Focusing on the main themes of the East Asia region and the study of regionalism, economic regionalism, and East Asia's new economic geography, Southeast Asia, and the Association of Southeast Asian Nations (ASEAN), trans-regionalism, East Asia's new free trade agreement, trends, and key transnational issues in East Asia, such as international migration and energy security, *East Asian Regionalism* will be an essential text for courses on East Asian regionalism, Asian politics, and Asian economics. Key pedagogical features include end-of-chapter study questions, case studies that discuss topical issues, with study questions also provided, useful tables and figures which illustrate key regional trends in East Asia, extensive summary conclusions covering the chapter's main findings from different international political economy perspectives.

Was macht TOYOTA anders als andere Automobilunternehmen? Der Autor selbst viele Jahre in der Automobilindustrie tätig argumentiert überzeugend dass der Erfolg von TOYOTA in der Unternehmenskultur begründet ist. To place the internationalization of Japan in comparative perspective, there are chapters on Britain and the United States from a leading British and a leading American political scientist respectively.
