Balleck,2019-07-08 This expansive collection of A Z entries offers a compelling look into hate groups in America Focusing on organizations in operation today this resource book for student and general audiences covers numerous hot button issues in politics and culture The Southern Poverty Law Center lists nearly 900 hate groups active in the United States today Some of these such as the KKK have deep roots in American history Others are newer formed in response to policies and shifts in our cultural landscape Often these organizations imply defense of America and political ideals in their names such as Council of Conservative Citizens and American Family Association Some such as White Aryan Resistance and Supreme White Alliance are more direct in their associations Nearly all posit an erosion of rights and values a way of life that is becoming lost to immigrants a diffusion or integration of population and government overstep Many of these groups preach a necessity for violence through either outright or thinly veiled language Membership in these organizations poses another topic for investigation as their ranks are not just anti government or pro gun rights types who seek to defend the Constitution Many are simply citizens who see their ideal for America as under threat by various groups whether ethnic racial or religious This unique reference will allow readers to explore the underlying issues central to understanding them How do these hate groups get started and why do people join The World Views of the Obama Era Matthias Maass,2017-11-07 This book presents selected non US views of the Barack Obama administration Each chapter investigates eight years of the Obama presidency from a different national perspective By bringing together fourteen country studies from all regions of the world this volume offers an accumulative global view of the Obama White House s foreign policies and bilateral affairs It provides an outside perspective on a presidency that was initially greeted with much enthusiasm world wide but seemed to fall out of favor over time in most countries The overwhelming hope that was associated with the election of Obama in 2008 turned to disillusionment world wide the changes in US external affairs he promised were only partially fulfilled and the world was reminded that America s place and role in the world would not change dramatically not even under the inspirational Obama *Citizenship and the Diaspora in the Digital Age* Toyin Falola,2023-05-22 In *Citizenship and the Diaspora in the Digital Age* Farooq Kperogi and the Virtual Community Toyin Falola examines how the members of the Nigerian diaspora create a virtual community and instrumentalize the digital age to speak about the nation and its failures possibilities and promises This book depicts individuals relationships with society and how the world s progressive shift toward technology and globalization does not disregard the concept of society and its members

As a result of this shift people have been migrating to new places without giving up their citizenship in their home countries. This book explores how migrants are focused on the idea of a virtual community, examines how citizens' roles have evolved through time, and displays society's essential principles in this light. Furthermore, it evaluates social commentaries enhanced by the dynamics of the digital age, such as societal issues like education in Nigeria, the question of democracy, challenges facing the country, and the development of a national language. Many of these societal challenges are examined in this book from the perspective of Farooq Kperogi, who has conducted extensive studies and published on the above themes. This is balanced against emerging facts, Nigerians' positions, and disregarded realities. Kperogi's relentless writings on Nigeria make him a preeminent figure whose positions are valuable to the understanding of modern Nigeria. *N.W. Mediascapes of Ruined Geographies in the Global South Diego Granja do Amaral, A. Chukwudumebi Obute, 2023-08-15. This book undertakes an interdisciplinary and cross-cultural interrogation of the Global South through the prisms of media and cultural studies. It closely explores the quotidian reterritorialization and brazen ruination of the material geographies of this vast expanse of the world by forces and proxies of neo-colonialism and global capitalism of resource extraction. We cite the ongoing expulsion of Palestinians from their homelands by occupational forces, the emerging detritus dump across Mexico City and Lagos, the infrastructural precariousness of the favelas of Brazil, the unending resource war in the Democratic Republic of Congo (DRC), and the flagrant operation of the oil industry in the Niger Delta region of Nigeria as examples of this geographic cataclysm. The centripetal forces of neo-colonialism and resource extraction at full flight in the Global South, aided by toxic hegemonic forces, have overtly tossed some of the population to the peripheries of existence, and the society at large. As such, this book additionally explores the resistance of the subalterns from the margins to this socio-political malaise and further unmasks the knowledge production from these margins of the Global South. This project is divided into five parts of three essays each. The first part examines the territorial contestation in the Middle East, framed and expressed through films and literary lenses. The second part examines the environmental burden of modern consumerism and urbanization on metropolis across Mexico, Brazil, and Nigeria, while the third part explores the attritional violence of resource extraction in the DRC, Brazil, and Nigeria via filmic and journalistic lenses. The fourth part offers a swift response from the margins through ethnographic and journalistic interrogation of the subjectivity of the subalterns of Brazilian favelas and street artists. The fifth part offers an engaging critique of the political climates of South Africa and Brazil that reinforce the environmental catastrophe of the regions of the world.
