University Of Limpopo Second Semester Time Table:

Social Work in Social Change Nicci Earle, 2008 This study forms part of a series of studies on professions and professional education being conducted by the HSRC's research programme on Education Science Skills Development It follows a pilot study on medical doctors published in 2006 entitled *Doctors in a Divided Society* The profession and education of medical practitioners in South Africa Like the other studies in the series this study involved developing an understanding of the professional milieu and professional labour market of social workers As the implementers of government social policy social work professionals have been at the forefront of grappling with the practicalities of the changes in focus approach and methods of social security and social service delivery since 1994 It examines developments in the education and training of social workers within the democratic dispensation the most significant of which is the development of a national standardised Bachelor of Social Work degree The study also reveals that the dominant profile in student enrolment and graduation statistics has changed from white female to African female and that enrolment has increased significantly However the study also shows that graduation trends have been negative and losses due to emigration are an additional concern Given the scarcity of these professionals against the demand for their services understanding the factors that contribute to this picture are critical to effective intervention *Angus Buchan Daily Planner 2009* , **Farmer's Weekly** ,1926 South African Journal of Science ,2008 Civil Society in Zimbabwe Mandlenkosi Mpofu, Dion Nkomo, Kirk Helliker, 2025-09-01 This book considers the historical and spatial dimensions of civil society in Zimbabwe's Matabeleland region an area suffering from severe development and democratic deficits over many decades Transcending an organisational conception of civil society and a simplistic state civil society dualist understanding it recognises the dynamic character of civil society as a social space inclusive of less formalised associational forms of collective life as well as the colonial character and legacies of civil society both analytically and empirically This book facilitates a nuanced understanding of the specificities of the social political and economic evolution of Matabeleland in colonial and post colonial Zimbabwe and the region's troubled relations with the central state Historically it traces civil society in Matabeleland from the region's resistance against the colonial settler state to contemporary struggles for justice given the unresolved Gukurahundi legacy Civil society is depicted as constituted by a set of complex and shifting struggles for justice not simply between Matabeleland and the central state but also internally within Matabeleland along multiple fault lines including class and culture The relevance of understanding civil society in Matabeleland for Zimbabwe and Africa more widely is brought to the fore The book will be of interest and value to scholars of civil society politics and democratisation across the African continent **Assessing Vulnerability to Global Environmental Change** Anthony G. Patt, Richard J. T. Klein, Dagmar Schröter, Anne Cristina De la Vega-Leinert, 2012 First Published in 2008 Routledge is an imprint of Taylor Francis an informa company **Almanack for the Year of Our Lord ...** ,1972 **Africa Water Atlas** United Nations Environment Programme, 2010 This Africa Water Atlas is a visual account of

Africa's endowment and use of water resources revealed through 224 maps and 104 satellite images as well as some 500 graphics hundreds of compelling photos plus a brief profile of the water situation in every country These visual elements vividly illustrate a succinct narrative describing and analysing Africa's water issues and exemplifying them through the judicious use of case studies The Atlas tells the paradoxical story of a continent with adequate renewable water resources but unequal access because the water is either abundant or scarce depending on the season or the place it explores the opportunities to develop Africa's untapped water resources and human capacities to deliver safe drinking water and sanitation services to achieve the water related Millennium Development Goals As well as hydropower and irrigation services that help support livelihoods and boost economic development
