ecocriticism tended to elide the bitter divisions within and between societies recent practitioners of ecofeminism environmental justice and social ecology have argued that the social the economic and the environmental have to be seen as part of the same process Taking up this challenge the contributors trace the origins of an environmental sensibility and of the modern left to their roots in the late eighteenth and early nineteenth centuries charting the ways in which the literary imagination responds to the political industrial and agrarian revolutions Topics include Samuel Taylor Coleridge s credentials as a green writer the interaction between John Ruskin s religious and political ideas and his changing view of nature William Morris and the Garden City movement H G Wells and the Fabians the devastated landscapes in the poetry and fiction of the First World War and the leftist pastoral poetry of the 1930s In historicizing and connecting environmentally sensitive literature with socialist thought these essays explore the interactive vision of nature and society in the work of writers ranging from William Wordsworth and John Clare to John Berger and John Burnside

Gay Directors, Gay Films? Emanuel Levy,2015-08-25 Through intimate encounters with the life and work of five contemporary gay male directors this book develops a framework for interpreting what it means to make a gay film or adopt a gay point of view For most of the twentieth century gay characters and gay themes were both underrepresented and misrepresented in mainstream cinema Since the 1970s however a new generation of openly gay directors has turned the closet inside out bringing a poignant immediacy to modern cinema and popular culture Combining his experienced critique with in depth interviews Emanuel Levy draws a clear timeline of gay filmmaking over the past four decades and its particular influences and innovations While recognizing the queering of American culture that resulted from these films Levy also takes stock of the ensuing conservative backlash and its impact on cinematic art a trend that continues alongside a growing

acceptance of homosexuality He compares the similarities and differences between the North American attitudes of Todd Haynes Gus Van Sant and John Waters and the European perspectives of Pedro Almod var and Terence Davies developing a truly expansive approach to gay filmmaking and auteur cinema
