Challenges in Criminal Justice Ed

Johnston, 2022-07-29 This collection examines contemporary challenges to the criminal justice system in England and Wales. The chapters written by established academics, rising stars and practising lawyers seek not only to highlight these challenges but to offer solutions. The book examines issues with legal assistance in the police station, concerns relating to juror decision making and problems in and presented by both virtual hearings and the advent of the Single Justice Procedure Notice. The work also examines challenges surrounding vulnerability in the criminal justice system. Here diversity includes vulnerability in the criminal trial, neurodivergence as well as issues with diversity and marginalisation in the criminal justice system as a whole. The book also discusses matters centred around sexual offending, including the attrition rate in rape cases as well as the recent development of vigilante paedophile hunters and their acceptance as a viable limb of the criminal justice system. Finally, the volume looks at the post conviction stage and examines recent prison policy through the lens of the human rights of the prisoner. The closing chapter examines the independence of the Criminal Cases Review Commission and highlights how recent changes have undermined this. While focused on England and Wales, the topics discussed are of wider international significance and will be of interest to students, academics and policy makers.
