University Where She Has Taught Since 1977:

American Learned Men and Women with Czechoslovak Roots Mila Rechcigl, 2020-11-18 Apart from a few articles no comprehensive study has been written about the learned men and women in America with Czechoslovak roots That s what this compendium is all about with the focus on immigration from the period of mass migration and beyond irrespective whether they were born in their European ancestral homes or whether they have descended from them Czech and Slovak immigrants including Bohemian Jews have brought to the New World their talents their ingenuity their technical skills their scientific knowhow and their humanistic and spiritual upbringing reflecting upon the richness of their culture and traditions developed throughout centuries in their ancestral home This accounts for the remarkable success and achievements of these settlers in their new home transcending through their descendants as this monograph demonstrates The monograph has been organized into sections by subject areas i e Scholars Social Scientists Biological Scientists and Physical Scientists Each individual entry is usually accompanied with literature and additional biographical sources for readers who wish to pursue a deeper study The selection of individuals has been strictly based on geographical ground without regards to their native language or ethnic background This was because under the Habsburg rule the official language was German and any nationalistic aspirations were not tolerated Consequently it would be virtually impossible to determine their innate ethnic roots or how the respective individuals felt Doing it in any other way would be a mere guessing and thus less objective

Jewish Philosophy for the Twenty-First Century Hava Tirosh-Samuelson, Aaron W. Hughes, 2014-08-21 Jewish Philosophy for the Twenty First Century encourages contemporary Jewish thinkers to reflect on the meaning of Judaism in the modern world by connecting these reflections to their own personal biographies In so doing it reveals the complexity of Jewish thought in the present moment The contributors reflect on a range of political social ethical and educational challenges that face Jews and Judaism today and chart a path for the future The results showcase how Jewish philosophy encompasses the methodologies and concerns of other fields such as political theory intellectual history theology religious studies anthropology education comparative literature and cultural studies By presenting how Jewish thinkers address contemporary challenges of Jewish existence the volume makes a valuable contribution to the humanities as a whole especially at a time when the humanities are increasingly under duress for being irrelevant **Traditional Storytelling**

Today Margaret Read MacDonald, 2013-12-16 Traditional Storytelling Today explores the diversity of contemporary storytelling traditions and provides a forum for in depth discussion of interesting facets of contemporary storytelling Never before has such a wealth of information about storytelling traditions been gathered together Storytelling is alive and well

throughout the world as the approximately 100 articles by more than 90 authors make clear Most of the essays average 2 000 words and discuss a typical storytelling event give a brief sample text and provide theory from the folklorist A comprehensive index is provided Bibliographies afford the reader easy access to additional resources *Notable American Women with Czechoslovak Roots* Miloslav Rechcigl Jr.,2019-09-16 Even though there exist only a few general studies on the subject of Czechoslovak American women this is not at all a reflection of the paucity of work done by these women as this publication demonstrates This monograph is a compendium of notable American women with Czechoslovak roots who distinguished themselves in a particular field or area from the time they first immigrated to America to date Included are not only individuals born on the territory of former Czechoslovakia but also their descendants This project has been approached strictly geographically irrespective of the language or ethnicity Because of the lack of bibliographical information most of the monograph comprises biobibliographical information in which area a plethora of information exists As the reader will discover these women have been involved practically in every field of human endeavor in numbers that surprise On the whole they have been noted for their independent spirit and nonconforming role **Health Care Financing Review** ,1991
