Vivian Maier Selfportraits:

Vivian Maier: Self-Portraits ,2013-10-29 The original instant classic which set the world afire The first book to introduce the phenomenon that is the life story and work of Vivian Maier A good street photographer must be possessed of many talents an eye for detail light and composition impeccable timing a populist or humanitarian outlook and a tireless ability to constantly shoot shoot shoot shoot and never miss a moment It is hard enough to find these qualities in trained photographers with the benefit of schooling and mentors and a community of fellow artists and aficionados supporting and rewarding their efforts It is incredibly rare to find it in someone with no formal training and no network of peers Yet Vivian Maier is all of these things a professional nanny who from the 1950s until the 1990s took over 100 000 photographs worldwide from France to New York City to Chicago and dozens of other countries and yet showed the results to no one The photos are amazing both for the breadth of the work and for the high quality of the humorous moving beautiful and raw images of all facets of city life in America s post war golden age It wasn t until local historian John Maloof purchased a box of Maier s negatives from a Chicago auction house and began collecting and championing her marvelous work just a few years ago that any of it saw the light of day Presented here for the first time in print Vivian Maier Street Photographer collects the best of her incredible unseen body of work Please note that all blank pages in the book were chosen as part of the design by the publisher

Vivian Maier John Maloof,2014-10-28 The definitive monograph of American photographer Vivian Maier exploring the full range and brilliance of her work and the mystery of her life written and edited by noted photography curator and writer Marvin Heiferman featuring 250 black and white images color work and other materials never seen before and a foreword by New York Times bestselling author Laura Lippman Vivian Maier s story the secretive nanny photographer during her life who becomes a popular sensation shortly after her death has to date been pieced together only from previously seen or known images she made and the handful of facts that have surfaced about her life During her lifetime she shot more than 100 000 images which she kept hidden from the world In 2007 two years before her death Chicago historic preservationist John Maloof discovered a trove of negatives and roll upon roll of undeveloped film in a storage locker he bought at auction They revealed a surprising and accomplished artist and a stunning body of work which Maloof championed and brought to worldwide acclaim Vivian Maier presents the most comprehensive collection and largest selection of the photographer s work created during the 1950s through the 1970s in New York Chicago and on her travels around the country almost exclusively unpublished and including her previously unknown color work It features images of and excerpts from Maier s personal artifacts memorabilia and audiotapes made available for the first time This remarkable volume draws upon recently conducted interviews with people who knew Maier which shed new light on Maier s photographic skill and her life

Vivian Maier Developed Ann Marks,2021-12-07 In this definitive biography Ann Marks uses her complete access to Vivian Maier s personal records and archive of 140 000 photographs to reveal the full story of her extraordinary life

Technologies of the Self-Portrait Gabriella Giannachi, 2022-07-29 This book demonstrates how artists have radically revisited the genre of the self portrait by using a range of technologies and media that mark different phases in what can be described as a history of self or selves production Gabriella Giannachi shows how artists constructed their presence subjectivity and personhood by using a range of technologies and media including mirrors photography sculpture video virtual reality and social media to produce an increasingly fluid multiple and social representation of their self This interdisciplinary book draws from art history performance studies visual culture new media theory philosophy computer science and neuroscience to offer a radical new reading of the genre

Vivian Maier Developed Ann Marks, 2023-07-04 The definitive and authorized biography that unlocks the remarkable story of Vivian Maier the nanny who lived secretly as a world class photographer featuring nearly 400 of her images many never seen before placed for the first time in the context of her life Vivian Maier the photographer nanny whose work was famously discovered in a Chicago storage locker captured the imagination of the world with her masterful images and mysterious life Before posthumously skyrocketing to global fame she had so deeply buried her past that even the families she lived with knew little about her No one could relay where she was born or raised if she had parents or siblings if she enjoyed personal relationships why she took photographs and why she didn't share them with others Now the full story of her extraordinary life is explored by the only person who has been given access to her personal records and archive of 140 000 photographs Based on meticulous investigative research Vivian Maier Developed reveals the story of a woman who fled from a family with a hidden history of illegitimacy bigamy parental rejection substance abuse violence and mental illness to live life on her own terms Left with a limited ability to disclose feelings and form relationships she expressed herself through photography creating a secret portfolio of pictures teeming with emotion authenticity and humanity With limitless resilience she knocked down every obstacle in her way determined to improve her lot in life and that of others by tirelessly advocating for the rights of workers women African Americans and Native Americans No one knew that behind the detached veneer was a profoundly intelligent empathetic and inspired woman a woman so creatively gifted that her body of work would become one of the greatest photographic discoveries of the century

Vivian Maier Pamela Bannos, 2017-10-05 Look s past the mystique of the eccentric nanny with a camera to tell the true Maier story An extraordinary work Library Journal Who was Vivian Maier Many know her as the reclusive Chicago nanny who wandered the city for decades constantly snapping photographs which were unseen until they were discovered in a seemingly abandoned storage locker They revealed her to be an inadvertent master of twentieth century American street photography Not long after the news broke that Maier had recently died and had no surviving relatives Soon the whole world knew about her preternatural work shooting her to stardom almost overnight But as Pamela Bannos reveals in this meticulous biography this story of the nanny savant has blinded us to Maier's true achievements as well as her intentions

Most important Bannos argues Maier was not a nanny who moonlighted as a photographer she was a photographer who supported herself as a nanny In Vivian Maier A Photographer's Life and Afterlife Bannos contrasts Maier's life with the mythology that strangers mostly the men who've profited from her work have created around her absence She shows that Maier was extremely conscientious about how her work was developed printed and cropped even though she also made a clear choice never to display it She places Maier's fierce passion for privacy alongside the recent spread of her work around the world and explains Maier's careful adjustments of photographic technique while explaining how the photographs have been misconstrued or misidentified Bannos also uncovers new information about Maier's immediate family including her difficult brother Karl relatives once thought not to exist This authoritative biography shows that the real story of Vivian Maier a true visionary artist is even more compelling than the myth An excellent book that reads like a mystery novel Wonderful and engrossing Elizabeth Currid Halkett author of Starstruck The Business of Celebrity It's a portrait as direct as any of Maier's and what a distinct pleasure it is to meet her gaze again The New York Times This book is by far the finest yet published on the artist I believe it will become a classic in the field Art in America **Artist Complex** Jadwiga Kamola,2021-10-11 With the Jungian term of the complex the present volume inquires about the making of the artistic persona in twentieth century photography The articles examine photographic self portraits the dynamics between self statements of artists and photographers the interrelations of photography of painting and of performance art and investigate their origins in the history of ideas The volume traces a portrait of photography as a metascience as preparatory work a source of inspiration and an alternate medium in which artists could explore different subjects With essays by Ulrike Blumenthal Till Cremer Victoria Fleury Jadwiga Kamola Weronika Kobylska Bunsch Nadja Kffler Constance Krger Wilma Scheschonk Gerd Zillner *Photography after Photography* Abigail Solomon-Godeau,2017-03-23 Presenting two decades of work by Abigail Solomon Godeau Photography after Photography is an inquiry into the circuits of power that shape photographic practice criticism and historiography As the boundaries that separate photography from other forms of artistic production are increasingly fluid Solomon Godeau a pioneering feminist and politically engaged critic argues that the relationships between photography culture gender and power demand renewed attention In her analyses of the photographic production of Cindy Sherman Robert Mapplethorpe Susan Meiselas Francesca Woodman and others Solomon Godeau refigures the disciplinary object of photography by considering these practices through an examination of the determinations of genre and gender as these shape the relations between photographers their images and their viewers Among her subjects are the 2006 Abu Ghraib prison photographs and the Cold War era exhibition The Family of Man insofar as these illustrate photography's embeddedness in social relations viewing relations and ideological formations Psychobiographical Illustrations on Meaning and Identity in Sociocultural Contexts Claude-Hélène Mayer,Paul, J.P. Fouché,Roelf Van Niekerk,2022-01-01 This book explores psychobiography with focus on meaning making and identity development in the life

and works of extraordinary individuals Meaning making and identity development are existential constructs influencing psychological development mental health and wellbeing across the lifecourse The chapters illustrate through the eyes of 25 international psychobiographers various theoretical and methodological approaches to psychobiography They explore how individuals such as Angela Merkel Karl Lagerfeld Henri Nouwen Vivian Maier Charles Baudelaire W E B du Bois Lor nt Heged s Kim Philby Zoltan Paul Dienes Albertina Sisulu Ruth First Sokrates and Jesus construct their lives to make meaning develop their identities and grow as individuals within their sociocultural contexts The texts provide deep insight into life s development

History of Self-Timers Nakoa Rainfall, AI, 2025-02-26 History of Self Timers explores the fascinating evolution and impact of a seemingly simple device on photography and society The book traces the self timer s journey from early mechanical designs to its ubiquitous presence in digital cameras and smartphones revealing its profound influence on portrait photography group shots and self portraiture Interestingly it explores how the self timer not only changed photographic technology but also democratized image making empowering individuals to control their own representation and fostering new forms of social connection The book examines the social impact of self timers particularly its role in family portraits and amateur photography and analyzes its artistic impact on self portraiture and contemporary art Organized chronologically the book begins with the introduction of mechanical self timers and progresses through their social and artistic implications in the 20th century culminating in a discussion of their current state and future implications in digital photography By studying vintage camera catalogs photographic journals and even design patents the book paints a vivid picture of how the self timer became a catalyst for social empowerment and creative expression

Exploring the Selfie Julia Eckel, Jens Ruchatz, Sabine Wirth, 2018-04-06 This volume explores the selfie not only as a specific photographic practice that is deeply rooted in digital culture but also how it is understood in relation to other media of self portrayal Unlike the public debate about the dangers of selfie narcissism this anthology discusses what the practice of taking and sharing selfies can tell us about media culture today can the selfie be critiqued as an image or rather as a social practice What are the technological conditions of this form of vernacular photography By gathering articles from the fields of media studies art history cultural studies visual studies philosophy sociology and ethnography this book provides a media archaeological perspective that highlights the relevance of the selfie as a stereotypical as well as creative practice of dealing with ourselves in relation to technology

Cultural Critique Through the Detour of Art Kris Rutten, Keyan G. Tomaselli, 2025-06-30 This book brings together a selection of articles that have been published throughout a series of special issues of the journal *Critical Arts South North Cultural and Media Studies* that originally focused on the so called ethnographic turn in contemporary arts An increasing wave of art events has occurred since the 1990s that have displayed significant similarities with anthropology and ethnography in their theorizations of cultural difference and representational practices The aim of these works was to revisit the ethnographic turn in contemporary art by bringing together contributions from theorists artists and critics to engage critically with the ethnographic perspective in their work This focus on the ethnographic turn has been expanded in subsequent special issues to explore how culture and society can be critically explored and challenged through the detour of art how contemporary art practices engage with participation interaction and technology in an increasingly digital screen culture and what the role can be of critical art to conceptualize contest and or develop an engaged and critical pedagogy This collection aims to re-expose the special issues to an international audience by presenting a non-exhaustive selection of articles that exemplify the different perspectives and discussions that are tackled throughout It starts with three of the introductory articles that have attracted large readerships and that give a detailed introduction for the special issues The compilation ends with three so called Vignettes these are short statements and reflections by artists about their practice which are an important feature of the special issues

The Art of Mystery
Maud Casey, 2018-01-02 A sensitive and nuanced exploration of a seldom discussed subject by an acclaimed novelist The fourteenth volume in the Art of series conjures an ethereal subject the idea of mystery in fiction Mystery is not often discussed apart from the genre because as Maud Casey says It s not easy to talk about something that is a whispered invitation a siren song a flickering light in the distance Casey the author of several critically acclaimed novels reaches beyond the usual tool kit of fictional elements to ask the question Where does mystery reside in a work of fiction She takes us

into the Land of Un a space of uncertainty and unknowing to find out and looks at the variety of ways mystery is created through character image structure and haunted texts including the novels of Shirley Jackson Paul Yoon J M Coetzee and more Casey s wide ranging discussion encompasses spirit photography the radical nature of empathy and contradictory characters as she searches for questions rather than answers The Art of Mystery is a striking and vibrant addition to the much loved Art of series
