

2024 Scaling Report

VCAA provides VTAC with study scores (relative positions). These study scores are scaled in order to calculate scaled aggregates and Australian Tertiary Admission Ranks (ATARs). Candidates are in the 2024 scaling population if, excluding small studies, they have obtained at least one VCAA study score in 2024, at least four in total, at least one in an English study (English, English as an Additional Language, English Language or Literature), but do not already have an ATAR. The scaling population is therefore a subset of the entire population. The means and standard deviations below pertain to the scaling population in 2024.

The following table gives the 2024 scaled means and standard deviations as well as the VTAC scaled study scores (rounded to the nearest integer) corresponding to the study scores of 20, 25, 30, 35, 40, 45 and 50. The formal aggregation process uses VTAC scaled study scores to two decimal places, but the following information gives an indication of how scaling adjusts scores in the various studies.

Code	2024 Study	Mean	St. Dev.	20	25	30	35	40	45	50
AC	Accounting	30.8	7.4	20	25	31	36	41	46	50
AH	Agricultural & Horticultural Studies	24.7	6.5	15	19	24	29	35	42	50
