

THE JOHN LENNON CONSPIRACY

In 2014:

In New York City, a man is killed in John Lennon's former residence at the famed Dakota Building. Inside the former Capitol Records executive's safe, something extraordinary is found. DNA evidence proving that John Lennon's two sons did not have the same father. Did one of his wives have an affair, or was the real story something much more bizarre?

In 1967:

In London, rumors are swirling about that Paul McCartney of The Beatles has been killed in an accident and replaced with a look-alike. Subsequent Beatles lyrics and album covers seemed to confirm the rumors, but could it have been an elaborate smokescreen to cover up an altogether different tragedy within The Beatles?

Now:

New York City homicide detective Ed Vicette and London C.I.D. detective Bobby Fuller find themselves embroiled in a musical murder mystery almost 50 years in the making, and what they find will shock even the most hard-core Beatles (conspiracy) fan!

Conspiracy Encyclopedia Thom Burnett, 2006 Conspiracies are everywhere they are the lifeblood of politics business and our daily lives this truly international and all embracing encyclopedia explains the details of the world's major popular conspiracies listing

them chronologically under subject matter and cross referencing them continually because so many conspiracy theories interact on some level. Conspiracies are often international in their sweep and their impact: the brutal stabbing of Julius Caesar, the conspiracy which has defined political assassinations ever since plunged the Roman Empire into civil war which then engulfed much of the known western world. More recently the Cambridge spies Philby, Blunt, MacLean and Burgess helped Russia throughout WWII and then redefined the Cold War afterwards. Philby's defection casting a 30 year shadow over CIA/Anglo American relations though conspiracies define our everyday lives there is no body of serious academic research to understand their role, nature or defining characteristics. Most historians prefer to adhere to the cock up theory of history in which everything happens by accident or incompetence. Although this view is favoured by academics and historians it is rejected by a large part of the general public who prefer the evidence of their own lives. However they consume their media what they see is a mesh of conspiracies that define the texture of their everyday lives often for the worst. Most people believe that there is a grain of truth in most theories about conspiracies this book is for them. **Servitors of Empire** Darrell Hamamoto, 2014-08-01 Forcing a fundamental rethinking of the Asian American elite many of whom have attained top positions in business, government, academia, sciences and the arts this book will be certain to generate a good deal of controversy and honest discussion regarding the role Asian Americans will play in the new century as China and India loom ever larger in the world economic system. Not since the large scale infusion of scientists and engineers fleeing Nazi Germany has there been such a mass importation of intellectual labor from U.S. client states in Asia. One of the specialized tasks assigned to this group is to build the technetronic infrastructure for the new world order command and control system. *Servitors of Empire* is not intended to fan the flames of suspicion and paranoia aimed at Asian Americans but serves to illuminate the way in which highly trained knowledge workers are being employed to bring sovereign nations such as the United States under centralized rule made possible through advances in bioscience, IT engineering and global finance.

Unsolved Celebrity Mysteries David Southwell, Sean Twist, 2007-12-15 Examines celebrity mysteries including the deaths of Princess Di and Marilyn Monroe. *Honest Answers about the Murder of President John F. Kennedy* Vincent Michael Palamara, 2021-03-19 Thousands of books and articles have been written about the murder of JFK many of which are large in volume and short on facts. Quite often these works try to reinvent the wheel attempting to cover every single area of the assassination as well as many tangential and unessential points as well. The reader is often left exhausted and confused. The sheer volume of pages, conflicting facts and theories leaves one unsatisfied and quite frankly not sure exactly what did happen on 11/22/63. This book seeks to separate the wheat from the chaff. It is 55 plus years later it is time for real honest answers in an easy to read and understand format. Proof of a conspiracy, no theories to the point, a perspective on the assassination for the millennial age and beyond. Based on years/decades of primary source research and having read countless books on the subject. **Case Computer John Lennon** Justin Tully, 2010-03-26 glancing at some documents

online he's interrupted by the police investigation team trying to recover the lost computer Trevor Rutledge shows them his computer but before they tell him not to he's clicked on a picture where a warm haze surrounds them all The computer recognises the crime and throws them all back to December 1980 before the murder takes place Can they stop the inevitable from happening or simply stand by and watch history run its course [John Lennon's Secret](#) David Stuart Ryan, 2013-09-30
