Helming,2013-02-27 *Evolution 2.0* Perry Marshall,2015-09-01 In the ongoing debate about evolution science and faith face off But the truth is both sides are right and wrong In one corner Atheists like Richard Dawkins Daniel Dennett and Jerry Coyne They insist evolution happens by blind random accident Their devout adherence to Neo Darwinism omits the latest

science glossing over crucial questions and fascinating details In the other corner Intelligent Design advocates like William Dembski Stephen Meyer and Michael Behe Many defy scientific consensus maintaining that evolution is a fraud and rejecting common ancestry outright There is a third way Evolution 2 0 proves that while evolution is not a hoax neither is it random nor accidental Changes are targeted adaptive and aware You ll discover How organisms re engineer their genetic destiny in real time Amazing systems living things use to re design themselves Every cell is armed with machinery for editing its own DNA The five amazing tools organisms use to alter their genetics 70 years of scientific discoveries of which the public has heard virtually nothing Perry Marshall approached evolution with skepticism for religious reasons As an engineer he rejected the concept of organisms randomly evolving But an epiphany that DNA is code much like data in our digital age sparked a 10 year journey of in depth research into more than 70 years of under reported evolutionary science This led to a new understanding of evolution an evolution 2 0 that not only furthers technology and medicine but fuels our sense of wonder at life itself This book will open your eyes and transform your thinking about evolution and God You ll gain a deeper appreciation for our place in the universe You ll see the world around you as you ve never seen it before Evolution 2 0 pinpoints the central mystery of biology offering a multimillion dollar technology prize at naturalcode org to the first person who can solve it
