

TDS-11SH Top Drive

The new NOV® TDS-11SH AC Top Drive combines all of the field-proven qualities of the world's best-selling top drive, the TDS-11SA, while offering more power density and significantly greater drilling torque. This latest innovation enables deeper drilling, both vertical and horizontal, in the harshest environments. The TDS-11SH offers a formidable 51,000 ft-lbs of continuous drilling torque at 110 RPM, and 75,000 ft-lbs of breakout torque. The TDS-11SH AC Top Drive is powered by two 550 HP air-cooled permanent magnet AC motors (1100 HP total) giving drillers the power and torque they need to find harder to reach pockets of oil and gas. The top drive is driven by a Variable Frequency Drive control system for greater accuracy in controlling torque and speed. A compact integral power unit mounted on the drive eliminates the need for hydraulic service loops. The top drive height and rapid-installation guide beam design of NOV's TDS-11SH allow easy retrofits for existing rigs. Also available for the TDS-11SH are software enhancements SoftSpeed II, Twister, and the Monkey Board Collision Warning System.
