Application of LC-MS/MS in the Mycotoxins Studies Laura Gámiz-Gracia, Ana M. García-Campaña, Natalia Arroyo-Manzanares, 2020-06-17 Mycotoxins are secondary metabolites produced by the fungi of different species mainly *Aspergillus* *Fusarium* and *Penicillium* with toxic effects for humans and animals These mycotoxins can contaminate food and feed The European Union EU has established the maximum permitted or recommended levels for well known mycotoxins in different foodstuffs However there are other mycotoxins that are not included in the regulations the emerging mycotoxins whose toxicity is still not clear and the modified or masked mycotoxins produced as a consequence of a detoxification strategy of the host plant of the fungus or during food processing These mycotoxins could pose a risk and should also be taken into account In order to assure consumers health analytical methods for the accurate determination of mycotoxins in different food matrices and feeds are required In this sense liquid chromatography tandem mass spectrometry LC MS MS is a powerful tool for their unique identification and quantification Moreover the use of high resolution mass spectrometry HRMS allows one to identify novel mycotoxins and targeted untargeted approaches for study This Special Issue compiles recent applications of LC MS MS in mycotoxin studies as well as the development and validation of new analytical methods for their identification and quantification in different food matrices and feed occurrence studies and the biomonitoring of mycotoxins and their metabolites in biological fluids

Alternative Iron Ages Brais X. Currás, Inés Sastre, 2019-09-09 Alternative Iron Ages examines Iron Age social formations that sit outside traditional paradigms developing methods for archaeological characterisation of alternative

models of society In so doing it contributes to the debates concerning the construction and resistance of inequality taking place in archaeology anthropology and sociology In recent years Iron Age research on Western Europe has moved towards new forms of understanding social structures Yet these alternative social organisations continue to be considered as basic human social formations which frequently imply marginality and primitivism In this context the grand narrative of the European Iron Age continues to be defined by cultural foci which hide the great regional variety in an artificially homogenous area This book challenges the traditional classical evolutionist narratives by exploring concepts such as non triangular societies heterarchy and segmentarity across regional case studies to test and propose alternative social models for Iron Age social formations Constructing new social theory both archaeologically based and supported by sociological and anthropological theory the book is perfect for those looking to examine and understand life in the European Iron Age We are so grateful to the research project titled Paisajes rurales antiguos del Noroeste peninsular formas de dominacion romana y explotacion de recursos Ancient rural landscapes in Northwestern Iberia Roman dominion and resource exploitation HAR2015 64632 P MINECO FEDER directed from the Instituto de Historia CSIC and also to the Funda ao para a Ciencia e a Tecnologia Foundation for Science and Technology postdoctoral project SFRH BPD 102407 2014 [Information Services for a Sustainable Society](#) Madeleine C. Fombad, Collence Takaingenhamo Chisita, Omwoyo Bosire Onyancha, Mabel K. Minishi-Majanja, 2023-07-24 The publication seeks to establish how information professionals are providing information services in a sustainable society in an era of information disorder It also provides the strategic direction to strengthen the global voice of libraries inspiring and enhancing professional practice as well as enhancing international cooperation and collaboration among LIS educators and practitioners The contents is divided according to the following key sub themes that resonate with the title as outlined below Library and information services in the information age Data and records in an era of information disorder Archives data curation and preservation in the digital era Data science analytics and visualization Information ethics in the digital era Information deluge in the digital era Information and knowledge management Fourth Industrial revolution The highlighted themes explore critical issues relating to how libraries archives and related institutions are responding to the seismic shifts in the information landscape amidst a myriad of challenges and opportunities The sub themes bring together a tapestry of articles that explore the status experiences and future prospects of the dynamic library and information science practice *Air Pollution XXV* D. Almorza Gomar, J.W.S. Longhurst, C.A. Brebbia, J. Barnes, 2017-08-07 Encompassing papers presented at the 25th International Conference on Modelling Monitoring and Management of Air Pollution this book is the latest from a successful conference series International academics and air pollution experts address various aspects of air pollution and provide an insight into the science and policy frameworks The management of air pollution is one of the most challenging problems facing the international community The need to balance concern for the environment with the demand for generating economic growth makes air pollution a particularly challenging

issue requiring global attention and cooperation Science can help us identify the nature and scale of air pollution impacts and it has become essential in guiding government decisions regarding the most appropriate and effective regulations This book presents advances in our knowledge of the science of air pollution The Air Pollution series of conferences has consistently recognised that science remains the key to identifying the nature and scale of air pollution impacts and reaffirmed that science is essential in the formulation of policy relevant information for regulatory decision making The conference series also acknowledged at a very early stage that science alone will not improve a polluted atmosphere Scientific knowledge derived from well designed studies needs to be allied with additional technical and economic studies in order to ensure cost effective and efficient mitigation Leading research originating all over the world is included and covers the subsequent topics Air pollution modelling Monitoring and measuring Air quality management Indoor air pollution Aerosols and particles Industrial and travel emissions Exposure and health effects Economics of air pollution control Innovative technologies Challenges for the future Strategic and project assessment Green technologies and techniques Stationary and mobile emissions Social economic issues Environmental impact assessment Air pollution and climate change Air quality forecasting

Modern Architecture and the Sacred Ross Anderson, Maximilian Sternberg, 2020-11-26 This edited volume *Modern Architecture and the Sacred* presents a timely reappraisal of the manifold engagements that modern architecture has had with the sacred It comprises fourteen individual chapters arranged in three thematic sections Beginnings and Transformations of the Modern Sacred Buildings for Modern Worship and Semi Sacred Settings in the Cultural Topography of Modernity The first interprets the intellectual and artistic roots of modern ideas of the sacred in the post Enlightenment period and tracks the transformation of these in architecture over time The second studies the ways in which organized religion responded to the challenges of the new modern self understanding and then the third investigates the ways that abstract modern notions of the sacred have been embodied in the ersatz sacred contexts of theatres galleries memorials and museums While centring on Western architecture during the decisive period of the first half of the 20th century a time that takes in the early musings on spirituality by some of the avant garde in defiance of Sachlichkeit and the machine aesthetic the volume also considers the many varied appropriations of sacrality that architects have made up to the present day and also in social and cultural contexts beyond the West *The Playing Grounds of College Football* Mark Pollak, 2018-11-16 College football teams today play for tens of thousands of fans in palatial stadiums that rival those of pro teams But most started out in humbler venues from baseball parks to fairgrounds to cow pastures This comprehensive guide traces the long and diverse history of playing grounds for more than 1000 varsity football schools including bowl eligible teams as well as those in other divisions FCS D2 D3 NAIA **The Gazelle's Dream** Alison Betts, W. Paul van Pelt, 2021-12-01 Once the world's prairies grasslands steppes and tundra teemed with massive herds of game gazelle wild ass bison caribou and antelope Humans seeking to hunt these large fast moving herds devised a range of specialised traps that share many characteristics

across all continents Typically consisting of guiding walls or lines of stones leading to an enclosure or trap game drives were designed for a mass killing Construction of the game drive organisation of the hunt and processing of the carcass often required group co operation and in many cases game drives have been linked to seasonal gatherings of otherwise scattered groups who may have used these occasions not only to hunt but also for social ritual and economic activities The Gazelle s Dream Game Drives of the Old and New Worlds is the first comparative study of game drives examining this mode of hunting across three continents and a broad range of periods The book describes the hunting of bison in North America reindeer in Scandinavia antelope in Tibet and an extensive array of examples from the greater Middle East from Egypt to Armenia The Gazelle s Dream will be of value to anyone with an interest in the history of hunting and wildlife management Quaternary Glaciation in the Mediterranean Mountains P.D. Hughes,J.C. Woodward ,2017-01-30 The mountains of the Mediterranean world are now largely ice free but many were repeatedly glaciated during the Quaternary ice age This created spectacular glaciated landscapes with a rich array of glacial deposits and landforms The glacial and glacio fluvial records are often very well preserved and our understanding of the timing of Quaternary glaciation has very recently been transformed through the application of dating methods utilizing uranium series and cosmogenic isotopes Glacial records from the Mediterranean now boast some of the most robust chronologies for mountain glaciation anywhere in the world they represent a unique archive of Quaternary environmental change of global significance The southerly latitude and relatively small size of Mediterranean glaciers rendered them especially sensitive to Pleistocene and Holocene climate changes This volume brings together the leading researchers and the latest research on Mediterranean glaciation Several papers also explore glacier behaviour in the Holocene including those glaciers of southernmost Europe at risk of disappearing this century Structural Analysis of Historical Constructions: Anamnesis, Diagnosis, Therapy, Controls Koen Van Balen,Els Verstryngne,2016-11-03 Structural Analysis of Historical Constructions Anamnesis diagnosis therapy controls contains the papers presented at the 10th International Conference on Structural Analysis of Historical Constructions SAHC2016 Leuven Belgium 13 15 September 2016 The main theme of the book is Anamnesis Diagnosis Therapy Controls which emphasizes the importance of all steps of a restoration process in order to obtain a thorough understanding of the structural behaviour of built cultural heritage The contributions cover every aspect of the structural analysis of historical constructions such as material characterization structural modelling static and dynamic monitoring non destructive techniques for on site investigation seismic behaviour rehabilitation traditional and innovative repair techniques and case studies The knowledge insights and ideas in Structural Analysis of Historical Constructions Anamnesis diagnosis therapy controls make this book of abstracts and the corresponding digital full colour conference proceedings containing the full papers must have literature for researchers and practitioners involved in the structural analysis of historical constructions **Handbook on Urban Development in China** Ray Yep,June Wang,Thomas Johnson,2019 The trajectory and logic of urban development in post Mao China have been shaped

and defined by the contention between domestic and global capital central and local state and social actors of different class status and endowment This urban transformation process of historic proportion entails new rules for distribution and negotiation novel perceptions of citizenship as well as room for unprecedented spontaneity and creativity Based on original research by leading experts this book offers an updated and nuanced analysis of the new logic of urban governance and its implications

The Work of Repair Thomas Cousins, 2023-06-06 In the timber plantations in northeastern South Africa laborers work long hours among tall swaying lines of eucalypts on land once theirs In 2008 at the height of the HIV AIDS crisis timber corporations distributed hot cooked meals as a nutrition intervention to bolster falling productivity and profits But life and sustenance are about much more than calories and machinic bodies What is at stake is the nurturing of capacity across all domains of life physical relational cosmological in the form of amandla An Nguni word meaning power strength or capacity amandla organizes ordinary concerns with one s abilities to earn a wage to strengthen one s body and to take care of others

it describes the potency of medicines and sexual vitality and it captures a history of anti colonial and anti apartheid struggle for freedom The ordinary actions coordinated by and directed at amandla do not obscure the wounding effects of plantation labor or the long history of racial oppression but rather form the basis of what the Algerian artist Kader Attia calls repair In this captivating ethnography Cousins examines how amandla as the primary material of the work of repair anchors ordinary scenes of living and working in and around the plantations As a space of exploitation that enables the global paper and packaging industry to extract labor power the plantation depends on the availability of creative action in ordinary life to capitalize on bodily capacity The Work of Repair is a fine grained exploration of the relationships between laborers in the timber plantations of KwaZulu Natal and the historical decompositions and reinventions of the milieu of those livelihoods and lives Offering a fresh approach to the existential ethical and political stakes of ethnography from and of late liberal South Africa the book attends to urgent questions of postapartheid life the fate of employment the role of the state in providing welfare and access to treatment the regulation of popular curatives the queering of kinship and the future of custom and its territories Through detailed descriptions Cousins explicates the important and fragile techniques that constitute the work of repair the effort to augment one's capacity in a way that draws on acknowledges and reimagines the wounds of history keeping open the possibility of a future through and with others

Rethinking Linguistic Creativity in Non-native Englishes Sandra C. Deshors, Sandra Götz, Samantha Laporte, 2018-07-19 At a time when the paradigm gap Sridhar Sridhar 1986 between the EFL and ESL research areas is attracting much scholarly attention the contributions in the current volume explore this gap from the perspective of linguistic innovations across the two different types of non native Englishes In this endeavour this volume unveils the many facets of linguistic innovations in non native English varieties and explores the fine line between learners erroneous versus creative use of a target language Adopting empirical corpus based approaches to portray linguistic innovations characteristic of EFL and ESL varieties the contributions show how the interaction of linguistic and social forces influences the development of novel linguistic forms in both endonormative ESL contexts and exonormative EFL contexts This volume is of relevance to linguists who are interested in the features of non native English and who wish to gain a better understanding of the nature of innovations along the EFL ESL continuum Originally published as a special issue of International Journal of Learner Corpora Research 2 2 2016
