**West American History** Hubert Howe Bancroft, 1902      **Ronald Reagan** David T. Byrne, 2018 In this ambitious work David Byrne analyzes the ideas that informed Ronald Reagan's political philosophy and policies Rather than appraising his personal and emotional life Byrne's intellectual biography goes one step further it establishes a rationale for the former president's motives discussing how thinkers such as Plato and Adam Smith influenced him Byrne points to three historical forces that shaped Reagan's political philosophy Christian values particularly the concept of a universal kingdom of God America's firm belief in freedom as the greatest political value and its aversion to strong centralized governments and the appeasement era of World War II which stimulated Reagan's aggressive and confrontational foreign policy Byrne's account of the fortieth president augments previous work on Reagan with a new model for understanding him Byrne shows how Reagan took conservatism and the Republican Party in a new direction departing from the traditional conservatism of Edmund Burke and Russell Kirk His desire to spread a Kingdom of Freedom both at home and abroad changed America's political landscape forever and inspired a new conservatism that persists to this day      *American History-Teacher* James P. **Bernard Williams on Philosophy and History** ,2025-10-21 For Bernard Williams philosophy and history are importantly connected His work exploits this connection in a number of directions he believes that philosophy cannot ignore its own history the way science can that even when engaging with philosophy's history primarily to produce history one needs to draw on philosophy and that when doing the history of philosophy primarily to produce philosophy one still needs a sense of how historically distant past philosophers are because the point of reading them is to confront something different from the present But Williams also holds that systematic philosophy itself needs to be done historically engaging not just with

its own history but with that of the concepts it seeks to understand To explore these different ways in which philosophy and history intertwine this volume assembles specially commissioned contributions by A W Moore Terence Irwin Sophie Grace Chappell Catherine Rowett Marcel van Ackeren John Cottingham Gerald Lang Lorenzo Greco Paul Russell Carla Bagnoli Peter Kail David Owen Giuseppina D Oro James Connelly Matthieu Queloz Nikhil Krishnan John Marenbon Ralph Wedgwood Garrett Cullity Hans Johann Glock Geraldine Ng Ilaria Cozzaglio Amanda R Greene and Miranda Fricker They critically appraise Williams s work in and on the history of philosophy as well as his historicist turn and his use of genealogy The collection uniquely combines substantive discussions of historical figures from Homer to Wittgenstein with methodological discussions of how and why the history of philosophy should be done and how and why philosophy should draw on history
