Rental Housing Affordability in European Cities Marco Peverini,2023-11-18 This book investigates policies for the
 promotion of housing affordability in the rental sector of attractive cities in Europe Affordability links the housing situation to
 the economic situation of households referring to conditions of access to housing and to the role of housing in determining
 poverty or wealth The book examines the current affordability crisis and frames it in the ongoing process of urban
 restructuring and devolution of welfare From the perspective of the Foundational Economy the book calls for a proactive and
 effective role of public administrations in making the rental sector an affordable and stable alternative to housing
 financialization and commodification By intertwining theory construction and real world data collected through case studies
 in Milan and Vienna the book provides an original framework for the analysis of public policies that promote rental
 affordability in a multi level setting Through the analysis it highlights critical nodes of the different housing urban and social
 policy domains at stake in the promotion of rental affordability in attractive cities The book proposes a shift from the
 currently dominant supply side argument to an integrated intersectoral and multi scalar policy system for making cities more

 Lanahan,2019-05-21 A masterful narrative with echoes of Evicted and The Color of Law that brings to life the structures
 policies and beliefs that divide us Mark Lange and Nicole Smith have never met but if they make the moves they are
 contemplating Mark a white suburbanite to West Baltimore and Nicole a black woman from a poor city neighborhood to a
 prosperous suburb it will defy the way the Baltimore region has been programmed for a century It is one region but separate
 worlds And it was designed to be that way In this deeply reported revelatory story duPont Award winning journalist
 Lawrence Lanahan chronicles how the region became so highly segregated and why its fault lines persist today Mark and
 Nicole personify the enormous disparities in access to safe housing educational opportunities and decent jobs As they
 eventually pack up their lives and change places bold advocates and activists in the courts and in the streets struggle to
 figure out what it will take to save our cities and communities Put money into poor segregated neighborhoods Make it
 possible for families to move into areas with more opportunity The Lines Between Us is a riveting narrative that compels
 reflection on America s entrenched inequality and on where the rubber meets the road not in the abstract but in our own
 backyards Taking readers from church sermons to community meetings to public hearings to protests to the Supreme Court
 to the death of Freddie Gray Lanahan deftly exposes the intricacy of Baltimore s hypersegregation through the stories of
 ordinary people living it shaping it and fighting it day in and day out This eye opening account of how a city creates its black
 and white places its rich and poor spaces reveals that these problems are not intractable but they are designed to endure
