Paradise Lost, 2022-06-13 *Paradise Lost Race and Racism in Post apartheid South Africa* is about the continuing salience of race and persistence of racism in post apartheid South Africa The chapters in the volume illustrate the multiple ways in which race and racism are manifested and propose various strategies to confront racial inequality racism and the power structure that underpins it while exploring how through a renewed commitment to a non racial society apartheid racial categories can be put under erasure at exactly the time they are being reinforced Livelihood and Landscape Change in Africa: Future Trajectories for Improved Well-Being under a Changing Climate Sheona Shackleton, Paul Hebinck, Chinwe Ifejika Speranza, Vanessa Masterson, Dian Spear, Maria Tengö, 2019-10-08 This book is based on a Special Issue of the journal LAND that draws together a collection of 11 diverse articles at the nexus of climate change landscapes and livelihoods in rural Africa all explore the links between livelihood and landscape change including shifts in farming practices and natural

resource use and management The articles which are all place based case studies across nine African countries cover three not necessarily mutually exclusive thematic areas namely smallholder farming livelihoods under new climate risk five articles long term dynamics of livelihoods and landscape change and future trajectories two articles and natural resource management and governance under a changing climate spanning forests woodlands and rangelands four articles The commonalities key messages and research gaps across the 11 articles are presented in a synthesis article All the case studies pointed to the need for an integrated and in depth understanding of the multiple drivers of landscape and livelihood change and how these interact with local histories knowledge systems cultures complexities and lived realities Moreover where there are interventions such as new governance systems REDD or climate smart agriculture it is critical to interrogate what is required to ensure a fair and equitable distribution of emerging benefits

Educational Leadership in Becoming Nuraan Davids, Yusef Waghid, 2016-08-25 Educational Leadership in Becoming reconsiders educational leadership in its current forms and presents a more plausible form of educational leadership to contend with the complexities currently found in universities and schools Much of the literature in vogue concerning educational leadership ranges from transactional to transformative representations of the concept in relation to educational management and policy curriculum inquiry and pedagogical action The primary aim of this book is to revisit some of the dominant understandings of educational leadership and to offer an extended view of the practice along the lines of potentiality and becoming Davids and Waghid argue that all current forms of educational leadership are insufficient to enact responsible human action particularly when it comes to addressing the combined issues of globalisation and equitable redress and transformation whether in relation to leading schools or universities The primary objective of the book is to draw on the Agambian notion of becoming in order to show that an educational leadership in becoming is better placed to not only address the myriad challenges besetting education but to also enhance the potential of leadership in action The book addresses an international audience by analysing conceptions of transformative leadership and should be read by anyone who is interested in education and educational leadership as well as the impact of neoliberal agendas on education and society It should also appeal to those interested in the philosophy of education

Understanding Global Cultures Martin J. Gannon, Rajnandini Pillai, 2015-02-16 In the fully updated Sixth Edition of Understanding Global Cultures Metaphorical Journeys Through 34 Nations Clusters of Nations Continents and Diversity authors Martin J Gannon and Rajnandini Pillai present the cultural metaphor as a method for understanding the cultural mindsets of individual nations clusters of nations continents and diversity in each nation A cultural metaphor is any activity phenomenon or institution that members of a given culture consider important and with which they identify emotionally and or cognitively such as the Japanese garden and American football This cultural metaphoric approach identifies three to eight unique or distinctive features of each cultural metaphor and then discusses 34 national cultures in terms of these features The book demonstrates how metaphors are guidelines to help outsiders quickly understand what

members of a culture consider important *Rethinking Higher Education in Post-Apartheid South Africa* Emnet Tadesse Woldegiorgis, Logan Govender, Dennis Zami Atibuni, 2025-07-25 This book explores the opportunities and epistemological and structural challenges facing higher education in postcolonial South Africa and argues for a fundamental transformation to meet the needs of the 21st century Taking the concept of transformation as a unifying thread this book discusses the evolving trajectories of higher education in South Africa with particular emphasis on the decolonial initiatives that have emerged in the post Apartheid era During this time there have been persistent calls for South Africa to move beyond Eurocentric education programmes and curricula in favour of a system that reflects the continent s culture and identities of all South Africans The book argues that incremental reforms of existing structures are insufficient and that instead a deeper more fundamental shift in higher education structures values and systems is needed Overall the book calls for a comprehensive transformation to expand access for historically disadvantaged communities enhance quality and competitiveness address past injustices and improve the quality and capacity to act together for a more sustainable and just future Also exploring the digital transformations which have accelerated in the wake of the COVID 19 pandemic this book will be an essential read for researchers and policymakers working on higher education in South Africa **A Social History of the University Presses in Apartheid South Africa** Elizabeth Le Roux, 2015-10-14 In *A History of the University Presses in Apartheid South Africa* Elizabeth le Roux examines scholarly publishing history academic freedom and knowledge production during the apartheid era Using archival materials comprehensive bibliographies and political sociology theory this work analyses the origins publishing lists and philosophies of the university presses The university presses are often associated with anti apartheid publishing and the promotion of academic freedom but this work reveals both greater complicity and complexity Elizabeth le Roux demonstrates that the university presses cannot be considered oppositional because they did not resist censorship and because they operated within the constraints of the higher education system but their publishing strategies became more liberal over time *The PhD Experience in African Higher Education* John Mashayamombe, Ruth Murambadoro, uMbuso weNkosi, 2022-11-08 *The PhD Experience in African Higher Education* edited by Ruth Murambadoro John Mashayamombe and uMbuso weNkosi addresses the growing call to invest in the humanities and social sciences by exploring the nature of doctoral training in select institutions of higher learning in South Africa In the past two decades South Africa has become a key player in the global higher education landscape and dubbed the hub for doctoral training in Africa because of its developed educational infrastructure and highly ranked universities Given South Africa s positioning the contributors in this volume argue that the government donors universities and faculty have a socio legal duty to ensure that doctoral programs in the humanities and social sciences are not offered to amass numbers of African graduates but are grounded on equipping students with both hard and soft skills necessary to succeed This is achieved by offering skills training and research apprenticeships fostered in communities of practice because as the contributors show the humanities and social sciences are

the backbone of society Furthermore they argue that treating doctoral candidates as equal partners is emancipatory because intellectual projects are best nurtured through collaborative learning
