Nematology in South Africa: A View from the 21st Century Hendrika Fourie,Vaughan W. Spaul,Robin K. Jones,Mieke S. Daneel,Dirk De Waele,2017-02-28 This unique book contains not only a comprehensive up to date summary of the achievements made in all areas of Nematology in South Africa over more than half a century but it also combines this rather technical part with an insiders narrative of how Nematology started and developed It also demonstrates how the South African community of nematologists gradually adapted to major changes in agriculture These were due to a major political shift followed by socio economic changes and this in an often challenging natural environment At the same time this book is conceived as a useful source for young scientists to provide them with practical knowledge and critical insight in the field of Nematology The information given is based primarily on research conducted by nematologists in South Africa Most of this research was aimed at finding workable solutions for nematological problems confronted by both large scale commercial producers and smallholding farmers During a period when funding for scientific research is becoming increasingly scarce the future demand and quest for practical solutions by applied research will only increase **Encyclopedia of Stateless**

Nations James B. Minahan,2016-08-01 This book addresses the numerous national movements of ethnic groups around the world seeking independence more self rule or autonomy movements that have proliferated exponentially in the 21st century In the last 15 years globalization religious radicalization economic changes endangered cultures and languages cultural suppression racial tensions and many other factors have stimulated the emergence of autonomy and independence movements in every corner of the world even in areas formerly considered immune to self government demands such as South America Researching the numerous ethnic groups seeking autonomy or independence worldwide previously required referencing many specialized publications This book makes this difficult to find information available in a single volume presented in a simple format accessible to everyone from high school readers to scholars in advanced studies programs The book provides an extensive update to Greenwood s Encyclopedia of the Stateless Nations Ethnic and National Groups around the World that was published more than a decade earlier Each ethnic group receives an alphabetically organized entry containing information such as alternate names population figures flag or flags geography history culture and languages All the information readers need to understand the motivating factors behind each movement and the current situation of each ethnic group is presented in a compact summary Fact boxes at the beginning of each entry enable students to quickly access key information and consistent entry structure makes for easy cross cultural comparisons *South Africa Yearbook* ,2009

Fees Must Fall Susan Booysen,2016-10-01 This book explores the student discontent a year after the start of the 2015

South African FeesMustFall revolt FeesMustFall the student revolt that began in October 2015 was an uprising against lack of access to and financial exclusion from higher education in South Africa More broadly it radically questioned the socio political dispensation resulting from the 1994 social pact between big business the ruling elite and the liberation movement The 2015 revolt links to national and international youth struggles of the recent past and is informed by black consciousness politics and social movements of the international left Yet its objectives are more complex than those of earlier struggles The student movement has challenged the hierarchical top down leadership system of university management and it s double speak of professing to act in workers and students interests yet entrenching a regressive system for control and governance University managements while on one level amenable to change have also co opted students into their ranks to create co responsibility for the highly bureaucratised university financial aid that stands in the way of their social revolution This book maps the contours of student discontent a year after the start of the FeesMustFall revolt Student voices dissect colonialism improper compromises by the founders of democratic South Africa feminism worker rights and meaningful education In depth assessments by prominent scholars reflect on the complexities of student activism its impact on national and university governance and offer provocative analyses of the power of the revolt

Sustainability of Southern African Ecosystems under Global Change Graham P. von Maltitz, Guy F. Midgley, Jennifer Veitch, Christian Brümmer, Reimund P. Rötter, Finn A. Viehberg, Maik Veste, 2024-01-05 This open access book about the sustainability of marine and terrestrial ecosystems in southern Africa provides a synthesis of the research program Science Partnerships for the Adaptation to Complex Earth System Processes SPACES II 2018 2022 It addresses the scientific social and economic issues related to climate change its potential impacts on the various ecosystems adaptations and management interventions for enhancing systems resilience in Southern Africa It is written by numerous scientists from African states and Germany and summarizes the latest research findings which are of great relevance for a better understanding of climate change impacts adaptations and vulnerabilities as well as for developing management options and policy options to reduce the associated risks This is crucial considering that the projected African population increase is exceptional Furthermore climate change is assumed to hit southern Africa extremely hard with a significant increase in extreme events and the frequency of severe droughts heat waves and flooding Southern Africa hosts a high variety of ecosystems which belongs to important biodiversity hotspots for unique flora and fauna The surrounding oceans form in turn a bottle neck within the ocean s global thermohaline circulation act as a still poorly understood carbon sink and source and play an important role for fisheries as they are highly productive Considering these important aspects the book is an important interdisciplinary contribution to the scientific literature and will find a wide readership The book is aimed at students teachers and scientists in the fields of terrestrial and marine ecology environmental nature and landscape planning agriculture environmental and resource management biodiversity and nature conservation as well as scientists and representatives in specialised authorities and associations nature conservationists and policy makers of

Higher Education Pathways Paul Ashwin, M. Case, 2018-12-13 In what ways does access to undergraduate education have a transformative impact on people and societies What conditions are required for this impact to occur What are the pathways from an undergraduate education to the public good including inclusive economic development These questions have particular resonance in the South African higher education context which is attempting to tackle the challenges of widening access and improving completion rates in a system in which the segregations of the apartheid years are still apparent Higher education is recognised in core legislation as having a distinctive and crucial role in building post apartheid society Undergraduate education is seen as central to addressing skills shortages in South Africa It is also seen to yield significant social returns including a consistent positive impact on societal institutions and the development of a range of capabilities that have public as well as private benefits This book offers comprehensive contemporary evidence that allows for a fresh engagement with these pressing issues

Indigenous Language for Social Change Communication in the Global South Tshepang Bright Molale, Abiodun Salawu, Mohammad Sahid Ullah, Enrique Uribe-Jongbloed, 2023-05-22 Indigenous Language for Social Change Communication in the Global South brings together voices from the margins to engage in dialogue about common social change issues in Latin America Africa and Asia This book argues that resistance and social movements expressed in music and songs and exchanged via radio remain fundamental to ensure that the linguistic and cultural diversity of the world progresses despite colonizing pressures Contributors present cases that explore how indigenous communities use mediums such as the radio to help support their language identity and expand their own social change Highlighting the centrality of music in the development of political discussions and language as a central part of collective identity contributors analyze how these mediums function as both a vessel and a link for information and cultural cohesion of those engaging in social change Scholars of communication sociology and development studies will find this book of particular interest

Africa's Urban Youth Amy S. Patterson, Tracy Kuperus, Megan Hershey, 2023-08-10 Making up 65 percent of Africa's population young people between the ages of 18 and 35 play a key role in politics yet they live in an environment of rapid urbanization high unemployment rates and poor state services Drawing from extensive fieldwork in Ghana Uganda and Tanzania this book investigates how Africa's urban youth cultivate a sense of citizenship in this challenging environment and what it means to them to be a good citizen In interviews and focus group discussions African youth activists and community leaders vividly explain how income religion and gender intertwine with their sense of citizenship and belonging Though Africa's urban youth face economic and political marginalization as well as generational tensions they craft a creative citizenship identity that is rooted in their relationships and obligations both to each other and the state Privileging above all the voice and agency of Africa's young people this is a vital systematic examination of youth and youth citizenship in urban environments across Africa

The Politics of Precarity Gediminas Lesutis, 2021-12-30 Based on critical theory and ethnographic research this

book explores how intensifying geographies of extractive capitalism shape human lives and transformative politics in marginal areas of the global economy Engaging the work of Judith Butler Henri Lefebvre and Jacques Rancière with ethnographic research on social and political effects of mining induced dispossession in Mozambique in the book Lesutis theorises how precarity unfolds as a spatially constituted condition of everyday life given over to the violence of capital Going beyond labour relations or governance of life in liberal democracies that are typically explored in the literature on precarity the book shows how dispossessed people are subjected to structural symbolic and direct modalities of violence this simultaneously constitutes their suffering and ceaseless desire however implausible to be included into abstract space of extractivism As a result despite the multifarious violence that it engenders extractive capital accumulation is sustained even in the margins historically excluded from contingently lived imaginaries of a good life promised by capitalism Presenting this theorisation of precarity as a framework on and a critique of the contemporary politics of unliveability the book speaks to key debates about precarity dispossession resistance extractivism and development in several disciplines especially political geography IPE global politics and critical theory It will also be of interest to scholars in development studies critical political economy and African politics
