Unremembered Chapters 5 Book:

Wordsworth's Unremembered Pleasure Alexander Freer, 2020-10-29 Wordsworth has traditionally been understood as the poet of memory This book argues that unremembered pleasure an idea Wordsworth formulates in Tintern Abbey but is often overlooked by modern readers is central to understanding his writing Wordsworth's poems discover and articulate a broad range of previously unfelt unnoticed and unconscious satisfactions As well as providing new interpretations of major and under studied writing by Wordsworth this volume challenges a long tradition of psychoanalytic reading of romanticism which uses trauma to explain the limits of literary memory The book contests key psychoanalytic concepts in literary criticism including repression sublimation mourning and pleasure It asks what it would mean for us to be surprised by joy

Education of Harris Bailley Book Two Richard Schroeder, 2009-10-11 The education of Harris continues as he encounters the trials and joys of life as a teacher in small private schools

Virgil's Double Cross David Quint, 2018-05-29 The message of Virgil's Aeneid once seemed straightforward enough the epic poem returned to Aeneas and the mythical beginnings of Rome in order to celebrate the city's present world power and to praise its new master Augustus Caesar Things changed when late twentieth century readers saw the ancient poem expressing their own misgivings about empire and one man rule In this timely book David Quint depicts a Virgil who consciously builds contradiction into the Aeneid The literary trope of chiasmus reversing and collapsing distinctions returns as an organizing signature in Virgil's writing a double cross for the reader inside the Aeneid's story of nation empire and Caesarism Uncovering verbal designs and allusions layers of artfulness and connections to Roman history Quint's accessible readings of the poem's famous episodes the fall of Troy the story of Dido the trip to the Underworld and the troubling killing of Turnus disclose unsustainable distinctions between foreign war civil war Greek Roman enemy lover nature culture and victor victim The poem's form Quint shows imparts meanings it will not say

directly The Aeneid's life and death issues about how power represents itself in grand narratives about the experience of the defeated and displaced and about the ironies and revenges of history resonate deeply in the twenty first century This new account of Virgil's masterpiece reveals how the Aeneid conveys an ambivalence and complexity that speak to past and present

The Jesuits and Globalization Thomas Banchoff, José Casanova, 2016-05-25 The Society of Jesus commonly known as the Jesuits is the most successful and enduring global missionary enterprise in history Founded by Ignatius Loyola in 1540 the Jesuit order has preached the Gospel managed a vast educational network and shaped the Catholic Church society and politics in all corners of the earth Rather than offering a global history of the Jesuits or a linear narrative of globalization Thomas Banchoff and Jos Casanova have assembled a multidisciplinary group of leading experts to explore what we can learn from the historical and contemporary experience of the Society of Jesus what do the Jesuits tell us about globalization and what can globalization tell us about the Jesuits Contributors include comparative theologian Francis X Clooney SJ historian John W O Malley SJ Brazilian theologian Maria Clara Lucchetti Bingemer and ethicist David Hollenbach SJ They focus on three critical themes global mission education and justice to examine the historical legacies and contemporary challenges Their insights contribute to a more critical and reflexive understanding of both the Jesuits history and of our contemporary human global condition

The Human-Animal Boundary Nandita Batra, Mario Wenning, 2018-11-27 Throughout the centuries philosophers and poets alike have defended an essential difference rather than a porous transition between the human and animal Attempts to assign essential properties to humans e g language reason or morality often reflected ulterior aims to defend a privileged position for humans This book shifts the traditional anthropocentric focus of philosophy and literature by combining the questions What is human and What is animal What makes this collection unique is that it fills a lacuna in critical animal studies and the growing field of ecocriticism It is the first collection that establishes a productive encounter between philosophical perspectives on the human animal boundary and those that draw on fictional literature The objective is to establish a dialogue between those disciplines with the goal of expanding the imaginative scope of human animal relationships The contributions thus do not only trace and deconstruct the boundaries dividing humans and nonhuman animals they also present the reader with alternative perspectives on the porous continuum and surprising reversal of what appears as human and what as nonhuman

Chronology of Post-Roman Britain Flint F. Johnson, 2014-02-07 In this book the author makes use of the methodology he developed in *Origins of Arthurian Romances* McFarland 2012 in order to reevaluate the post Roman history of Britain He begins by delving into the historical contexts of the key traditional players of the fifth century Hengest and Gwrtheyrn A better understanding of these two characters allows for a reexamination of the persons and events of the fifth sixth and seventh centuries The text that follows entirely realigns how those centuries can be seen from a chronological as well as a military and political standpoint The fifth century was not a time of British and Germanic fragmentation as they separated from Rome but one of slow integration and the formation of kingships that were a result of the economic realities of surviving without the dying giant
