Language Policy in Higher Education F. Xavier Vila Moreno, Vanessa Bretxa, 2014-12-05 In today's increasingly interconnected knowledge based world language policy in higher education is rapidly becoming a crucial area for all societies aiming to play a part in the global economy The challenge is double faceted how can universities retain their crucial role of creating the intellectual elites who are indispensable for the running of national affairs and at the same time prepare their best educated citizens for competition in a global market To what extent is English really pushing other languages out of the academic environment Drawing on the experience of several medium sized language communities this volume provides the reader with some important insights into how language policies can be successfully implemented The different sociolinguistic contexts under scrutiny offer an invaluable comparative standpoint to understand what position can or could be occupied by each language at the level of higher education

Corrupted Jonathan D Jansen, 2023-02 Through investigatory reports and interviews Jonathan Jansen reveals the structural conditions for chronic dysfunction in a sample of South African universities He reveals the political economy at work and the intense competition for resources on campuses He also provides interventions for these fragile institutions Why do some universities seem to be in a constant state of turmoil and dysfunction Jonathan Jansen explores the root causes of chronic instability in a sample of South African universities Through scrutiny of investigatory reports and interviews with more than 100 university managers and government officials Jansen finds that at the heart of the dysfunction in universities is an intense and sometimes deadly competition for resources especially on campuses located in impoverished communities It is not the lack of institutional resources but their concentration in a university that draws a mix of corrupt actors from local politicians and taxi operators to members of council and management into a never ending run on the material such as money for infrastructure and symbolic namely graduation certificates for sale assets of these institutions Jansen argues that the problem won't be solved through investments in capacity building alone because the combination of institutional capacity and institutional integrity contributes to serial instability in universities Jansen makes an important intervention to understanding the root causes and offers interventions to produce stabilities such as the depoliticisation of university councils and appointing academics of integrity and capacity in the management and leadership of these fragile institutions This groundbreaking and long overdue study will offer a promising way forward for universities to better serve their communities and the country more broadly

Natural Resources Management and Biological Sciences Edward R Rhodes, Humood Naser, 2021-02-17 The natural resources of the Earth are indispensable for the survival of humans plants and animals and for the state of biodiversity The way they are managed determines the extent to which they will be preserved for future generations Climate change underscores the need for the proper use of natural resources This book brings together reviews of literature and the results of research studies on the status and management of soil water plant and wildlife resources especially as they relate to the

biological sciences in Africa Asia Europe North America and Latin America It covers work on classification and inventories impacts of anthropogenic activities and exploitation and conservation The book will be of interest to scientists and practitioners of natural resource management worldwide **Foreign Commerce Weekly** ,1961 Grid-locked African Economic Sovereignty Victor Warikandwa,Artwell Nhemachena,2019-02-06 The emergent so called Fourth Industrial Revolution is regarded by some as a panacea for bringing about development to Africans This book dismisses this flawed reasoning Surfacing how investors are actually looting and plundering Africa how the industrial internet of things the gig economies digital economies and cryptocurrencies breach African political and economic sovereignty the book pioneers what can be called anticipatory economics which anticipate the future of economies It is argued that the future of Africans does not necessarily require degrowth postgrowth postdevelopment postcapitalism or sharing solidarity economies it requires attention to age old questions about African ownership and control of their resources Investors have to invest in ensuring that Africans own and control their resources Further it is pointed out that the historical imperial structural creation of forced labour is increasingly morphing into what we call the structural creation of forced leisure which is no less lethal for Africans Because both the structural creation of forced labour and the structural creation of forced leisure are undergirded by transnational neo imperial plunder theft robbery looting and dispossession of Africans this book goes beyond the simplistic arguments that Euro America developed due to the industrial revolutions Land is Life, Conservancy is Life Cameron Welch,2018-07-24 This book examines the current position of the San as marginalized indigenous peoples in Namibia In doing so it explores how CBNRM has become a nexus through which questions of indigeneity conservation and development have come to bear on San communities Focusing on the experiences of a group of predominantly San communities in the North East of Namibia the historical and contemporary situations of the San of the Na Jaqna Conservancy and their engagement with CBNRM are examined In looking to the future this work seeks to understand what mechanisms and institutions give indigenous groups such as the San a foothold in the State and an avenue through which to navigate and shape their own modernity ies This work explores the modalities through which conservation comes together with interests of indigenous groups and how these groups deploy leverage gained through invoking conservation as discourse and practice In examining San engagements with the Conservancy structures in Na Jaqna this study seeks answers not only to the question of what San engagements with CBNRM can tell us about the potential of the CBNRM framework itself for facilitating rural development and conservation but also the question of what engagement with CBNRM can tell us about how the San of Namibia actively engage in rural development The following work focuses not solely on how policies and governmental or non governmental interventions have impacted San realities and life ways but also the ways in which the San of Na Jaqna have negotiated impacted and shaped these processes **Zimbabwe's Migrants and South Africa's Border Farms** Maxim Bolt,2015-09-25 This book addresses the complex labour and life conditions faced by workers in the

agricultural borderlands of northern South Africa A Mission Divided David Harold-Barry,2022-04-29 ELEVEN JESUITS SET OUT FOR THE INTERIOR OF SOUTHERN AFRICA BY OX WAGON IN APRIL 1879 ON A MISSION TO PREACH THE CHRISTIAN GOSPEL TO THE PEOPLE BEYOND THE LIMPOPO RIVER WITHIN A YEAR AND A HALF THREE OF THEM WERE DEAD They shared the same ignorance of Africa as their European contemporaries concerning disease geography culture religion and the political rivalries of the people among whom they came They also shared a narrow frame of reference towards the continent and the failure of imagination that went with it Further as people of their time they saw and were seen by other denominations as rivals and far from co operating the churches indulged in an unseemly competition And yet these men were in their own way heroic and faced the difficulties eagerly even joyfully Their failures and disappointments far outweighed the little progress they appear to have made but they laid the foundations for what was to follow after 1890 when the colony of Southern Rhodesia was established This event inaugurated a ninety year period when relations between church and state waxed and waned The missionaries welcomed the order even if it could not be called peace and the infrastructure the colonisers introduced The speed of travel for instance went from about 15 km a day by ox wagon to 30 km an hour by train But the Church and the Jesuits were for long the drivers of what we mean by Church never managed to decide on a coherent policy vis a vis the white government until it was too late They were divided the majority of Jesuits worked with blacks but there was a sizeable number who worked exclusively with whites So while we can document the enormous and fruitful work that was done over the decades after 1890 we have to acknowledge the failure to give a united witness in confronting the nakedly racialist policies of the state If we had been able to do this in the 1920s and 30s we might have contributed to the evolution of a more harmonious society and avoided the terrible bloodshed of subsequent years River Delta Futures Francisco-J. Hernández Adrián,Angelos Theocharis,2025-02-20 How are climate change weather related disasters food and water insecurity and energetic and infrastructural collapse narrated audiovisually in the most environmentally vulnerable areas of the Planet This book addresses this and related questions by adopting a local and transdisciplinary perspective on river deltas from different areas of the world River deltas have historically been hotspots for human civilizations as populations settled in their fertile grounds seeking resources and opportunities for prosperity Despite this the terrains and livelihoods of those who rely on them are under threat from human exploitation environmental degradation and rapidly accelerating climate change Inspired by the UN Sustainable Development Goals this book provides a range of focused audiovisual analyses of deltaic spaces Ranging across a variety of media including documentary filmmaking animation photography collaborative comic making participatory visual art practices soundwalking and film analysis it examines the role that contemporary audiovisual media play in forging global environmental imaginaries In doing so it adopts a transdisciplinary approach to the Blue Humanities from countries across the world including Canada Bolivia Brazil Greece Nigeria Senegal India Bangladesh Myanmar Thailand and Vietnam **The Spectator** ,1855 A weekly review of politics

Cultural Heritage and Tourism in Africa Dallen J. Timothy, 2023-03-13 Cultural Heritage and Tourism in Africa examines the multiple and diverse manifestations of cultural heritage based tourism in Africa from a regional social science and sustainability perspective This book delivers a comprehensive treatise on the interdependent concepts of cultural heritage and tourism Heritage is one of the most pervasive tourism assets worldwide and lies at the foundations of tourism in many localities including Africa However despite its salience there has not been a systematic examination of Africa's heritage resources markets policies practices successes and challenges in a tourism framework despite the continent's immense heritage value This book reviews the different types of heritages that pervade the cultural environment of Africa and comprises its vast heritagescapes It also examines the increasing potential for the growth of heritage tourism throughout the entire continent The contributions in this volume delve into current thinking about space and place and their effects on heritage mobilities globalization colonialism and indigeneity conflict identity and nation building connections with other regions through migration and the slave trade and a greater emphasis on the ordinary heritage of Africa which has long been ignored by tourism scholars and industry representatives The chapters herein are authored by Africa specialists most being from Africa offering a truly African perspective The chapters are conceptually rigorous and empirically rich with examples from all regions of the African continent This unparalleled interdisciplinary glimpse at cultural heritage and tourism in Africa delivers strong value and is a vital resource for all students and researchers of tourism cultural studies heritage studies geography anthropology sociology history and global studies

Multilingual Higher Education Christa van der Walt, 2013-04-12 The general perception that a good command of English is enough to gain access and to be successful in higher education hides the complexity of learning and teaching in multilingual environments and this book shows that all higher education environments are multilingual to some extent Strategies like translation interpreting and switching from one language to another not only support learning but also build competence for multilingual professional environments Whether institutions focus on widening access to minoritised communities or whether they want to attract more international

students the book argues that a multilingual pedagogy is needed to improve student access and success Building on work by Nancy Hornberger Colin Baker and Ofelia Garc a the book extends strategies and techniques from bilingual education at school level to multilingual higher education **The Origin and Growth of Geography as a discipline at South Africa Universities** Gustav Visser,2016-09-20 The publication provides the first comprehensive text that reflects on a century of the development of geography as an academic discipline at South African universities The book showcases a broad and textured review of South Africa s geography departments their staff members their times and the different Geographies they engaged in The book lays the foundation from which more expansive individual departmental histories can be written in the future
