The Lazy Intellectual Maximum Knowledge Minimal Effort:

The Lazy Intellectual Richard J Wallace, 2010-09-18 It's a small attention span world out there and not everyone's interested in paging through lengthy tomes to deepen their intellect. They want their information. And they want it now. This book fills that void next to the recliner as they go to reference whenever work conversations or bar trivia have you feeling stupid. The top ten academic subjects are broken into digestible pieces such as Fast Facts, One liners that deliver important information, Repeatable Quotables, Smart words by smart people to make readers look smart by repeating, Visual Aids, Graphs, charts and tables for when even a few words are way too much, Cheat Sheets, Chapter ending recaps that reinforce the major points to take away. Whether they want an answer to a biology question or to brush up on their Spanish during a commercial break, this book is perfect for people who couldn't bother paying attention the first time. *Emotions, Everyday Life and Sociology* Michael Hviid Jacobsen, 2018-07-11 This volume explores the emotions that are intricately woven into the texture of everyday life and experience. A contribution to the literature on the sociology of emotions, it focuses on the role of emotions as being integral to daily life, broadening our understanding by examining both core emotions and those that are often overlooked or omitted from more conventional studies. Bringing together theoretical and empirical studies from scholars across a range of subjects including sociology, psychology, cultural studies, history, politics, and cognitive science, this international collection centres on the everydayness of emotional experience. **The Single Tax Review**, 1918 *Land and Freedom* Joseph Dana Miller, 1918 **Single Tax Review**, 1918 **The Mathematics Teacher**, 1923

Congressional Record United States. Congress, 1967 *The Holy Name Journal*, 1917 *The Saturday Review of Politics, Literature, Science, Art, and Finance*, 1905 *The Mathematics Teacher*, 1923 **Educational Research Bulletin**, 1922 Includes the sections Educational readings and Books to read. **The Sex of Knowing** Michèle Le Doeuff, 2013-10-18 Michèle Le Doeuff is a leading French philosopher and one of the most important feminist thinkers writing today. *The Sex of Knowing* Le Doeuff's most significant work to date provides a comprehensive account of her views. This is the first English translation of her inspiring book. Le Doeuff's target is the continuing tendency to think that men are more rational, more analytic than women, a tendency that persists in spite of our thinking we know better. She argues that the conceptual links between masculinity and rationality are deeply rooted in the public imagination and institutions of learning and continue to have devastating effects on what women are able to achieve. To shed light on the depth and persistence of the problem, Le Doeuff leads us on a provocative archaeological journey through the great texts and authors of the past and present, from Plato and Descartes to Evelyn Fox Keller and Kate Millett, in search of the origins and extent of a set of contemporary reflexes that hold misogynistic thinking in place both in the larger society and within science and philosophy. An ambitious and highly persuasive book, *The Sex of Knowing* received widespread critical attention in the French press. Lorraine Code and Kathryn Hamer's superb translation is sure to have a similar impact on English speaking audiences.
