The Pope, the Kings and the People: A History of the Movement to Make the Pope Governor of the World by a Universal Reconstruction of Society from the Issue of the Syllabus to the Close of the Vatican Council William

Arthur, 2020-09-28 On December 6 1864 Pope Pius IX held in the Vatican a memorable meeting of the Congregation of Rites That body consists of some eighteen or twenty cardinals with a few prelates and a number of consulters It holds a prominent place among the congregations or boards as they would be called at our Court which taken collectively may be said to constitute the Roman Curia It determines not only questions touching the canonization of saints and the patron saints of towns and countries but also questions touching relics rubrics and the title of sacred images to worship The all important matters of robes adornments and precedence are said by different authorities to be regulated by it and by the smaller Congregation of Ceremonies The pontifical masters of the ceremonies have a seat at both boards The day in question fell within three months after the signing of the convention of September by which the new kingdom of Italy had succeeded in binding Napoleon III to withdraw his troops from the Papal States at the close of 1866 It was therefore at a moment when thoughts were forcibly directed to the contingencies which might arise to the Papacy should it be left alone with Italians It was moreover only two days before the occurrence of an incident which has already grown into an event and was designed to mark a new era in society at large To that era the proceedings of the six years which we are about to trace were to form the introductory stage up to a grand inauguration both legislative and ceremonial We have no information as to the business for which the meeting we speak of had been convened It was however opened as usual by the reading of a prayer After the prayer the Pontiff commanded all who were not members of the Sacred College to withdraw and leave him alone with the Cardinals The excluded dignitaries interchanged conjectures as to what might be the cause of this unusual proceeding and hoped that on their readmission they should be informed But the Pope did not condescend to their curiosity they found that the Congregation only went on with the regular business and when events cleared up the doubt it proved that not one of them had guessed the truth In the short but eventful interval Pius IX had formally communicated to the Cardinals his own persuasion long cherished and now quickened to the point of irrepressible action that the remedy for the evils of the time would be found only in a General Council He commanded them to study the expediency of convoking one and to send to him in writing their opinions upon that question William of Malmesbury's Chronicle of the Kings of England William (of Malmesbury), 1866 **Claudian, a tale of the second century. pt. 1** Edward MONRO, 1862 *Ideology and Power in the Viking and Middle Ages* , 2011-04-21 Ideology and power are central elements in the political social religious and cultural development of the North during the transition from the Viking to the Middle Ages While the medieval European Christian

ideology of rulership has been widely discussed an analysis of the Nordic pre Christian ideology and of its confrontation with the new European ideals has so far been lacking This book examines the concepts and practices associated with chieftains earls and kings from the ninth to the thirteenth century the myths and rituals surrounding their position in a northern European warrior culture The analysis seems to indicate that important elements of the pre Christian ideology of rulership survived into the Christian Middle Ages either transformed or even simply transferred Contributors are Ian Beuermann Anders Hultgård Jan Erik Rekdal Jens Peter Schjødt Jón Viðar Sigurðsson Joanna Skrzewska Gro Steinsland and Olof Sundqvist
