

Unit 1

(1.1)

Structure, Bonding and Intro to organic chemistry.

1.1 -- Formulae, equations and amount of Substance.

Atom --

It is that small particle of a substance which can take part in a chemical reaction, for example, if we have a small piece of iron metal, then every atom is capable of reacting with O_2 , and rusting away. The atom of element hydrogen is represented by H , and that of Chlorine is represented by Cl . This means that an atom is the smallest unit of ordinary matter that forms a chemical element.

Element --

It is a pure substance that cannot be broken down into any further simpler substances. In our example of the small piece of iron metal, there are only iron atoms, and hence, it cannot be broken down into other simpler substances.

Alison M Johnston

Wch01 01 May 2014:

Is the Sacred for Sale Alison M Johnston, 2014-10-14 Definitely a book that sheds light on perspectives and perceptions about today's global economy. A must read for tourists and corporations alike, also heads of state, the media and environment groups, all of whom need to be informed on this key subject. Chief Garry John, Chair and Spokesperson, St. Albert's Indian Council, an activist's call to action on behalf of people who have been made invisible in the merciless spread of globalization under corporate control. Nina Rao, Southern Cross Chair of the Tourism Caucus at the UN Commission on Sustainable Development and Professor of Tourism. A powerful and much needed tool to fight the seemingly all pervasive ignorance in the corporate and consumer driven world that continues to hail ecotourism and other tourism alternatives as beneficial to local people without looking at the root causes of problems. Anita Pleumarom, Tourism Investigation and Monitoring Team, Bangkok. Tourism is the fastest growing industry in the world. Ecotourism, often considered a more benign form of tourism, can in fact cause the most damage as it targets more vulnerable environments and cultures. *Is the Sacred for Sale* looks at our present crossroads in consumer society. It analyses the big questions of tourism, clarifying how tourism can support biodiversity conservation. It also offers a cross cultural window to the divide between corporate thinking and sacred knowledge to help us understand why collisions over resources and land use are escalating. Finally, we have a full spectrum of information for healthy dialogue and new relationships. This book is a profound wake up call to the business world and to decision makers who shape current policy. It poses important questions to us all and is a must read for every tourist and traveller.
