An abstract, expressive painting of a human face. The face is rendered with thick, visible brushstrokes in a palette of dark reds, oranges, yellows, and blacks. The eyes are particularly striking, with bright yellow and orange hues. The overall composition is dark and moody, with the face emerging from a swirling, textured background of similar colors.

OECD Reviews of Risk Management Policies Illicit Trade Converging Criminal Networks OECD,2016-04-18 This report assesses the magnitude flows and drivers of illicit trade and the illegal economy including narcotics human trafficking wildlife sports betting counterfeit medicines alcohol and tobacco **Weak Links** Stewart Patrick,2011 Conventional wisdom holds that weak and failing states are the source of the world s most pressing security threats After all the 9 11 attacks originated in an impoverished war ravaged country and transnational crime appears to flourish in weakly governed states However our assumptions about the threats posed by failing states are based on anecdotal arguments not on a systematic analysis of the connections between state failure and transnational security threats Analyzing terrorism transnational crime WMDs pandemic diseases and energy insecurity Stewart Patrick shows that while some global threats do emerge in fragile states most of their weaknesses create misery only for their own citizenry Moreover many threats originate farther up the chain in wealthier and more stable countries like Russia and Venezuela **Weak Links** will force policymakers to rethink what they assume about state failure and transnational insecurity Contemporary Economic Crime Michala Meiselles,Nicholas Ryder,Penelope Giosa,2025-09-30 This edited collection explores the culpability of corporate bodies and international organisations and examines the different responses to economic offences such as money laundering bribery and corruption cybercrime market manipulation insider trading and market abuse In a world where corporations wield legal personhood the legal intricacies of corporate criminal liability come to the forefront While national and international lawmakers attempt to rein in corporate power the ever evolving landscape demands a re evaluation of the current normative framework The heart of this book lies in its dual mission firstly to compare the different jurisdictional approaches to crimes committed by corporations and secondly to propose solutions to some of the challenges faced by lawmakers policymakers and law enforcement Expert contributors embark on a global journey from North America to the Asia Pacific via Europe from Common Law jurisdictions to Civil Law ones unravelling the diverse approaches to corporate and institutional crime The challenges facing lawmakers policymakers and law enforcement are explored throughout this book alongside solutions to the complex issues they face whether this involves money laundering bribery and corruption fraud cybertrafficking and corporate involvement in human rights violations **Contemporary Economic Crime Issues and Challenges** is an indispensable resource for anyone captivated by the dynamic dominion of white collar and corporate wrongdoing It will be of interest to academics legal practitioners lawmakers policymakers and law enforcement navigating the complex terrain of financial and corporate crime **Governing Guns, Preventing Plunder** Asif Efrat,2012-07-19 From human trafficking to smuggling small arms to looting antiquities illicit trade poses significant threats to international order So why is it difficult to establish international cooperation against illicit trade **Governing Guns Preventing Plunder** offers a novel thought provoking answer to this crucial

question Conventional wisdom holds that it is criminal groups that obstruct efforts to suppress illicit trade In contrast Asif Efrat explains how legitimate actors such as museums that acquire looted antiquities seek to hinder these regulatory efforts Yet such attempts to evade regulation fuel international political conflicts between governments that demand action against illicit trade and others that are reluctant to cooperate The book offers a framework for understanding the domestic origins of these conflicts and how the distribution of power shapes their outcome Through this framework Efrat explains why the interests of governments vary across countries trades and time In a fascinating empirical analysis he solves a variety of puzzles Why is the international regulation of small arms much weaker than international drug control What led the United States and Britain to oppose the efforts against plunder of antiquities and why did they ultimately join these efforts How did American pressure motivate Israel to tackle sex trafficking Efrat's findings will change the way we think about illicit trade offering valuable insights for scholars activists and policymakers
