The International Handbook of Electronic Commerce Jae K. Shim, Anique A. Qureshi, Joel G. Siegel, Roberta M. Siegel, 2013-11-26. The International Handbook of Electronic Commerce covers that hot topic, e-commerce. It is designed to assist managers in implementing electronic commerce in their organizations, improving its efficiency and viability, and safeguarding and maintaining e-commerce systems. The book is designed as a practical how-to guide, offering extensive examples to illustrate practical applications. The tools and techniques in this handbook can be adapted outright or modified to suit individual needs. Checklists, email and website addresses, exhibits, illustrations, and step-by-step instructions enhance the handbook's practical use. Among the topics discussed are what electronic commerce is all about, the Internet and access provider industry, Intranets and Extranets, marketing and advertising, electronic data interchange, electronic banking and payment systems, network security, legal, taxation and accounting issues of e-commerce. The combination of growth in the commercial utilization of the Internet, the rapid changes in technology, and the complexity of management have expanded the scope of duties of business managers. To remain competitive, businesses and their managers must maintain a presence on the Internet. The International Handbook of Electronic Commerce provides readers with a compendium of the latest in current technologies and applications.

The International Handbook of Computer Security Jae Shim, Anique A. Qureshi, Joel G. Siegel, 2013-11-26. The International Handbook of Computer Security is designed to help information systems computer professionals as well as business executives protect computer systems and data from a myriad of internal and external threats. The book addresses a wide range of computer security issues. It is intended to provide practical and thorough guidance in what often seems a quagmire of computers, technology, networks, and software. Major topics discussed are security policies, physical security, procedures, data preservation and protection, hardware and software protection, and security personnel management and security, network security, internal and external systems, contingency planning, legal and auditing, planning and control.
