beyond **Students' participation in university governance in South Africa** Vuyo Mthethwa,2023-03-01 The purpose of this book is to examine the academic experiences of students who participated in university governance at South African universities Scrutiny is placed on the alignment of student representative council

constitutions and university statutes with the actual experiences students had in discharging their roles in governance and in the way this impacted their academic progress Through a multi site case study design semi structured interviews were conducted with members of the student representative council who participated in university governance and supported by document analysis and observations to generate the data The study adopted Tinto s Integration Theory and Astin s Theory of Involvement as the two frameworks are based on the relationship between students extra curricular activity and their academic experiences The study invokes a greater awareness of students as major stakeholder in governance and informs policies and practices that may better serve students academic experiences The study will contribute to the understanding of cooperative governance principles while drawing from the perspective of the students on their understanding limitations and challenges in discharging their roles in university governance Small Carnivores Emmanuel Do Linh San,Jun J.

Sato,Jerrold L. Belant,Michael J. Somers,2022-07-25 Small Carnivores Evolution Ecology Behaviour and Conservation This book focuses on the 232 species of the mammalian Order Carnivora with an average body mass 21.5 kg Small carnivores inhabit virtually all of the Earth s ecosystems adopting terrestrial semi fossorial semi arboreal or semi aquatic lifestyles They occupy multiple trophic levels and therefore play important roles in the regulation of ecosystems such as natural pest control seed dispersal and nutrient cycling In areas where humans have extirpated large carnivores small carnivores may become the dominant predators which may increase their abundance mesopredator release to the point that they can sometimes destabilize communities drive local extirpations and reduce overall biodiversity On the other hand one third of the world s small carnivores are threatened or near threatened with extinction This results from regionally burgeoning human populations industrial and agricultural activities causing habitat reduction destruction fragmentation and pollution Overexploitation persecution and the impacts of introduced predators competitors and pathogens have also negatively affected many small carnivore species Although small carnivores have been intensively studied over the past decades bibliometric studies showed that they have not received the same attention given to large carnivores Furthermore there is huge disparity in how research efforts on small carnivores have been distributed with some species intensively studied and others superficially or not at all This book aims at filling a gap in the scientific literature by elucidating the important roles of and documenting the latest knowledge on the world s small carnivores pThis is a book that has been needed for decades It is the first compendium of recent research on a group of mammals which has received almost no attention before the early 1970s This book covers a wide range of subdisciplines and techniques and should be considered a solid baseline for further research on this little known group of highly interesting mammals As our knowledge regarding how ecosystems function increases then the valuable role of small carnivores and the necessity for their conservation should be regarded as of paramount importance The topics covered in this book should therefore be of great interest not only to academics and wildlife researchers but also to the interested layman **Governance and Societal Adaptation in Fragile States** John

Idriss Lahai, Helen Ware, 2020-06-09 This book examines the various ways in which some fragile states in the Global South or states with limited statehood have adopted and adapted to processes of governance in their quests to address the socialized problems affecting their societies. It tells the story of these states' resilience in the societal adaptation to a liberalized notion of governance. In addition to comparative case studies, the book also analyzes the engendered interplay of culture, economics, and politics in the creation of people-centric governance reforms. The contributing authors shed light on weak states' often constructive engagement in the promotion of state governance under a variety of societal conditions, adverse or otherwise, and on their ability to remain resilient despite the complexities of the political and economic challenges they face.

Soshanguve paremiology+ Napjadi Letsoalo, Mpho Ngoepe, 2025-08-15 This scholarly book explores the transformative role of proverbs in cultural education, preservation, and scholarly discourse in South Africa. It emphasises the importance of integrating indigenous African knowledge into academic spaces to support decolonisation, re-Africanisation, and transformation. Proverbs are presented as tools for promoting multilingualism, multiculturalism, social cohesion, and mutual respect in South Africa's diverse society. The book addresses the United Nations' UN Sustainable Development Goal (SDG) 4 (quality education), SDG 5 (gender equity), SDG 9 (innovation), and SDG 10 (reduce inequality). It serves as a teaching resource for proverbs in Northern Sotho, Sepedi, Sesotho, Setswana, Xitsonga, isiZulu, isiXhosa, isiNdebele, siSwati, and/or Tshivenda. A Sotho Shangaan, Nguni, and Venda iSoshanguve, as well as Chichewa and Shona, supporting cross-cultural understanding. Grounded in a scholarly project on a multilingual proverbs dictionary, the book applies theoretical frameworks such as conceptual metaphor theory, ethnopragmatics, and translation quality assessment to analyse proverbs. This interdisciplinary approach bridges linguistics, anthropology, and digital humanities, offering fresh insights into the semantics and cultural significance of proverbs. The chapters in the book explore themes like proverbs in music, their intersection with patriarchy, and translation quality assessment. Targeted at scholars and experts in languages, literature, linguistics, and digital humanities, the book advances the study of proverbs while fostering cultural awareness and sensitivity. It highlights the value of proverbs as linguistic and cultural assets, enriching academic and practical applications across disciplines. *Language Matters in Contemporary Zimbabwe* Collen Sabao, Esther Mavengano, 2024-06-17 Speaking to a broader global preoccupation with the state of languages and language development, this book considers issues surrounding the diverse languages, linguistic communities, and cultures of Zimbabwe. Reflecting on Shona, Xitsonga, Sotho, Xhosa, Tjwao, Nambya, IsiNdebele, Nyanja, Tshivenda, English, and Braille, the book uncovers both the internal and external factors that impact language structures, language use, and language ideologies across the country. The book considers how colonial legacies and contemporary language domination and minoritisation have led to language endangerment. It considers the fate of communities whose languages are marginalised and, in the process, poses questions on what can and should be done to preserve Zimbabwean languages. The authors' offerings range across subjects as diverse as music, linguistic innovation, education, human rights,

literature language politics and language policy in order to build a rich and nuanced picture of language matters in the country Coming at a critical moment of increasing mobility migration cultural plurality and globalisation this book will be an important resource for researchers across African literature linguistics communication policy and politics **Sustainable Uses and Prospects of Medicinal Plants** Learnmore Kambizi, Callistus Bvenura, 2023-05-05 Sustainable Uses and Prospects of Medicinal Plants presents information on less known and underexplored medicinal plant species in various regions of the world The book investigates current advances in medicinal plant science and includes detailed information on the use of green nanotechnology characterization of plants conservation revitalization propagation and pharmacological activities of selected plants A volume in the Exploring Medicinal Plants series it collects information on less known medicinal plant species in various regions of the world for documentation profiling their ethnobotany developments in their phytochemistry and pharmacological activities and provides an in depth look at some specific herbal medicines of importance threatened and less known species and addresses sustainable utilization and conservation of medicinal plants to ensure existence and use Appropriate for plant and biodiversity conservation organisations community leaders academicians researchers and pharmaceutical industry personnel the book comprises innovative works with information of what is expected to address sustainability in the future *The Origin and Growth of Geography as a discipline at South Africa Universities* Gustav Visser, Ronnie Donaldson, Cecil Seethal, 2016-09-20
