Camminga, Zethu Matebeni, 2023-02-10

Beyond The Mountain Queer Life in Africa's Gay Capital contributes to the body of knowledge on the lived experiences of lesbian gay bisexual transgender queer and intersex LGBTQI communities in Cape Town. The book provides insight on the lives of the LGBTQI communities in Cape Town and challenges the stereotypes and prejudices against these communities. The chapters consist of both narratives of lived experiences and academic discussions presented by novice as well as experienced scholars. The imagery of beyond the mountain is a depiction of the lives of LGBTQI community and immovable negative perceptions the general public have to them and seeks to expose their world and the kinds of violence and abuse they are subjected to as well as unveiling the racial discrimination within these communities. The book revolves around five themes: education, emancipation, protection, acceptance, and integration of those who identify as LGBTQI people in society. Human Rights and Citizenship Education Nektaria Palaiologou, Michalinos Zembylas, 2018-11-21. This volume examines different conceptualizations of human rights, citizenship, and interculturalism, as well as their interrelationships in different national contexts. This intersection in its various combinations is explored theoretically, pedagogically, and practically with the studies investigating whether certain human rights demands reveal patterns that are incompatible with citizenship and multiculturalist claims. Contributions also explore the theoretical and practical bases on which human rights, citizenship, and intercultural education should be grounded, as well as how human rights, citizenship, and intercultural education can join forces to make policy practice and research stronger and more robust. The issues explored in this volume continue to feature on policy agendas at local, national, and international levels at a time when considerable changes are taking place within and across societies. Particularly in Europe, the current refugee and migration crisis complicates this situation further, creating new complex challenges for countries and regions, including how to respond productively and justly to the migration of peoples, how to complement existing legal frameworks and modes of governance to face threats to social justice, security, and social cohesion of political and civil societies, and how to develop new rights that increase participation in social and political life, especially in groups that are vulnerable and marginalized. As shown here, however, these challenges provide unique opportunities to re-imagine the transformative potential of the intersection among intercultural, human rights, and citizenship education in different situations and contexts.
