explains vampire history physiology and behavior the most effective defense strategies and how to destroy the vampire if needed *The Vampire Slayer's Survival Guide* Katy Birchall,2022 A fantastically funny story of unlikely friendship Perfect for readers 9 Maggie Helsby may be descended from a long line of vampire slayers but that won't stop her being friends with vegetarian vampire Sharp Tooth Shadow While she's introducing Sharp Tooth to the delights of school she gets to hang out at wonderfully creepy Skeleton Castle on the weekend Until the enchantments that keep the castle hidden start to mysteriously weaken and a whole host of other far less friendly magical creatures arrive in town to cause trouble along with a monster hunter determined to put a stop to anything supernatural Don't miss the first book in the series *How Not To Be A Vampire Slayer* Witch Wars meets Buffy the Vampire Slayer A funny and warm story of friendship and acceptance **How to Kill a Vampire** Liisa Ladouceur,2013-09-01 A fascinating investigation of what strikes fear in an immortal's heart Vampires exist And in every culture with a legend about bloodsuckers that rise from the grave to prey upon the living there are rules and rituals for how to destroy them *How to Kill a Vampire* is the first book to focus specifically on all known ways to prevent vampirism protect oneself against attacks and ultimately how to destroy the undead as documented in folklore as well as horror film TV and books Covering everything from obscure legends to contemporary blockbusters Ladouceur's unique approach to vampires traces the evolution of how to kill the fictional creatures and celebrates the most important slayers In exploring how and why we create these monsters and the increasingly complex ways in which we destroy them the book not only serves as a handy guide to the history and modern role of the vampire it reveals much about the changing nature of human fears **Vampire Apocalypse** Rex Cutty,2015-03-30 There are plenty of ways an apocalypse could hit Most folks these days are worried about zombies Thank you *The Walking Dead* Honestly people if you avoid a herd have you considered how absolutely rotten stupid a zombie really is Folks are worried about asteroids striking the earth Climate change Bird flu System collapse Genetically modified organisms You name it there's an apocalyptic terror of choice Heck you could go with the original and be worried about Judgment Day and the fact that all the explaining in the world isn't gonna get you out of trouble with the Big Guy But the one that people just insist on thinking is totally fiction in spite of all the evidence to the contrary is the fact that old and powerful immortal or near immortal beings walk among us They're called vampires They exist in the shadows They lead elite lives and they have a political agenda The reason vampires are seen as hip fictional creatures is because that's exactly how they want us to see them This class of monster has done a brilliant job of manipulating pop culture perception of their kind taking themselves in less than 100 years from feared creatures of the night to their current status as a sensitive misunderstood subjugated minority in need of civil rights protection Supernatural paranormal and survival expert Rex Cutty has plenty to say on that topic and none of it will win him the Vampire Protection League's Sympathetic Human of the Year Award Written in his trademark punchy sarcastic style Cutty's text makes one thing clear Dead is dead There is no misunderstanding on the subject And dead at the fangs of a vampire is one place you don't
