Mabugu, Lucas Ronconi, 2025-10-03 This book investigates youth employment programmes across nine African countries providing important insights into the world's youngest continent by population in which 60% of people are aged under 25. In this book contributors bring together insights from more than 500 in-depth interviews and 1,500 focus group participants to consider whether youth employment programmes are effectively reaching vulnerable groups. This book tackles the problem of political clientelism in the allocation of benefits and considers the level of coordination that is taking place across programmes and political institutions. Combining rich empirical findings with data about labour market outcomes and institutions, this book will be an important read for researchers wishing to understand the political economy of youth employment policy in Africa. **Affirmative Intervention to Support Multispecies Relationships** Janet J.

The book's engagement model includes inner work focusing on critical analysis and analytical meditation on values and their consequences; outer work involving transformative education and organic food production workshops to engage a broad community of practice; and future work exploring narrative and 'if-then' scenarios to envision new possibilities with an emphasis on creativity and courage.
