Golden Days for Boys and Girls ,1891 *The Gardeners' Chronicle* ,1919 **Northern Ireland, the United States and the Second World War** Simon Topping, 2022-01-13 In Northern Ireland The United States and the Second World War Simon Topping analyses the American military presence in Northern Ireland during the war examining the role of the government at Stormont in managing this friendly invasion the diplomatic and military rationales for the deployment the attitude of Americans to their posting and the effect of the US presence on local sectarian dynamics He explores US military planning the hospitality and entertainment provided for American troops the renewal and reimagining of historic links between Ulster and the United States the importation of Jim Crow racism Johnny Doughboys marrying Irish Roses and how all of this impacted upon internal transatlantic and cross border politics This study also draws attention to influential and understudied individuals such as Northern Ireland's Prime Minister Sir Basil Brooke and offers a reassessment of David Gray America's minister to Dublin As a result it provides a comprehensive examination of largely overlooked aspects of the war and Northern Ireland more generally and fills important gaps in the history of both Northern Ireland The United States and the Second World War is essential for students and scholars interested in the history of Northern Ireland American Irish relations the Second World War on the UK home front and wartime transatlantic diplomacy **Gardeners' Chronicle** ,1915

Essays on Indian Antiquities James Prinsep, 1858 **Modern Poultry Keeping** ,1952 *Great Britain and the German Navy* E.L. Woodward, 2019-05-23 First published in 1935 in this volume E L Woodward reconstructs with his usual painstaking industry the various phases of Anglo German naval relations from the enactment of the German navy laws of 1898 1900 to the months of the apparent détente just before the outbreak of war in 1914 The principle documentary collections have been carefully consulted and the material drawn from them is woven into an extended account of negotiations which for several years kept London and Berlin preoccupied with comparative shipbuilding programmes fleet

ratios and political formulas With excellent judgement the author skilfully sets his central theme against the background of concurrent developments in the realm of European diplomacy Though the importance of the Navy as an international power is indubitably diminished at the moment the matter of the actual strength of the Navy is still a matter of controversy To some extent today we can say of this book as the reviewer in The Times Literary Supplement said on its first publication in 1935 The circumstances of today in which naval competition has again begun may differ from those of thirty years ago but those who read and digest this balanced and accurate account of that period will not fail to observe familiarities in the two situations

Essays on Indian Antiquities, Historic, Numismatic, and Palaeographic, of the Late James Prinsep James Prinsep, 1858

Propaganda, Censorship and Irish Neutrality in the Second World War Robert Cole, 2006-02-22 Allied propaganda and Eire censorship were a vital part of the conflict over Irish neutrality in the Second World War Based upon original research in archives in Ireland Great Britain the United States and Canada this study opens a new page in the history of wartime propaganda and censorship It examines the channels of propaganda including the press and other print media broadcasting and film employed in Eire and the agencies which operated them and the structure and operations of the Eire censorship bureau which sought to repress them It also looks at the role played by Irish Americans in the conflict some of whom supported while others opposed Irish neutrality Which side could win this war of words Could British and American propaganda overcome Eire neutrality or would re censorship guarantee that it could not In this detailed and wide ranging examination of the war of words over Eire neutrality the author addresses such subjects as public opinion government policies propaganda planning objectives content and channels of dissemination and the purpose and tactics of censorship
