**World War II in Europe** David T. Zabecki,2015-05-01 World War II defined the 20th century and shaped many events from the decolonization of Africa to the rise and fall of the Berlin Wall This encyclopedia offers a focused overview of this complex and volatile era the circumstances that led up to war the underlying causes its unfolding and consequences Organized for quick and precise access More than 1300 entries by 150 experts are arranged in six sections for easy reference and consultation All the key ideas events actions weapons individuals and organizations that played vital roles in the war are covered from the Axis Pact to the Arab League from the OSS to the Africa Korps from the Chetniks to the Jedburghs from the battle of Kursk to Operation Mincemeat from Bill Donovan to Otto Skorzeny from Gestapo to SMERSH from Georgi Zhukov to Jean Leclerc from the 88 gun to the Norden Bombsight Covers important neglected subjects The Encyclopedia puts special emphasis on the often neglected operations in Eastern Europe and Russia A key section inspects and rates all the major weapons with handy tables for easy comparison And in recognition of the first large scale participation of women in the war

the volume thoroughly documents their individual and unit contributions to the Allied effort Finally the encyclopedia discusses battlefield realities that explain for example why the airborne drops at Normandy succeeded and the ones at Arnheim failed A bibliography glossary maps photographs and weapons and data tables enhance the coverage Also includes 16 maps **Backlands** Michael McGarrity,2015-05-05 In the New York Times bestselling Hard Country Michael McGarrity gave readers an expansive lyrical period Western in the tradition of A B Guthrie Jr and Larry McMurtry Hampton Sides Now McGarrity continues his richly authentic epic of life on the last vestiges of the twentieth century American frontier Scarred by the loss of an older brother he idolized estranged from a father he barely knows and deeply troubled by the failing health of a mother he adores young Matthew Kerney is suddenly and irrevocably forced to set aside his childhood and take on responsibilities far beyond his years When the world spirals into the Great Depression and drought settles like a plague over the nation Matt must abandon his own dreams to salvage the Kerney ranch Plunged into a deep trough of dark family secrets hidden crimes broken promises and lies Matt must struggle to survive on the unforgiving sun blasted Tularosa Basin

**American Political Cartoons** Sandy Northrop,2017-07-05 From Benjamin Franklin s drawing of the first American political cartoon in 1754 to contemporary cartoonists blistering attacks on George W Bush and initial love affair with Barack Obama editorial cartoons have been a part of American journalism and politics American Political Cartoons chronicles the nation s highs and lows in an extensive collection of cartoons that span the entire history of American political cartooning Good cartoons hit you primitively and emotionally said cartoonist Doug Marlette A cartoon is a frontal attack a slam dunk a cluster bomb Most cartoonists pride themselves on attacking honestly if ruthlessly American Political Cartoons recounts many direct hits recalling the discomfort of the cartoons targets and the delight of their readers Through skillful combination of pictures and words cartoonists galvanize public opinion for or against their subjects In the process they have revealed truths about us and our democratic system that have been both embarrassing and ennobling Stephen Hess and Sandy Northrop note that not all cartoonists have worn white hats Many have perpetuated demeaning ethnic stereotypes slandered honest politicians and oversimplified complex issues **Breaking Point** Rebecca Schwartz Greene,2023-01-03 WINNER SOCIETY FOR MILITARY HISTORY DISTINGUISHED BOOK AWARDS FIRST BOOK This book informs the public for the first time about the impact of American psychiatry on soldiers during World War II Breaking Point is the first in depth history of American psychiatry in World War II Drawn from unpublished primary documents oral histories and the author s personal interviews and correspondence over years with key psychiatric and military policymakers it begins with Franklin Roosevelt s endorsement of a universal Selective Service psychiatric examination followed by Army and Navy pre and post induction examinations Ultimately 2.5 million men and women were rejected or discharged from military service on neuropsychiatric grounds Never before or since has the United States engaged in such a program In designing Selective Service Medical Circular No 1 psychiatrist Harry Stack Sullivan assumed psychiatrists could predict who might break down or falter in

military service or even in civilian life thereafter While many American and European psychiatrists questioned this belief and huge numbers of American psychiatric casualties soon raised questions about screening s validity psychiatric and military leaders persisted in 1942 and 1943 in endorsing ever tougher screening and little else Soon families complained of fathers and teens being drafted instead of being identified as psychiatric 4Fs and Blacks and Native Americans among others complained of bias A frustrated General George S Patton famously slapped two malingering neuropsychiatric patients in Sicily a sentiment shared by Marshall and Eisenhower though they favored a tamer style Yet psychiatric rejections evacuations and discharges mounted While psychiatrist Roy Grinker and a few others treated soldiers close to the front in Tunisia in early 1943 this was the exception But as demand for manpower soared and psychiatrists finally went to the field and saw that combat itself not predisposition precipitated breakdown leading military psychiatrists switched their emphasis from screening to prevention and treatment But this switch was too little too late and slowed by a year long series of Inspector General investigations even while numbers of psychiatric casualties soared Ironically despite and even partly because of psychiatrists wartime performance plus the emotional toll of war postwar America soon witnessed a dramatic growth in numbers popularity and influence of the profession culminating in the National Mental Health Act 1946 But veterans with PTSD not recognized until 1980 were largely neglected

*War and Existence* Michael Gelven, 2005-07-26 War is a multifaceted and complex phenomenon that cannot be understood merely by isolating its underlying principles The elements that compose the vast mosaic of our conceptions of war must be identified and examined in light of their philosophical origins Michael Gelven not only identifies what the fundamental principles are but he also extracts from the history of philosophy the arguments and analyses of the concepts that explain how we think about it War and Existence is primarily concerned with what war is or what the truth about war is rather than the moral question of whether war ever ought to be waged it only indirectly considers the military concerns of how war out to be carried out The elements or marks of war such as courage horror heroism sacrifice command and vastness are each examined by reference to a great philosophical figure whose critical analyses of these elements provide us with a deep understanding of them Gelven does not restrict his inquiry to mere formal concerns since the philosophical marks of war are concretized in judgments about actual wars His holistic approach includes not only actual historical events that surround our greatest military conflicts but also literary figures poets and composers whose works wrestle with the enormity of this splendid yet troubling phenomenon The two phenomena war and peace are viewed against the entire background of humanity with all its folly and sublimity War and Existence thus offers a thoughtful coherent response to one of the most problematic issues of humanity **Army**, 1983
