Energy demand is growing in the United States and around the world. At the same time, there is increasing public and political concern about the future of energy resources and the impact of energy generation and consumption on the environment. With energy demand increasing, it is important for us to know where our energy comes from, how much we consume, and how we can contribute to energy conservation and a clean energy future. This Web-quest Exploration Guide will direct you to several online resources related to energy. Follow the instructions and complete the worksheet to turn in to your teacher.

## I. WHAT IS NONRENEWABLE ENERGY?

- Go to the United States Environmental Protection Agency Clean Energy Web site: <http://www.epa.gov/cleanenergy/>
- Click on How does energy use affect my environment under the Energy and You menu.
- Click on the links to Coal, Oil, Natural Gas, and Nuclear and fill out the following chart:

| Nonrenewable Energy Resource | Description | Environmental Impacts |
|------------------------------|-------------|-----------------------|
| Coal                         |             |                       |
| Oil                          |             |                       |
| Natural Gas                  |             |                       |
| Nuclear                      |             |                       |

- Next, go to the Environmental Literacy Council Web site: <http://www.environmental literacy.org/>
  - Click on Energy on the left menu and then Click on Fossil Fuels on the right menu.
  - Answer the following questions:
1. What are some advantages of using fossil fuels?

2. Why do experts describe the rate of fossil fuel use as "unsustainable"?
