Visser, 2016-09-20 The publication provides the first comprehensive text that reflects on a century of the development of geography as an academic discipline at South African universities The book showcases a broad and textured review of South Africa s geography departments their staff members their times and the different Geographies they engaged in The book lays the foundation from which more expansive individual departmental histories can be written in the future *The Guide to*

*COIL Virtual Exchange* Jon Rubin, Sarah Guth, 2023-07-03 This is the authoritative guide to implementing COIL Virtual Exchange conceived and co edited by one of the originators of this innovative approach to internationalization Jon Rubin COIL the acronym for Collaborative Online International Learning is a central modality of what has come to be known as virtual exchange Since its first iteration in 2002 it has gradually established itself as a mature pedagogy that is being increasingly implemented across the world and is validated by a growing body of research COIL Virtual Exchange at its most essential is a bi lateral online exchange involving the integration of existing courses across two or sometimes more institutions that are geographically and or culturally distinct To launch a COIL VE course the instructor of a class at a higher education institution in one location links online with a professor and his or her class in another region or country Together their students engage and develop joint projects usually over a continuous five to eight week period Compared to the limited number of students worldwide who can engage in study abroad COIL VE potentially opens up more equitable and inclusive participation in international education and intercultural experiences to all students involves them in rigorous disciplinary and interdisciplinary studies and promotes close and constructive engagement with students with different cultural perspectives While many COIL courses are launched by individual instructors based on their research connections and online outreach they are being increasingly supported and led by dedicated COIL Coordinators who facilitate virtual exchanges and provide professional development This comprehensive guide covers COIL VE pedagogy provides examples of what takes place in the COIL classroom and explores what instructors and staff need to know to facilitate and support a variety of COIL courses across the curriculum It addresses how institutional stakeholders especially those in leadership positions can develop

and embed a successful COIL initiative at their institution It offers varied perspectives of COIL viewed from different institutional and cultural vantage points from research universities community and technical colleges and university systems and describes how COIL VE is developing in five different world regions presenting eleven case studies The book concludes with a guide to thirteen global organizations that support COIL and other forms of VE Additionally the book provides links to the COIL Connect for Virtual Exchange website <https://coilconnect.org> which includes an updated directory of organizations an expanding database of faculty and institutions participating in COIL and looking for partners course templates survey data and case studies This book offers faculty and administrators across the world whether formally involved in international education in service learning and community engagement or wanting to incorporate a cross cultural perspective in their disciplinary courses theoretical foundations guidance on effective collaboration and the strategic and pedagogical considerations to develop robust COIL VE courses and programs

**The ^AOxford Handbook of Global South Youth Studies**, 2021-09-23 The Oxford Handbook of Global South Youth Studies offers a contribution from Southern scholars to remake Youth Studies from its current state that universalises Northern perspectives into a truly Global Youth Studies It foregrounds Southern youth s life worlds and realigns theory with contemporary youth practices in to a more just and egalitarian epistephraxis

*Anchored in Place* Leslie Bank,Nico Cloete,2018-11-05 Tensions in South African universities have traditionally centred around equity particularly access and affordability historical legacies such as apartheid and colonialism and the shape and structure of the higher education system What has not received sufficient attention is the contribution of the university to place based development This volume is the first in South Africa to engage seriously with the place based developmental role of universities In the international literature and policy there has been an increasing integration of the university with place based development especially in cities This volume weighs in on the debate by drawing attention to the place based roles and agency of South African universities in their local towns and cities It acknowledges that universities were given specific development roles in regions homelands and towns under apartheid and comments on why sub national place based development has not been a key theme in post apartheid higher education planning Given the developmental crisis in the country universities could be expected to play a more constructive and meaningful role in the development of their own precincts cities and regions But what should that role be Is there evidence that this is already occurring in South Africa despite the lack of a national policy framework What plans and programmes are in place and what is needed to expand the development agency of universities at the local level Who and what might be involved Where should the focus lie and who might benefit most and why Is there a need perhaps to approach the challenges of college towns secondary cities and metropolitan centers differently This book poses some of these questions as it considers the experiences of a number of South African universities including Wits Pretoria Nelson Mandela University and especially Fort Hare as one of its post centenary challenges

**Sociology in South Africa** R. Sooryamoorthy,2016-08-13 This book is

the first comprehensive account of the history and current state of South African sociology Providing a holistic picture of the subject both as it is taught in universities and as a field of research it reveals the trajectories of a discipline in a challenging socio political context With the support of historical and scientometric data it demonstrates how the changing political situation from colonialism to apartheid to democracy has influenced the nature direction and foci of sociological research in the country The author shows how during the apartheid era sociology was professionally fragmented and divided along language and race lines It was however able to flourish with the advent of democracy in 1994 and has become a unique academic movement This insightful work will appeal to students and scholars of the social sciences and all those interested in the history and society of South Africa

*Pentecostalism and Human Rights in Contemporary Zimbabwe* Francis Machingura, Lovemore Togarasei, 2018-06-11 This volume offers updated accounts of Pentecostalism in Zimbabwe and explores most of the dominant themes in contemporary Pentecostalism including leadership competition gender youth and prosperity In addition some chapters investigate emerging themes in studies on Pentecostalism such as disability Contributors to this volume situate Zimbabwean Pentecostalism within the larger continuum of global Pentecostalism and reflect on Pentecostal biblical interpretation the interface between Pentecostalism and African Traditional Religions the use of titles in Zimbabwean Pentecostalism and Pentecostalism's engagement with HIV AIDS The book will appeal to scholars in religious studies and theology religious education disability studies social sciences history political science development studies gender cultural studies and anthropology as well as general readers

*Proceedings of the 23rd European Conference on e-Learning* Fernando Moriera,

Publishing from the South Sarah Nuttall, Isabel Hofmeyr, 2024-11-01 In 2022 Wits University Press marked its centenary making it the oldest most established university press in sub Saharan Africa While in part modelled on scholarly publishers from the global North it has had to contend with the constraints of working under global South conditions marginalisation within the university budgetary limitations small local markets unequal access to international sales channels and the privileging of English language publishing over indigenous languages This volume explores what the Press has achieved and what its modes of reinvention might look like In widening and deepening our understanding of the Press as an example of a global South scholarly publisher this volume asks how publishing can contribute to a broader understanding of Southern knowledge production Featuring contributions from scholars publishers and authors this multi voiced volume showcases the history of the Press s publishing activities over 100 years from documenting its evolution through book covers and giving credence to some of the leading black intellectuals and writers of the early 20th century and the success of those works in spite of their authors racial marginalisation to the role of women both in publishing and in the spaces afforded to women s writing on the Press s list The collection concludes with essays by contemporary authors who detail not only their experiences of working with Southern publishers but also the politics and influences governing their decisions to choose the Press over a Northern publisher Publishing from the South shows the strategies deployed by the Press to professionalise Southern knowledge making and in the process demonstrating how university presses in the global South support the scholarly missions of their universities for both local and global audiences A Bold Profession Leslie Anne Hadfield, 2021-05-11 In rural South African clinics Black nurses were charged with administering life saving health care measures despite a lack of equipment and personnel often while navigating the intersections of traditional African healing practices and changing gender relations A Bold Profession is an homage to their dedication to the well being of their communities Politics at a Distance from the State Lucien van der Walt, Kirk Helliker, 2022-08-23 For decades most anti capitalist and anti imperialist movements identified radical transformation with capturing state power The collapse of these statist projects from the 1970s led to a global crisis of left and working class politics But crisis has also opened space for rediscovering alternative society centered anti capitalist modes of bottom up change operating at a distance from the state These have registered important successes in practice such as the Zapatistas in Mexico and Rojava in Syria They have been a key influence on movements from Occupy in United States to the landless in Latin America to anti austerity struggles in Europe and Asia to urban movements in Africa Their lineages include anarchism syndicalism autonomist Marxism philosophers like Alain Badiou and radical popular praxis This path breaking volume recovers this understanding of social transformation long side lined but now resurgent like a seed in the soil that keeps breaking through and growing It provides case studies with reference to South Africa and Zimbabwe and includes a dossier of key texts from a century of anarchists syndicalists insurgent unionists and anti apartheid activists in South Africa Originating in an African summit of radical

academics struggle veterans and social movements the book includes a preface from John Holloway      Development Naivety and Emergent Insecurities in a Monopolised World Munyaradzi Mawere, 2018-09-17 It is common knowledge that development without security is like a runaway horse Yet development in Africa has been plagued by insecurities since the extractive periods of slave trade and colonialism In spite of political independence and the euphoria of sovereignty as states Africa has failed to address insecurity which continues to loom large and to threaten aspirations towards truly inclusive and sustainable development A consequence has been Africa's development naivety vis vis the monopolisation of development by the predatory elite actors of the global North and their local facilitators To salvage the continent from such predation and the insecurities engendered requires novel and innovative imagination and praxis This book draws from both the haunted landscapes and bitter memories of past exploitations and from the feeding of the insatiable North with African resources and humanity It brings together essays by a concerned generation of scholars driven by the urgent need for radical decolonisation of African development and its legacies of insecurities It is handy to students and practitioners in economics policy studies political science development studies global and African studies      Shadow Libraries Joe Karaganis, 2018-05-04 How students get the materials they need as opportunities for higher education expand but funding shrinks From the top down Shadow Libraries explores the institutions that shape the provision of educational materials from the formal sector of universities and publishers to the broadly informal ones organized by faculty copy shops student unions and students themselves It looks at the history of policy battles over access to education in the post World War II era and at the narrower versions that have played out in relation to research and textbooks from library policies to book subsidies to more recently the several open publication models that have emerged in the higher education sector From the bottom up Shadow Libraries explores how simply students get the materials they need It maps the ubiquitous practice of photocopying and what are in many cases the more marginal ones of buying books visiting libraries and downloading from unauthorized sources It looks at the informal networks that emerge in many contexts to share materials from face to face student networks to Facebook groups and at the processes that lead to the consolidation of some of those efforts into more organized archives that circulate offline and sometimes online the shadow libraries of the title If Alexandra Elbakyan's Sci Hub is the largest of these efforts to date the more characteristic part of her story is the prologue the personal struggle to participate in global scientific and educational communities and the recourse to a wide array of ad hoc strategies and networks when formal authorized means are lacking If Elbakyan's story has struck a chord it is in part because it brings this contradiction in the academic project into sharp relief universalist in principle and unequal in practice Shadow Libraries is a study of that tension in the digital era Contributors Balzs Bod Laura Czerniewicz Mirosław Filiciak Mariana Fossatti Jorge Gemetto Eve Gray Evelin Heidel Joe Karaganis Lawrence Liang Pedro Mizukami Jhessica Reia Alek Tarkowski      **Democracy and Education in Namibia and Beyond** Amukugo, Elizabeth M., 2017-07-19 The Namibian constitution makes full provision for education

as a fundamental human right and freedom Three years into independence as part of the government's educational policy the Education for All Policy was launched as a stepping stone to free quality education However inequities have become widely pronounced within the Namibian educational system Democracy and Education in Namibia and beyond debates the education democracy nexus in Namibia and the southern African context It defines and explores the meaning of democracy and related concepts It also looks at what democracy means in the context of human rights and access to education The ten chapters in this collection interrogate the strengths and limitations of education as an instrument of social change and question whether or not the Namibian educational objectives and practices do develop and help to sustain a democratic culture in Namibia The authors in the collection have drawn material from their own teaching and research experience across the fields of education and social science in Namibia and beyond and present their findings in a pedagogical framework suitable as a challenging text for tertiary students At a time when education is in crisis especially in South Africa where strident calls for free tertiary education and Africanisation of the curriculum are spreading like wildfire this book gives scholarly insight into the history and social conditions that gave rise to our current predicament Effects of Globalization on Education Systems and Development Macleans A. Geo-JaJa, Suzanne Majhanovich, 2016-11-04 With its comprehensive coverage and quality this provocative book is concerned with the future of developing countries in Africa Asia and Latin America By providing in depth analysis of the economic social and educational challenges of emerging states it offers an alternative roadmap to development The authors in this collection substantiate the notion that emerging states often do not participate in policy choices related to their development when faced with universalization of curriculum and internationalization of education The authors make explicit the direct and indirect effects of globalization on educational systems social equity and the path of development In demonstrating the impact of neoliberalism or market based reforms on the developing world the authors show that education without human rights is vulnerable to negative forces of globalization and internationalization The message of the book is quite pessimistic about possibilities to widen the economic space or increase freedom unless development cooperation is made possible by Helping People Help Themselves as suggested by David Ellerman The authors note that in the past the issue of emerging states as an appendage to the world economy was a fundamental question related to colonialism but now has become a question of imperialism which needs to be examined when considering the current patterns of development **Political Economy of Contemporary African Popular Culture** Kealeboga Aiseng, Israel A. Fadipe, Phillip Mpofu, 2024-04-01 Drawing on examples from across the continent this volume examines socially significant aspects of contemporary African popular culture including music cultures fandoms and community mass and digital media to demonstrate how neoliberal politics and market forces shape the cultural landscape and vice versa Contributors investigate the role that the media politicians and corporate interests play in shaping that landscape highlight the crucial role of the African people in the production and circulation of popular culture more broadly

and furthermore demonstrate how popular culture can be used as a tool to resist oppressive regimes and challenge power structures in the African context Scholars of political communication cultural studies and African studies will find this book particularly useful Lessons To Be Learnt From The World's Great Icons Life Experiences. Bheki S.V.

Ntshingila,2016-11-23 The book is about the late Mr Nelson Mandela the unrepentant crusader and freedom fighter against the obnoxious apartheid regime in South Africa who became an instant toast of the entire world which is a reminder that in each person there is a seed of greatness expected to be discovered and to be used to make this world a better one for all who live in it instead of experiencing hatred and brutality What makes a person to succeed is not how bad she or he thinks but is high optimism thinking big willingness to learn from other s mistakes and life experiences There is a lot we can learn from Madiba s life experience and I don t doubt that the world is also learning something constructive or destructive from you If you are not constructive to others how would you be constructive to yourself Remember greatness is a phenomenon that could be associated with anyone with a positive mind Good better best never let it rest till your good is better and your better is best **Historical Dictionary of South Africa** Christopher Saunders,Peter Limb,2020-12-15 As the most influential and powerful country on the entire continent of Africa an understanding of South Africa s past and its present trends is crucial in appreciating where South Africans are going to and from where they have come South Africa changed dramatically in 1994 when apartheid was dismantled and it became a democratic state Since 2000 when the previous edition appeared further big changes occurred with the rise of new political leaders and of a new black middle class There were also serious problems in governance in public health and the economy but with a remarkable popular resilience too This third edition of Historical Dictionary of South Africa contains a chronology an introduction and an extensive bibliography The dictionary section has more than 600 cross referenced entries on important personalities as well as aspects of the country s politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about South Africa

**Digital Soil Mapping Across Paradigms, Scales and Boundaries** Gan-lin Zhang,Dick Brus,Feng Liu,Xiao-Dong Song,Philippe Lagacherie,2016-02-15 This book contains papers presented at the 6th Global Workshop on Digital Soil Mapping held 11 14 November 2014 at the Institute of Soil Science Chinese Academy of Sciences of Nanjing China Digital soil mapping is advancing on different fronts at different paces throughout the world The researches and applications on DSM are moving from method development to realizations in different scales and regions serving the generation of national and continental to global soil grids Meanwhile new ideas and insights on mapping complex soil landscapes such as flat plains anthropogenically altered agriculture and urban spaces are emerging with the help of new paradigms and models The goal of the sixth workshop was to review and discuss the state of the art in digital soil mapping and to explore strategies for bridging research production and environmental applications This book provides a very useful and comprehensive overview of the status of digital soil mapping in which graduate students scientists and specialists

working within the field of geography can find the spatial prediction approaches and related theory
