Cleary, 2002-01-03 The history of partition in the twentieth century is one steeped in controversy and violence *Literature Partition and the Nation State* offers an extended study of the social and cultural legacies of state division in Ireland and Palestine two regions where the trauma of partition continues to shape political events to this day Focusing on the period since the 1960s when the original partition settlements in each region were challenged by Irish and Palestinian nationalists Joe Cleary's book contains individual chapters on nationalism and self determination on the construction of national literatures in the wake of state division and on influential Irish Israeli and Palestinian writers film makers and public intellectuals Cleary's book is a radical and enthralling intervention into contemporary scholarship from a range of disciplines on nations and nationalism It will be of interest to scholars in Cultural and Post Colonial Studies Nations and Nationalism Irish Literature Middle East Studies and Modern History *Beyond the Nation-State* Dmitry Shumsky, 2018-01-01 A revisionist account of Zionist history challenging the inevitability of a one state

solution from a bold path breaking young scholar The Jewish nation state has often been thought of as Zionism s end goal In this bracing history of the idea of the Jewish state in modern Zionism from its beginnings in the late nineteenth century until the establishment of the state of Israel Dmitry Shumsky challenges this deeply rooted assumption In doing so he complicates the narrative of the Zionist quest for full sovereignty provocatively showing how and why the leaders of the prestate Zionist movement imagined articulated and promoted theories of self determination in Palestine either as part of a multinational Ottoman state 1882-1917 or in the framework of multinational democracy In particular Shumsky focuses on the writings and policies of five key Zionist leaders from the Habsburg and Russian empires in central and eastern Europe in the late nineteenth and early twentieth centuries Leon Pinsker Theodor Herzl Ahad Ha am Vladimir Ze ev Jabotinsky and David Ben Gurion to offer a very pointed critique of Zionist historiography

art and opens new debates on Jewish Israeli exceptionalism while shedding light on continuity and change in Israeli statehood vis vis the supposed uniqueness of Jewish history as reinterpreted and codified by Zionism As it examines the interconnections between local intelligentsia and politics the enquiry avails of the sociological concepts of generation habitus survival unit field according to the long period tradition of research in Pierre Bourdieu Norbert Elias Max Weber and more This rich sociological conceptualization permits to mirror and contextualize Israel s national identity with both intellectual and sociopolitical emphases By situating Israeli historians and their profession on the dynamic crossroads and intersections of academia politics and greater society the study delineates the deep meaning of Israeliness

The Palestinian-Arab Citizens of Israel: Towards the Internationalisation of National Aspirations Ilham Shahbari, 2021-01-28 The relations between the Israeli state and its Arab citizens have been distorted by the perception that national security concerns require the full rights of citizenship to be restricted for members of the Arab community However the national security of the state can also be affected by a poor reputation in the international community which plays a vital role in sustaining the existence of the state This created a space for Arab intelligentsia to use internationalisation as a means to promote their cause This study is designed to explore and analyse the internationalisation process and its impact regarding the Arab community in Israel It is a beneficial source to academics experts policymakers journalists and other experts and interested members of the public

Nation, Society and the State Dr. Abraham Weizfeld,2012-03-09 This work treats the European political philosophy that has engendered the Nation State concept considered to be the logical evolution of human history as a linear periodization into the Modern State This Modern State concept is treated as the end of history in liberal democratic theory in spite of it remaining a European phenomenon Where it has been imposed beyond the European political culture it has provoked a plague of civil wars and occupations such as in Palestine In Europe itself it has also resulted in such features as the Spanish Inquisition the latter day Spanish civil war and the fascist dictatorship that followed as well as the Nazi regime and its Holocaust in alliance with the various fascist allies seeking their own Nation State Various attempts have followed in Europe itself to overcome the Nation State itself by means of the European Union which sought to unite the Nation States with a federated effort to bring some stability to the economy and life of the region in light of the disastrous wars of the twentieth century The contradictions of the Nation State and Federalism become ever more apparent as the EU now descends into economic chaos This sub title invites a comparison and a contrast between the Jewish political culture and the Zionist movement One may consider political culture as encompassing Civil Society history religious theology and law comprising a collective consciousness this historical heritage forms a national identity which is currently oriented into nationalism by the State The endurance of national identity apart from the State and with the extinction of the State is projected as the basis of an independent Civil Society

A Nation Like All Nations Moshe Berent,2015-04-21 Is there an Israeli nation How is it related to the historical Jewish People How is it related to the Zionist movement Under what conditions could non Jews become equal members of this nation These and other questions stand at the center of the Moshe Berent s A Nation Like All Nations Towards the Establishment of an Israeli Republic The mission of the Zionist movement was to work toward the

normalization of Jewish existence to become a nation like all nations Israel contrary to that aspiration is not a normal nation state since according to the formal national ethos it belongs to the Jewish people and there is no recognized Israeli nation Dr Berent asserts that the fusion of nationality and religion together with the absence of a normal nation state are the source of Israel's basic problems and are responsible for Israel's powerlessness to solve problems i.e. the status of religion in public life The relations between seculars and religious the status of non Jews especially Arabs the absence of a constitution the inability to agree about borders or to decide about peace and war A Nation Like All Nations Towards the Establishment of an Israeli Republic makes the case that a separation between nationality and religion the recognition in the existence of an Israeli nation and the establishment of Israel as a republic as the State of the Israeli nation is a pre condition for finding the solution of all of these problems

Contesting the Monolith Priya Singh, 2025-10-24 The book challenges the notion that Israel is a homogeneous state whether in theory or in practice It offers a detailed and critical intersectional analysis of nationalism ethnicity gender and marginality in Israeli society revealing how these forces converge to produce multiple as well as fused identities within a complex social fabric Examining the ruptures and fault lines that shape a multi layered society the study contends that Israel's exceptionality lies not in its self proclaimed Jewish and democratic character but in its resort to exceptional legal and coercive measures to mask internal diversity By obscuring this heterogeneous reality the state cultivates an illusion of a monolithic and uniform Israeli identity The analysis presents a society far more fragmented and stratified than official narratives suggest offering readers an understanding of how intersecting structures of identity and power operate in the Israeli context and how social and political institutions respond to and regulate internal difference This book will be of interest to academic researchers postgraduate and doctoral students and policymakers engaged with questions of nationalism marginality identity and Middle Eastern politics particularly within the disciplines of political science sociology Middle Eastern studies and gender studies

Imagined Israel(s): Representations of the Jewish State in the Arts Rocco Giansante, Luna Goldberg, 2023-02-27 The return of Jews to their ancestral land can be seen as an act of imagination A new country citizenship language and institutions needed to be imagined in order to be created The arts too have contributed to this act of envisioning and shaping the Jewish state By examining artistic representations of Israel Imagined Israel's Representations of the Jewish State in the Arts explores the ways in which the Israel imagined abroad and the one conjured within the country intersect offering a space for the co-existence of sociopolitical cultural and ideological differences and tensions
