Religious Myths and Visions of America Christopher Buck, 2009-04-30 At the heart of American studies is the idea of America itself Here Buck looks at the religious significance of America by examining those religions that have attached some kind of spiritual meaning to America The author explores how American Protestantism and nine minority faiths have projected America into the mainstream of world history by defining and by redefining America s world role Surveying the religious myths and visions of America of ten religions Buck shows how minority faiths have redefined America s sense of national purpose This book invites serious reflection on what it means to be an American particularly from a religious perspective Religious myths of America are thought orienting narratives that serve as vehicles of spiritual and social truths about the United States itself Religious visions of America are action oriented agendas that articulate the goals to which America should aspire and the role it should play in the community of nations Buck examines the distinctive perspectives held by ten religious traditions that inform and expand on the notion of America and its place in the world He covers Native American Protestant Catholic Jewish Mormon Christian Identity Black Muslim Islamic Buddhist and Baha i beliefs and invites serious reflection on what it means to be an American particularly from a religious perspective

The American Vision of Robert Penn Warren William Bedford Clark, 2021-12-14 In 1976 the bicentennial year Robert Penn Warren told Bill Moyers that he was in love with America but his love for the nation was more often than not troubled and angry Warren once remarked that any intelligent person is inclined to criticize his country more strongly than he will criticize anything else And he should It s a way of criticizing himself too Trying to live more intelligently and more fully In *The American Vision of Robert Penn Warren* a noted Warren scholar traces the evolution of our first poet laureate s distinctive stance toward the American experiment in democracy showing how Warren sought to balance off the claims of self and society in the New World This book surveys the full six decades of Warren s career combining close reading with a

historian's eye for social and political context While pointedly avoiding the reductive pitfalls of the new historicism Clark documents the informing role the Great Depression played in shaping Warren's attitudes toward art and politics and he demonstrates the necessity of regarding Warren's major achievements in fiction and verse as forms of public speech Read in this light Warren's vision offers a set of possibilities for renegotiating America's covenant with its Founders on new and pragmatic terms Based solidly on the best previous commentary on Warren and his work Clark's study represents a new approach to its subject and incorporates insights and information garnered from the Warren Papers at Yale A wide ranging account of the interplay between an author's imagination and contemporary history this book should prove of interest to all students of American culture especially those concerned with the interrelationships of literature politics and ideology Written in a lively and direct style it will appeal to specialists and general readers alike America's Vision Vs. God's Standard of Justice Walt Thrun, 2015-09-28 This book examines God's standard of righteousness and justice as revealed to the nation of Israel and then compares those standards with America's progressive vision It discusses this nation's three major branches of government i.e. executive legislative and judicial relative to America's perception of national authority and justice It also considers specific contemporary domestic economic and foreign policy issues to determine if America's priorities compare with God's revealed standards A major Scripture reference will be Now all these things happened to them Israelites as examples and they were written for our admonition upon whom the ends of the ages have come 1 Corinthians 10:11 A comprehensive chapter on the Middle East entitled The Fertile Crescent Geographic Center of Prophecy presents biblical evidence that this age will end where it all began The study also offers in this context a unique perspective on the final world kingdom based on both biblical prophecy and Islamic literature More than five hundred Scripture passages containing more than one thousand verses are referenced and quoted from twenty six books of the Old Testament and twenty four books of the New Testament This book is ideally suited for group Bible studies in addition to enhancing individual understanding of the requirements for national success based on biblical teachings **Vision Aids in America** Kerry Segrave, 2014-01-10 This text examines the eyewear industry in America from 1900 to 2008 a period which mirrors an increased demand for eyewear Eyeglasses sunglasses and contacts are discussed Topics covered include the marketing and selling of eyewear with particular attention paid to advertising strategies and the internal structures of the industry and its regulations which have sometimes helped and sometimes hurt consumers This critical examination reveals how a relatively simple and functional item such as corrective eyewear could be transformed through marketing into a fashion accessory and a personal statement *The Theological Vision of Reinhold Niebuhr's "The Irony of American History"* Scott R. Erwin, 2013-06-13 Reinhold Niebuhr remains at the center of a national conversation about America's role in the world and commentators with divergent political and religious positions look to his 1952 work The Irony of American History in support of their views In this study Scott R. Erwin argues that an appreciation of Niebuhr's theological vision is necessary for understanding the full measure of

Irony and his perspective on life more broadly Such a study is important because many individuals reading Irony today fail to acknowledge the central role that his Christian beliefs played in his writings Niebuhr described his theological vision as being in the battle and above it and it was this perspective that led Niebuhr in Irony to assert that America must both take morally hazardous action in combating the aggression of the Soviet Union and engage in critical self evaluation to prevent the country from assuming the most odious traits of its Cold War foe Niebuhr developed his theological vision over the course of the 1930s and 1940s through engagement with Christian doctrine as most readily seen in his academic works such as *The Nature and Destiny of Man* and with current events as seen in his many journalistic writings during this period By focusing primarily on Niebuhrs writings between 1931 and 1952 Erwin traces the development of his Christian interpretation of human nature and history establishes how it informed his theological vision and reveals how that theological vision underlies his writings on current affairs

The Architecture of Address Jake Adam York,2004-05 *The Architecture of Address* traces the evolution of an American species of lyric capable of public pronouncement without polemic Beginning with Whitman Jake Adam York seeks to describe a kind of poem wherein the most ambitious poets including Hart Crane and Robert Lowell occupy and reconstruct important public spaces This study argues that American poets become civic actors when their poems imagine and reconstruct the conceptual architecture of the monument

Creating Justice in a Multiracial Democracy Alan Curtis,2024-10-25 American democracy is at an inflection point Will we stride toward the 22nd century with evidence and will Or will we lurch fearfully backwards reinscribing the white supremacist domination of the 19th century After hundreds of urban protests in the 1960s the presidential Kerner Commission composed mainly of privileged white men concluded It is time to make good the promise of American democracy to all citizens urban and rural white and Black Spanish surname American Indian and every minority group Today it still is time to reduce racial injustice economic inequality and poverty Since the Kerner Commission there has been little or no progress in some areas and in other ways things have gotten worse Yet the visionaries on these pages are passionate about how the problem is not lack of resources nor a dearth of knowledge on the economic education youth investment criminal justice public health and housing policies that work Rather the problem is that America still does not have the new will the Kerner Commission concluded was needed to scale up what works How to create new will We need to identify those who are thwarting majoritarian preferences Use strengthened voter rights and new messaging techniques to advance Dr King s economic justice movement based on both class and race Weave the middle class into the coalition Know that perfect unity is not necessary for effective collaboration Better expose the exploitation of Americans by the privileged and the rigged system with its big myth of market fundamentalism Make clear how that exploitation is smoke screened by cultural deniers Build moral language and moral fusion coalitions to revive the heart of democracy and advance a Third Reconstruction Recover a moral commitment to long term struggle Balance outraged intensity with bridge building persuasion Don t just preach to the choir but recognize that the choir is where to use John

Conversions and Visions in the Writings of African-American Women Kimberly Rae Connor, 1994 The subsequent achievement of selfhood is then based on the interplay of individual and community identities Connor suggests that the distinctiveness of African American women s experiences and writings can transcend their immediate communities and be brought to bear on women s experiences in general making their individual stories more accessible and meaningful to the whole of humankind

Vision , 1908 **Visions of Progress** Doug Rossinow, 2009-11-19 Rossinow revisits the period between the 1880s and the 1940s when reformers and radicals worked together along a middle path between the revolutionary left and establishment liberalism He takes the story up to the present showing how the progressive connection was lost and explaining the consequences that followed

Early Visions and Representations of America M. Carmen Gomez-Galisteo, 2012-11-22 When the Europeans first arrived in America they had a number of preconceptions prejudices expectations and hopes about what life in the New World would be like This book examines the different visions and representations of America conveyed in the writings of Spanish conquistador lvar N ez Cabeza de Vaca and the Pilgrim leader William Bradford taking both writers within their respective literary and historical contexts Anthologies of American literature have consistently ignored Spanish language achievements on the grounds of a restrictive interpretation of American literature based on linguistic boundaries Consequently Spanish language texts such as Cabeza de Vaca s or the account by the Hidalgo de Elvas to name but two examples have been marginalized in the narrative of American literary history In seeking to redress this neglect Galisteo contributes to scholarship which seeks to analyze Early America as a whole including not only Anglo American perspectives but also the Spanish American aspect of the colonization process

Defining NASA's Mission and America's Vision for the Future of Space Exploration United States. Congress. House. Committee on Government Reform and Oversight. Subcommittee on National Security, International Affairs, and Criminal Justice,1998 **Thinking Points: Communicating Our American Values and Vision** George Lakoff,2025-09-23

Two years ago George Lakoff published the bestselling *Don't Think of an Elephant*. Its account of the conservative monopoly on effective framing touched off a national discussion about political language. It also gave rise to a chorus of pleas for more. What is the progressive vision of America? Why progressive values are America's values? How frames are necessary to serve the truth? Why sloganeering alone doesn't work? How progressives trap themselves and how they can escape those traps? and How political arguments and narratives can be put together to counter the Right? *Thinking Points* satisfies that call with a bold, concise and systematic explanation of how conservatives think and use language and how progressives can fight back. Lakoff and the Rockridge Institute offer a new understanding of the so-called political center and explain why the most effective way to appeal to those who identify themselves as moderates or conservatives is to remain true to progressive values. This book is essential reading for anyone who wants to participate in shaping an America that serves the common good.

Apocalyptic Postmodern Vision in the Select Novels of John Updike Dr. Zhao Yang, Ms. Long Na, 2023-01-06

John Updike's vision of life and American society is apocalyptic as he wrote novels to depict the present dilemmas of the Americans and the future challenges of the country and the global world. He was also confronted with the riddle of life and existence like Dostoevsky and with a view to find the answers to the mysteries of life and truth he turned to Kierkegaard and Karl Barth who had evolved the dialectical method to explore reality and truth. Barth's dialectical method was derived from Kierkegaard who believed that truth is not found in the operation of Hegel's method of thesis and anti-thesis but rather in the dialectical tension between truth and truth. Kierkegaard wrote: Every truth is truth only to a certain degree when it goes beyond the counterpoint appears and it becomes untruth. Kierkegaard, *Word of God and Word of Man* 206.

John Updike stated that the purpose of his writing novels and stories is to examine everything for God's fingerprints. In the 1960s when he started writing his name was associated with other writers such as John Barth, Robert Coover and Thomas Pynchon busy in experimenting new themes and strategies. Updike ignored the main stream of contemporary fiction and distanced himself from the contemporary writers. His mission was to write a new kind of fiction to create a new kind of world to depict the new future of mankind the way Karl Marx had done.
