Evans, Ellen M. Broido, Kirsten R. Brown, Autumn K. Wilke, 2017-03-06 Create campuses inclusive and supportive of disabled students staff and faculty Disability in Higher Education A Social Justice Approach examines how disability is conceptualized in higher education and ways in which students faculty and staff with disabilities are viewed and served on college campuses Drawing on multiple theoretical frameworks research and experience creating inclusive campuses this text offers a new framework for understanding disability using a social justice lens Many institutions focus solely on legal access and accommodation enabling a system of exclusion and oppression However using principles of universal design social justice and other inclusive practices campus environments can be transformed into more inclusive and equitable settings for all constituents The authors consider the experiences of students faculty and staff with disabilities and offer strategies for addressing ableism within a variety of settings including classrooms residence halls admissions and orientation student organizations career development and counseling They also expand traditional student affairs understandings of disability

issues by including chapters on technology law theory and disability services Using social justice principles the discussion spans the entire college experience of individuals with disabilities and avoids any single issue focus such as physical accessibility or classroom accommodations The book will help readers Consider issues in addition to access and accommodation Use principles of universal design to benefit students and employees in academic cocurricular and employment settings Understand how disability interacts with multiple aspects of identity and experience Despite their best intentions college personnel frequently approach disability from the singular perspective of access to the exclusion of other important issues This book provides strategies for addressing ableism in the assumptions policies and practices organizational structures attitudes and physical structures of higher education

Slow Burn R. Jisung Park, 2025-07-29 How the subtle but significant consequences of a hotter planet have already begun from lower test scores to higher crime rates and how we might tackle them today It s hard not to feel anxious about the problem of climate change especially if we think of it as an impending planetary catastrophe In *Slow Burn* R Jisung Park encourages us to view climate change through a different lens one that focuses less on the possibility of mass climate extinction in a theoretical future and more on the everyday implications of climate change here and now Drawing on a wealth of new data and cutting edge economics Park shows how climate change headlines often miss some of the most important costs When wildfires blaze what happens to people downwind of the smoke When natural disasters destroy buildings and bridges what happens to educational outcomes Park explains how climate change operates as the silent accumulation of a thousand tiny conflagrations imperceptibly elevated health risks spread across billions of people pennies off the dollar of productivity fewer opportunities for upward mobility By investigating how the physical phenomenon of climate change interacts with social and economic institutions Park illustrates how climate change already affects everyone and may act as an amplifier of inequality Wealthier households and corporations may adapt quickly but without targeted interventions less advantaged communities may not Viewing climate change as a slow and unequal burn comes with an important silver lining It puts dollars and cents behind the case for aggressive emissions cuts and helps identify concrete steps that can be taken to better manage its adverse effects We can begin to overcome our climate anxiety Park shows us when we begin to tackle these problems locally

Inside Affirmative Action Karin Williamson Pedrick,Sandra Arnold Scham,2018-08-06 Affirmative action is still a reality of the American workplace How is it that such a controversial Federal program has managed to endure for more than five decades Inside Affirmative Action addresses this question Beyond the usual ideological debate and discussions about the effects of affirmative action for either good or ill upon issues of race and gender in employment this book recounts and analyzes interviews with people who worked in the program within the government including political appointees The interviews and their historical context provide understanding and insight into the policies and politics of affirmative action and its role in advancing civil rights in America Recent books published on affirmative action address university admissions but very few of them ever mention Executive Order 11246 or its enforcement by an agency within the Department of Labor let alone discuss in depth the profound workplace diversity it has created or the employment opportunities it has generated This book charts that history through the eyes of those who experienced it Inside Affirmative Action will be of interest to those who study American race relations policy history and law *History Lessons* S.G. Grant,2014-04-04 In this book extended case studies of two veteran teachers and their students are combined with the extant research literature to explore current issues of teaching learning and testing U S history It is among the first to examine these issues together and in interaction While the two teachers share several similarities the teaching practices they construct could not be more different To explore these differences the author asks what their teaching practices look like how their instruction influences their students understandings of history and what role statewide exams play in their classroom decisions History Lessons Teaching Learning and Testing in U S High School Classrooms is a major contribution to the emerging body of empirical research in the field of social studies education chiefly in the subject area of history which asks how U S students make sense of history and how teachers construct their classroom practices Three case study chapters are paired with three essay review chapters intended to help readers analyze the cases by looking at them in the context of the current research literature Two concluding chapters extend the cases and analyses the first looks at how and why the teachers profiled in this book construct

their individual teaching practices in terms of three distinct but interacting sets of influences personal organizational and policy factors the second explores the prospects for promoting what the author defines as ambitious teaching and learning Many policymakers assume that standards based reforms support the efforts of ambitious teachers but until we better understand how they and the students in their classes think and act that assumption is hollow at best This book is a must have for faculty and students in the field of social studies education and broadly relevant across the fields of curriculum studies and educational policy

Atlas of Material Worlds Matthew Seibert, 2021-08-17 Atlas of Material Worlds is a highly designed narrative atlas illustrating the agency of nonliving materials with unique ubiquitous and often hidden influence on our daily lives Employing new materialism as a jumping off point it examines the increasingly blurry lines between the organic and inorganic engaging the following questions What roles do nonliving materials play Might a closer examination of those roles reveal an undeniable agency we have long overlooked or disregarded If so does this material agency change our understanding of the social structures ecologies economies cosmologies technologies and landscapes that surround us And perhaps most importantly why does material agency matter This is the story of the world's driest nonpolar desert pink flamingos and cerulean blue lithium ponds industrial shipping logistics pudding like jiggling substrates and monuments of mud galactic bodies radioactive sheep and the yellowcake of uranium Put simply this book dares readers to see the world anew from material up Atlas of Material Worlds offers this new relationship to our host environment in a time of mounting crises accelerating climate change ballooning socioeconomic inequality and rising toxic nationalism uniquely telling materialist stories for practitioners and students in landscape architecture and other built environment disciplines

Anchoring Innovation Districts Costas Spirou, 2021-05-18 As universities transform cities with their innovation districts what works in these new public private partnerships In recent years the successful revitalization of urban areas has turned them into magnets for those looking for opportunities in a fast paced and rapidly unfolding technology based economy After the economic crisis of 2008 many colleges and universities attempted to generate alternative sources of revenue and pursued aggressive economic development strategies Some universities even began to actively invest resources in the rebirth and rebranding of urban cores encouraging the development of entrepreneurial technology oriented innovation districts In Anchoring Innovation Districts Costas Spirou explains that these districts have emerged as geographic clusters of technology startups business incubators and accelerators They aim to take advantage of intellectual capital commercialize knowledge and give their associated institutions a way to enter into the market The outcome of robust private public partnerships and complex real estate strategies these initiatives also complement other urban revitalization efforts and reshape the socioeconomic makeup of city neighborhoods Presenting readers with six case studies that explore the role of technological innovation Spirou argues that higher education anchored innovation districts can make significant contributions to economic expansion job growth and the institutions that guide their development He also points out that these districts nonetheless

raise questions about the impact of the Ivory Tower on the urban environment Spirou focuses on Midtown Atlanta's Tech Square Georgia Tech Cambridge's Kendall Square MIT Philadelphia's University City the University of Pennsylvania Drexel University and the University of the Sciences the PHX Core Arizona State University and the role that the University of West Florida in Pensacola and the University of Tennessee at Chattanooga play in developing innovation ecosystems Anchoring Innovation Districts provides unique insight into the transformative opportunities offered and the challenges faced by higher education in the built environment University administrators board members policy makers and scholars will find Spirou's analysis thought provoking and helpful

A Museum Studies Approach to Heritage Sheila Watson, Amy Jane Barnes, Katy Bunning, 2018-10-08 Heritage's revival as a respected academic subject has in part resulted from an increased awareness and understanding of indigenous rights and non Western philosophies and practices and a growing respect for the intangible Heritage has thus far focused on management tourism and the traditionally heritage minded disciplines such as archaeology geography and social and cultural theory Widening the scope of international heritage studies A Museum Studies Approach to Heritage explores heritage through new areas of knowledge including emotion and affect the politics of dissent migration and intercultural and participatory dimensions of heritage Drawing on a range of disciplines and the best from established sources the book includes writing not typically recognised as heritage but which nevertheless makes a valuable contribution to the debate about what heritage is what it can do and how it works and for whom Including heritage perspectives from beyond the professional sphere the book serves as a reminder that heritage is not just an academic concern but a deeply felt and keenly valued public and private practice This blending of traditional topics and emerging trends established theory and concepts from other disciplines offers readers international views of the past and future of this growing field A Museum Studies Approach to Heritage offers a wider more current and more inclusive overview of issues and practices in heritage and its intersection with museums As such the book will be essential reading for postgraduate students of heritage and museum studies It will also be of great interest to academics practitioners and anyone else who is interested in how we conceptualise and use the past

The Modern Land-grant University Robert J. Sternberg, 2014 Contributors from across the university focus on what the land grant mission means to them in their daily endeavors whether that be crafting the undergraduate academic experience stimulating research or engaging with the community through extension activities The twenty contributions are divided into four parts exploring in turn the core mission of the modern land grant university the university environment the university's public value and its accountability The volume ends with an epilogue by the editor which summarizes the values underlying the activities of land grant institutions In a time of uncertainty in higher education this volume provides a helpful overview of the many different types of value public universities bring to American society
