chart a radically new direction for the field of urban political ecology and cognate disciplines What could emancipatory politics be about in our time What does a return of the political under the aegis of equality and freedom signal today in theory and in practice How do political movements emerge that could re invent equality and freedom as actually existing socio ecological practices The hope is to contribute discussions that can expand and rearrange critical environmental studies to remain relevant in a time of deepening depoliticization and the rise of post truth politics Urban Political Ecology in the Anthro scene will be of interest to postgraduates established scholars and upper level undergraduates from any discipline or field with an interest in the interface between the urban the environment and the political including geography urban studies environmental studies and political science Transitioning Vocational Education and Training in Africa Simon McGrath, George Openjuru Ladaah, Heila Lotz-Sisitka, Stephanie Allais, Jacques Zeelen, Volker Wedekind, Presha Ramsarup, David Monk, Luke Metelerkamp, Jo-Anna Russon, Bonaventure Kyaligonja, Glen Robbins, Scovia Adrupio, David Ocan, Kenneth Nyeko, Adoye Primo, Palesa Molebatsi, Themba Tshabalala, Sidney Muhangi, Maxwell Openjuru, 2023-01-06 EPDF and EPUB available Open Access under CC BY NC ND licence The transition to more just and sustainable development requires radical change across a wide range of areas and particularly within the nexus between learning and work This book takes an expansive view of vocational education and training that goes beyond the narrow focus of much of the current literature and policy debate Drawing on case studies across rural and urban settings in Uganda and South Africa the book offers a new way of seeing this issue through an exploration of the multiple ways in which people learn to have better livelihoods Crucially it explores learning that takes place informally online within farmers groups and in public and private educational institutions Offering new insights and ways of thinking about this field the book draws out clear implications for theory policy and practice in Africa and beyond Students' participation in university governance in South Africa Vuyo Mthethwa, 2023-03-01 The purpose of this book is to examine the academic experiences of students who participated in university governance at South African universities Scrutiny is placed on the alignment of student representative council constitutions and university statutes with the actual experiences students had in discharging their roles in governance and in the way this impacted their academic progress Through a multi site case study design semi structured interviews were conducted with members of the student representative council who participated in university governance and supported by document analysis and observations to generate the data The study adopted Tinto's Integration Theory and Astin's Theory of Involvement as the two frameworks are based on the relationship between students extra curricular activity and their academic experiences The study invokes a greater awareness of students as major stakeholder in governance and informs policies and practices that may better serve students academic experiences The study will contribute to the understanding of cooperative governance principles while drawing from the perspective of the students on their understanding limitations and challenges in discharging their roles in university governance Engineering Design and Mathematical Modelling Nnamdi

Nwulu, Mammo Muchie, 2020-12-17 Engineering Design and Mathematical Modelling Concepts and Applications consists of chapters that span the Engineering design and mathematical modelling domains Engineering design and mathematical modelling are key tools techniques in the Science Technology and Innovation spheres Whilst engineering design is concerned with the creation of functional innovative products and processes mathematical modelling seeks to utilize mathematical principles and concepts to describe and control real world phenomena Both of these can be useful tools for spurring and hastening progress in developing countries They are also areas where Africa needs to skill up in order to build a technological base The chapters in this book cover the relevant research trends in the fields of both engineering design and mathematical modelling This book was originally published as a special issue of the African Journal of Science Technology Innovation and Development Small Carnivores Emmanuel Do Linh San, Jun J. Sato, Jerrold L. Belant, Michael J.

Somers, 2022-07-25 Small Carnivores Evolution Ecology Behaviour and Conservation This book focuses on the 232 species of the mammalian Order Carnivora with an average body mass 21.5 kg Small carnivores inhabit virtually all of the Earth's ecosystems adopting terrestrial semi fossorial semi arboreal or semi aquatic lifestyles They occupy multiple trophic levels and therefore play important roles in the regulation of ecosystems such as natural pest control seed dispersal and nutrient cycling In areas where humans have extirpated large carnivores small carnivores may become the dominant predators which may increase their abundance mesopredator release to the point that they can sometimes destabilize communities drive local extirpations and reduce overall biodiversity On the other hand one third of the world's small carnivores are threatened or near threatened with extinction This results from regionally burgeoning human populations industrial and agricultural activities causing habitat reduction destruction fragmentation and pollution Overexploitation persecution and the impacts of introduced predators competitors and pathogens have also negatively affected many small carnivore species Although small carnivores have been intensively studied over the past decades bibliometric studies showed that they have not received the same attention given to large carnivores Furthermore there is huge disparity in how research efforts on small carnivores have been distributed with some species intensively studied and others superficially or not at all This book aims at filling a gap in the scientific literature by elucidating the important roles of and documenting the latest knowledge on the world's small carnivores pThis is a book that has been needed for decades It is the first compendium of recent research on a group of mammals which has received almost no attention before the early 1970s This book covers a wide range of subdisciplines and techniques and should be considered a solid baseline for further research on this little known group of highly interesting mammals As our knowledge regarding how ecosystems function increases then the valuable role of small carnivores and the necessity for their conservation should be regarded as of paramount importance The topics covered in this book should therefore be of great interest not only to academics and wildlife researchers but also to the interested layman

Governance and Societal Adaptation in Fragile States John Idriss Lahai, Helen Ware, 2020-06-09 This book examines

the various ways in which some fragile states in the Global South or states with limited statehood have adopted and adapted to processes of governance in their quests to address the socialized problems affecting their societies. It tells the story of these states' resilience in the societal adaptation to a liberalized notion of governance. In addition to comparative case studies, the book also analyzes the engendered interplay of culture, economics and politics in the creation of people-centric governance reforms. The contributing authors shed light on weak states' often constructive engagement in the promotion of state governance under a variety of societal conditions, adverse or otherwise, and on their ability to remain resilient despite the complexities of the political and economic challenges they face.

Soshanguve paremiology+ Napjadi Letsoalo, Mpho Ngoepe, 2025-08-15. This scholarly book explores the transformative role of proverbs in cultural education, preservation and scholarly discourse in South Africa. It emphasises the importance of integrating indigenous African knowledge into academic spaces to support decolonisation, re-Africanisation and transformation. Proverbs are presented as tools for promoting multilingualism, multiculturalism, social cohesion and mutual respect in South Africa's diverse society. The book addresses the United Nations UN Sustainable Development Goal (SDG) 4 quality education, SDG 5 gender equity, SDG 9 innovation and SDG 10 reduce inequality. It serves as a teaching resource for proverbs in Northern Sotho, Sepedi, Sesotho, Setswana, Xitsonga, isiZulu, isiXhosa, isiNdebele, siSwati and/or Tshivenda, Sotho, Shangaan, Nguni and Venda, Soshanguve as well as Chichewa and Shona, supporting cross-cultural understanding. Grounded in a scholarly project on a multilingual proverbs dictionary, the book applies theoretical frameworks such as conceptual metaphor theory, ethnopragmatics and translation quality assessment to analyse proverbs. This interdisciplinary approach bridges linguistics, anthropology and digital humanities, offering fresh insights into the semantics and cultural significance of proverbs. The chapters in the book explore themes like proverbs in music, their intersection with patriarchy and translation quality assessment. Targeted at scholars and experts in languages, literature, linguistics and digital humanities, the book advances the study of proverbs while fostering cultural awareness and sensitivity. It highlights the value of proverbs as linguistic and cultural assets, enriching academic and practical applications across disciplines.

Sustainable Uses and Prospects of Medicinal Plants Learnmore Kambizi, Callistus Bvenura, 2023-05-05.
