### CHAPTER 1

#### CASE STUDY: THE KANDY CYCLE SHOP

- 1 ► Why do you think Tharanga opened a second-hand bicycle shop?

Tharanga had always wanted to run a business because he wanted to be his own boss. He also had a passion for bicycles and spent a lot of his spare time restoring old bicycles and selling them on to local people as a hobby. He probably felt he could make a living by exploiting this hobby. He may also have been motivated by the prospect of making some money.

- 2 ► What are three resources used by Tharanga when setting up his business?

Tharanga when setting up his business used a range of resources. For example, he needed premises, tools and equipment, such as spanners, pliers, screwdrivers and wrenches, spare bicycle parts, lubricants, business stationery, electricity and a mobile telephone. He also employed his younger brother as a shop assistant.

- 3 ► Why do you think businesses exist?

Businesses exist to provide goods or services. In this example, Tharanga sold second-hand bicycles and carried out a repair and maintenance service for bicycle owners. In the private sector these goods and services are sold in the hope that a profit is made for the business owners.

They are not required for human survival. People can live without toffees, sweets and lollies, so they are not designed to meet their needs.

- 2 ► The Gulf Confectionery and Biscuit Co. is a private enterprise. What does this mean?

Individuals or groups of individuals own most businesses privately. They are private sector businesses. The Gulf Confectionery and Biscuit Co. is a private enterprise that makes toffees, sweets and lollies. The owners hope that the business is successful and is able to make a profit.

### ACTIVITY 2

#### CASE STUDY: STAKEHOLDERS

- 1 ► What is meant by the term business stakeholder?

A stakeholder is an individual or a group that has an interest in the operation of a business. Some stakeholders, such as owners, have a financial interest in the business.

- 2 ► Name the two groups of stakeholders in the photograph.

Customers and employees are the two groups of stakeholders in the photograph.

- 3 ► The goods sold in the store above are bought from suppliers. What are the possible needs of suppliers?

Businesses that provide raw materials, parts, commercial services and utilities to other businesses are called suppliers. In this case, suppliers provide the store with the stock that is sold on to consumers. Relations between businesses and their suppliers must be good because they rely on each other. Businesses want good quality resources at reasonable prices. In return suppliers will require prompt payment and regular orders. If suppliers do not receive prompt payment from their customers, this may cause them problems. For example, they may not have enough money to pay their own bills.
