Cross-Sound Transportation Study Washington (State). Department of Highways,1966 **Report of Investigations**,2001 Environmental Law and Contrasting Ideas of Nature Keith H. Hirokawa,2014-07-17 Law s ideas of nature appear in different doctrinal and institutional settings historical periods and political dialogues Nature underlies every behavior contract or form of wealth and in this broad sense influences every instance of market transaction or governmental intervention Recognizing that law has embedded discrete constructions of nature helps in understanding how humans value their relationship with nature This book offers a scholarly examination of the manner in which nature is constructed through law both in the hard sense of directly regulating human activities that impact nature and in the soft manner in which law s ideas of nature influence and are influenced by behaviors values and priorities Traditional accounts of the intersection between law and nature generally focus on environmental laws that protect wilderness This book will build on the constructivist observation that when considered as a culturally contingent concept nature is a self perpetuating and self reinforcing social creation The United States Army and Navy Journal and Gazette of the Regular and Volunteer Forces,1921 Changes in Stratigraphic Nomenclature by the U.S. Geological Survey,1963 George Vincent Cohee,Walter Scott West,1965 **Power**,1925 Geological Survey Bulletin,1949 *Late Pleistocene Stratigraphy in the South-central Puget Lowland, Pierce County, Washington* Richard Knox Borden (K.),Kathy G.
