Information Technology Applications for Crisis Response and Management Beard, Jon W., 2021-02-19. Properly addressing a crisis requires more than just guesswork and a reaction; it requires a properly structured approach supported by good information. With the rapid evolution of information systems and information technology, including hardware, software, the internet, and communications capabilities, there are abundant opportunities to apply these technology capabilities and resources to support and improve responses to and management of crisis situations. Approaches to crisis response and management include the design, development, implementation, and application of systematic methodologies on how to respond, as well as how to apply information systems to enhance and extend responses to crises. Information Technology Applications for Crisis Response and Management provides a multi-disciplinary perspective on current and cutting edge research exploring and extending our understanding of the use of information systems and information technology to support responses to crises of all kinds: accidental, intentional, and acts of nature. The chapters in this book focus on the design, development, implementation, use, and evaluation of information system technologies and methodologies to support crisis response and management, as well as technology management related issues for crisis response and management. While highlighting technical, cognitive, organizational, and human focused issues within the field, this book is ideal for policymakers, IT specialists, government officials, crisis response teams managers, practitioners, researchers, academicians, and students interested in the use of information technology and information systems to support diverse types of crises.

African Union Law Olufemi Amao, 2018-07-06. This book explores the emergence of African Union (AU) law as a legal order and its implications for existing order in the region. As an authoritative text on the development of AU law, the book covers such pertinent issues as legislative powers, competences, direct effect in AU law, subsidiarity, interventionism, and enforcement of laws. Olufemi Amao argues that there is a gradual movement from intergovernmentalism to supranationalism in the African Union legal order and explores how this trajectory gradually and incrementally de-emphasises the discourse on nation state sovereignty, a concept that has caused many problems in the African context. Drawing upon EU law as a comparison, the book also examines how the development of supranationalism affects crucial issues such as human rights, democratic reforms,

territorial matters tribal and religious disputes and economic relations As a comprehensive examination of the development of law within a union this book will be of great interest and use to students scholars and practitioners in international law international relations and African studies
