Challenging the One Best System Katrina E. Bulkley, Julie A. Marsh, Katharine O. Strunk, Douglas N. Harris, Ayesha K. Hashim, 2021-02-04 In Challenging the One Best System a team of leading education scholars offers a rich comparative analysis of the set of urban education governance reforms collectively known as the portfolio management model They investigate the degree to which this model a system of schools operating under different types of governance and with different degrees of autonomy challenges the standard structure of district governance famously characterized by David Tyack as the one best system The authors examine the design and enactment of the portfolio management model in three major cities New Orleans Los Angeles and Denver They identify the five interlocking mechanisms at the core of the model planning and oversight choice autonomy human capital and school supports and show how these are implemented differently in each city Using rich qualitative data from extensive interviews the authors trace the internal tensions and tradeoffs that characterize these systems and highlight the influence of historical and contextual factors as well Most importantly they question whether the portfolio management

model represents a fundamental restructuring of education governance or more incremental change and whether it points in the direction of meaningful improvement in school practices Drawing on a rigorous multimethod study Challenging the One Best System represents a significant contribution to our understanding of system level change in education **Misguided Notions** Garrett Williams,2011-07-22 Americas public schools are in decline and in need of urgent reform Once the envy of the entire world the American public school system now struggles to keep pace with other industrialized nations and is falling further behind with each passing decade This disturbing trend raises two important questions Why did our schools decline What must we do to make our schools great again To answer these questions Misguided Notions goes back to the roots of human civilization and retraces the development of education over the last ten thousand years Along the way a wise reformer offers warnings based on his eyewitness accounts of the collapses of history's greatest civilizations The evidence is clear when schools discard tried and proven principles of education and when society abandons its core values both will collapse The commonsense solutions offered in Misguided Notions combine proven old school educational principles with the advantages of modern technology Teachers principals school board members parents community leaders and politicians perplexed by the lack of answers to the current dilemma in public education can find enlightenment in Misguided Notions

Farber, Eugene F. Provenzo, Gunilla Holm, 1994-01-01 Annotation Explores an underexamined source of influence that affects the way schooling is experienced and understood in contemporary culture namely the flow of symbolic forms comprising mainstream popular culture The volume centers on the portrayal of aspects of schooling its characteristics participants glories and problems as they are constructed and displayed in diverse forms of popular culture The main assumption is that involvement in contemporary schooling at any level as teacher student policymaker administrator or concerned citizen is conditioned by the sociocultural context in which schooling is understood a context that is in turn mediated by powerful forms of popular culture Paper edition 1872 3 19 95 Annotation c by Book News Inc Portland Or The College Buzz Book
