On a Global Mission: The Automobiles of General Motors International Volume 3 Louis F. Fourie, 2016-12-29 Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM. Each model is examined individually and supplemented by exhaustive supporting specification tables. The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three covers the smaller assembly operations around the world and the evolution of GM's export operations. A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American model specifications are the most comprehensive to be found in a single book. Global and regional sales statistics are included. GM executives and management from around the globe are listed with the roles they held. An index ensures that these volumes serve as the ideal reference source on GM.

A Million Cars For A Billion People Gautam Sen, 27-02-15 Can one car transform a nation? The Ford Model T did so a century ago when it replaced the horse, brought about a revolution in agriculture, became a stimulus to urbanization that eventually changed the landscape of America. Though the Maruti 800, the Tata Indica, the Hyundai Santro and the Maruti Alto became engines of growth for India.

these cars neither drove away the cow nor changed the way Indians travelled Tata s Nano was expected to change all that and become the ultimate people s car capturing the imagination of the middle class across nations and cultures In spite of its petite dimensions the Nano was meant to stand tall Yet it did not What caused it to fail and fall from grace despite being lauded as the right product at the right time and the most significant new car since the Ford Model T was introduced 100 years ago But is it really all over or is there still hope for India s little wonder What will the people s cars of tomorrow be like A Million Cars for a Billion People delves into the questions concerns and doubts as well as the many misconceptions and myths that have gathered momentum over the years about India s automotive history and the industry s mission to create a true people s car The very first cars that came to India the early beginnings of the industry the nascent history of the automobile across nations like Germany France US the UK Italy Japan and South Korea is narrated with authority and charm from the viewpoint of the quest for the ultimate people s car
