Wonders in the Sky Jacques Vallee, Chris Aubeck, 2010-10-28 One of the most ambitious works of paranormal investigation of our time here is an unprecedented compendium of pre twentieth century UFO accounts written with rigor and color by two of today's leading investigators of unexplained phenomena In the past century individuals newspapers and military agencies have recorded thousands of UFO incidents giving rise to much speculation about flying saucers visitors from other planets and alien abductions Yet the extraterrestrial phenomenon did not begin in the present era Far from it The authors of Wonders in the Sky reveal a thread of vividly rendered and sometimes strikingly similar reports of mysterious aerial phenomena from antiquity through the modern age These accounts often share definite physical features such as the heat felt and described by witnesses that have not changed much over the centuries Indeed such similarities between ancient and modern sightings are the rule rather than the exception In Wonders in the Sky respected researchers Jacques Vallee and Chris Aubeck examine more than 500 selected reports of sightings from biblical age antiquity through the year 1879 the point at which the Industrial Revolution deeply changed the nature of human society and the skies began to open to airplanes dirigibles rockets and other opportunities for misinterpretation represented by military prototypes Using vivid and engaging case studies and more than seventy five illustrations they reveal that unidentified flying objects have had a major impact not only on popular culture but on our history on our religion and on the models of the world humanity has formed from deepest antiquity Sure to become a classic among UFO enthusiasts and other followers of unexplained phenomena Wonders in the Sky is the most ambitious broad reaching and intelligent analysis ever written on premodern aerial mysteries

Dream Culture of the Neanderthals Stan Gooch, 2006-01-12 Explores the influence of Neanderthal man on the cultural and biological development of humanity Traces the power of long held beliefs and superstitions to the influence of Neanderthal lunar and dream based traditions Offers a compelling vision of a unified humanity that can benefit from the gifts of both its Neanderthal and Cro Magnon ancestors Provides evidence that direct descendants of the Neanderthal race may still be alive in Central Asia A number of long standing beliefs and superstitions show how the ideas that dominated the lives of our ancestors still have a powerful influence on us today The disturbing power attributed to the number thirteen the positive influence of the number seven and the comfort offered by the admonition knock wood all reveal the enduring presence of our most ancient ancestors the Neanderthals Contrary to current theories Stan Gooch maintains that the Neanderthals were not destroyed by the younger Cro Magnon culture but were incorporated into that culture through interbreeding The blending of the disparate influences of the lunar matriarchal based Neanderthals and the solar patriarchal Cro Magnons may explain the contradictory impulses and influences that have generated human conflict for millennia In fact the author suggests that the caste system in India may have been constructed to utilize the strengths of both lunar and solar cultures and to minimize the conflict between the two There is evidence that direct descendents of the moon worshipping

dream cultivating Neanderthal race are still living in Central Asia today While their physical descendants may be almost extinct the influence of Neanderthal wisdom remains strong and can be found not only in witchcraft lore and the Kabbalah but in the formative tenets of the Knights Templar the Rosicrucians and even Christianity Signs of the Gods? Erich Von Däniken, 2011-06-15 Were human beings created by powers from outer space Did extraterrestrial giants build the megaliths of Malta and the menhirs of Brittany Was the Ark of the Covenant a machine built by the astronaut gods In Signs of the Gods Erich von D niken travels far and wide around the globe to study the many strange phenomena that all point to one conclusion that many thousands of years ago Earth was visited by a race of superhuman powers and intelligence The questions he addresses along the way include Why are the religious sites in Greece all laid out in the same geometrical pattern a pattern which is repeated throughout the world Does the extraordinary longevity of the ancient Sumerian kings mean that the Land of the Two Rivers was ruled by a race of supermen Could the first men have been produced by cloning Do the great ruins of Zimbabwe point to an impossibly detailed knowledge of astronomy Erich von D niken s Chariots of the Gods provoked a worldwide storm of controversy In Signs of the Gods he produces powerful arguments to support his theory of astronaut gods with evidence that is difficult to explain any other way Hear what he has to say with an open mind and you may find yourself agreeing with him Show less
