Handbook of International Development and Education Pauline Dixon, Steve Humble, Chris Counihan, 2015-06-29 This Handbook considers the myths and untruths that currently exist in international development and education Using historic and contemporary evidence this compendium redefines the international development narrative through a new understanding of **OHI**, 1994 *Sustainability and Digital Engineering Management* Arnesh Telukdarie, 2025-05-27

Sustainability and Digital Engineering Management showcases real world case studies that demonstrate how digital technologies can help engineering managers achieve sustainable outcomes It is a key resource for engineers project managers and students seeking practical sustainability solutions **Negotiating Identities in Contemporary Africa**

Toyin Falola, Emmanuel M. Mbah, 2023-08-29 *Negotiating Identities in Contemporary Africa* Gender Religion and Ethno cultural Identities explores the changing dynamics of identities in Africa with a focus on gender ethno cultural and religious identity Toyin Falola and Emmanuel M Mbah argue that because identity defines who we are as individuals or groups studies on African identities must focus on understanding the changing dynamics in the socio economic and political spheres in the continent These chapters cover subjects such as women s career identity gender roles and knowledge childlessness ethnocentrism and democracy cultural identity through theater Black identity in the diaspora and diasporic consciousness Using existing scholarship the chapters in this edited volume challenge our understanding of what identity entails and provide new discussions on the hitherto politicized historiography of some identities in Africa **Selected Water**

Resources Abstracts, 1988 **Towards a Christian Theology of African Ancestors** Thomas Ochieng Otanga, 2023-04-21 This book examines the similarities and relationship between Christian saints and African ancestors Further it analyzes the deep cultural roots of African peoples and the ancestral frame as a point of departure for developing an indigenous African theology Questions dealt with include Does the conversion of Africans to Christianity require a break with their African cultural heritage Who is an African ancestor Is syncretism a good thing for an African Christian What contribution can the African church make to the universal church The author argues that rather than being antithetical to formal Christianity an African Christian theology of ancestors is an example of how an indigenous African tradition can best express Christianity as well as make considerable impact on world Christianity **Issues in Ecosystem Ecology: 2011**

Through the Lens / Através del Lente Vicki Fish,2020-05-21 Through the Lens By Vicki Fish Through the Lens is about how the author can look at ordinary things and draw a Christian perspective out of it It takes readers through her walk with God The author hopes this book will bring encouragement to readers and may give them ideas on a sermon talk or speech No two pages have the same photo or same text from the bible The verses may duplicate but they come from a different part of the bible It is written in a devotional format by the author so that readers can read a page each day The photos were taken in Kenya Egypt Nicaragua Guatemala and throughout the United States

Forum ,1982 *Kenyan Education in Its African Context* Henry D'Souza,1987 *Geology and Health* H. Catherine W. Skinner,Antony R. Berger,2003 Geology and Health is an integration of papers from geo bio chemical scientists on health issues of concern to humankind worldwide demonstrating how the health and well being of populations now and in the future can benefit through coordinated scientific efforts International examples on dusts coal arsenic fluorine lead mercury and water borne chemicals that lead to health effects are documented and explored They were selected to illustrate how hazards and potential hazards may be from natural materials and processes and how anthropomorphic changes may have contributed to disease and debilitation instead of solutions Introductory essays by the editors highlight some of the progress toward scientific integration that could be applied to other geographic sites and research efforts A global purview and integration of earth and health sciences expertise could benefit the future of populations from many countries Effective solutions to combat present and future hazards will arise when the full scope of human interactions with the total environment is appreciated by the wide range of people in positions to make important and probably expensive decisions A case to illustrate the point of necessary crossover between Geology and Health was the drilling of shallow tube wells in Bangladesh to provide non contaminated ground water This good solution unfortunately mobilized arsenic from rocks into the aquifer and created an unforeseen or silent hazard arsenic Geologists produce maps of earth materials and are concerned with natural processes in the environment with long time frame horizons The health effects encountered through changing the water source might have been avoided if the hydrological characteristics of the Bangladesh delta had been known and any chemical hazards had been investigated and documented A recurrence of this type of oversight should be avoidable when responsible parties often government officials appreciate the necessity of such integrated efforts The book extols the virtues of cooperation between the earth life and health sciences as the most practical approach to better public health worldwide
