Money Sucks Michael Baughman, 2014-06-03 A funny and touching story about how to deal with the struggles of adulthood how to live a good life and how money can complicate it all Michael Baughman's hope was to send his oldest grandson off to his first year of college in the fall of 2012 with an informed and thoughtful attitude toward what has long been a powerful American fixation the frantic quest for money Complicating the issue was the fact that income disparity in America was increasing alarmingly and a political campaign featuring a wealthy Republican presidential candidate who told transparent lies on a daily basis was well underway Baughman now an emeritus professor of English has visited forty nine states As a youth he attended Punahou the private Honolulu prep school that graduated Barack Obama During subsequent travels he washed dishes pumped gas butchered meat sold women's lingerie at Saks Fifth Avenue in Manhattan and served as an enlisted man in the Army Because of these diverse experiences Baughman's friends and acquaintances have included the very poor as well as the very rich Throughout most of his adult life his own income has been close to the national average He brought all of this and more into his parting conversations with his grandson *Billy Money Sucks* is the culmination of those discussions rumination on the haves and the have nots and a frank thought provoking look at some of the toughest questions life throws our way What makes us happy How much is enough Funny and inspiring in equal measures it's a must read for anyone who cares about the future of their children grandchildren and the friends and family they love

Bargaining with the Machine Robert M. Pallitto, 2020-08-17 Cell phone apps share location information software companies store user data in the cloud biometric scanners read fingerprints employees of some businesses have microchips implanted in their hands In each of these instances we trade a share of privacy or an aspect of identity for greater convenience or improved security What Robert M Pallitto asks in Bargaining with the Machine is whether we are truly making such bargains freely whether in fact such a transaction can be conducted freely or advisedly in our ever more technologically sophisticated world Pallitto uses the social theory of bargaining to look at the daily compromises we make with technology Specifically he explores whether resisting these bargains is still possible when the technologies in question are backed by persuasive even coercive corporate and state power Who he asks is proposing the bargain What is the balance of bargaining power What is surrendered and what is gained And are the perceived and the actual gains and losses the same that is what is hidden At the center of Pallitto's work is the paradox of bargaining in a world of limited agency Assurances that we are in control are abundant whether we are consumers voters or party to the social contract But when purchasing goods from a technological behemoth like Amazon or when choosing a candidate whose image is crafted and shaped by campaign strategists and media outlets how truly free let alone informed are our choices The tension between claims of agency and awareness of its limits is the site where we experience our social lives and nowhere is this tension more pronounced than in the surveillance society This book offers a cogent analysis of how that complex contested and even paradoxical experience arises as well as an

unusually clear and troubling view of the consequential compromises we may be making Anti-Consumption Hélène Cherrier, Michael S W Lee, 2022-09-01 In this edited volume the leading scholars in the field engage with consumers marketers corporations and policymakers as well as space dynamics and network formation to provide an in depth examination of anti consumption a voluntary behavioural inclination to minimise rather than grow to decelerate and simplify and to reduce the unnecessary exploitation of resources fuelled by consumer culture This book does not place anti consumption on the high moral ground but rather demonstrates its complexity to spur innovative and critical thinking on how people organisations businesses and governments can treat consumption more as a necessity for survival than as a tool for self expression pleasure and economic growth The first part of this book looks at anti consumption from a diversity of perspectives It analyses voluntary simplicity a self motivated engagement in consumption reduction and boycotting a politically motivated reaction against unacceptable corporate practices as distinct manifestations of anti consumption that nonetheless remain rooted in the logic of the market Paving the way to critical perspectives on the interface between anti consumption people and the environment the second part of the book projects anti consumption to issues of waste production and provides possible answers to global challenges of resources depletion social inequalities and global warming In this section anti consumption is critically assessed as an actor of change both in terms of social change and paradigm change To move the field forward the third part of this book presents several theoretical frameworks that help set a roadmap for future research Anti Consumption will be of direct interest to scholars and researchers within the fields of marketing consumer research business studies environmental studies and sustainability It will also be of value to those researching the economics and or sociology of markets **Factory and Industrial Management** John Robertson Dunlap, Arthur Van Vliissingen, John Michael Carmody, 1918 **Thirty Years Among the Dead** Dead Carl Wickland, 2021-10-22 In offering this volume to the public there is no desire to promulgate any ism or cult but to present the records and deductions of thirty years experimental research in the science of normal and abnormal psychology as the same pertains to the obscure problems of a life hereafter and its relation to human affairs which all thinking minds must recognize as being of utmost importance From the Introduction **30 Years Among the Dead** Dead Carl Wickland, 2022-01-04 In offering this volume to the public there is no desire to promulgate any ism or cult but to present the records and deductions of thirty years experimental research in the science of normal and abnormal psychology as the same pertains to the obscure problems of a life hereafter and its relation to human affairs which all thinking minds must recognize as being of utmost importance From the Introduction **The Color of Money** Walter Tevis, 2022-02-15 The sequel to The Hustler sees former champion Fast Eddie Felson return to the thrilling world of competitive pool from the bestselling author of The Queen s Gambit The basis for the famed Martin Scorsese film Tevis writes about pool with power and poetry and tension Grabs the reader and doesn t let go You don t have to appreciate pool to like this book to appreciate its sense of living on the edge Washington Post Twenty years have passed
