Unlike A Virgin English Edition:

Hodie nobis de virgine Loyset Compère, 2024 The motet cycles known as motetti missales are among the most intriguing repertoires of late fifteenth century polyphony This series features a new critical edition of the six cycles by Loyset Compère Gaspar van Weerbeke and Franchinus Gaffurius included in the Milanese Libroni and of the two anonymous cycles transmitted in the Leopold Codex Munich MS 3154 For the first time this corpus is presented with uniform editorial criteria facilitating the comparison of mensural choices and other compositional strategies Furthermore the introduction of each volume thematizes the peculiar characteristics of each cycle in terms of textual choices use of preexisting material and musical design allowing for a new assessment of the motetti missales that goes beyond the homogenizing stereotypes of earlier literature and accounts for the individual contributions of the various composers The editors insight in this repertoire is the result of two interdisciplinary research projects financed by the Swiss National Fund and carried out at the Schola Cantorum Basiliensis in 2014 21 The cycle Hodie nobis de virgine by Loyset Compère ca 1450 1518 consists of eight four voice motets on assorted Christmas texts making it the only of Compère's motet cycles to center clearly on a specific occasion of the liturgical year All eight motets are preserved uniquely in Librone 1 of the Milanese Libroni Gaffurius Codices and bear loco rubrics indicating their placement in the mass liturgy

plays exerted a powerful and uncharted influence on early modern England's dramatic landscape. Drawing on original research to challenge longstanding assumptions about Greek texts' invisibility, the book shows not only that the plays were more prominent than we have believed but that early modern readers and audiences responded powerfully to specific plays and themes. The Greek plays most popular in the period were not male-centered dramas such as Sophocles' Oedipus but tragedies by Euripides that focused on raging bereaved mothers and sacrificial virgin daughters, especially Hecuba and Iphigenia. Because tragedy was firmly linked with its Greek origin in the period's writings, these iconic female figures acquired a privileged status as synecdoches for the tragic theater and its ability to conjure sympathetic emotions in audiences. When Hamlet reflects on the moving power of tragic performance, he turns to the most prominent of these figures: What's Hecuba to him, or he to Hecuba? That he should weep for her. Through readings of plays by Shakespeare and his contemporary dramatists, this book argues that newly visible Greek plays, identified with the origins of theatrical performance and represented by passionate female figures, challenged early modern writers to reimagine the affective possibilities of tragedy, comedy, and the emerging genre of tragicomedy.

Literature and Translation in the Licensing Realm

Alexander Nebbrig, 2025-07-26. Following the historical analysis that focused on the actors and the institutions of book culture in the first volume, volume two discusses writing strategies in the global licensing realm as well as revealing the form, character, and structure of multilateral literature. Globalized texts address audiences of different languages and cultures. Using German literature from the 19th century to the present, six literary techniques that engage transnational audiences are analyzed: the internationalization of textual reference, the pluralization and decentering of space, the staging of mediation, the effects of multilingualism, transnational issues, and the global novel.

The One-Sex Body on Trial: The Classical and Early Modern Evidence

Helen King, 2016-02-17. By far the most influential work on the history of the body across a wide range of academic disciplines remains that of Thomas Laqueur. This book puts on trial the one-sex/two-sex model of Laqueur's *Making Sex: Body and Gender from the Greeks to Freud* through a detailed exploration of the ways in which two classical stories of sexual difference were told, retold, and remade from the mid-sixteenth to the nineteenth century: Agnodike, the first midwife who disguises herself as a man and then exposes herself to her potential patients; and Phaethousa, who grows a beard after her husband leaves her. These are stories from the ancient world that resonated in the early modern period in particular. Tracing the reception of these tales shows how they provided continuity despite considerable change in medicine, being the common property of those on different sides of professional disputes about women's roles in both medicine and midwifery. The study reveals how different genres used these stories, changing their characters and plots but always invoking the authority of the classics in discussions of sexual identity. The study raises important questions about the nature of medical knowledge, the relationship between texts and observation, and the understanding of sexual difference in the early modern world beyond the one-sex model.

Science Fiction in Translation Ian Campbell, 2022-01-01. *Science Fiction in Translation*

Perspectives on the Global Theory and Practice of Translation focuses on the process of translation and its implications. The volume explores the translation of works of science fiction (SF) from one language to another and the translation of SF tropes, terms, and ideas of SF theory into cultures outside the West. Providing a comprehensive examination of the state of translation into English, the essays consider how representative the body of translated work of SF is from the source language culture. It also considers the social, political, and economic choices in selecting a work to translate. The book illustrates the dramatic growth both in SF production outside the Anglosphere, the translation of works from other languages into English, and the practice of translating English language SF into other languages. Altogether, the essays map the theory, practice, and business of SF translation around the world. A Performance Edition of Girolamo Cavazzoni's Missa de Beata Virgine John Henry Olivier, 1968

Hysteria, Perversion, and Paranoia in "The Canterbury Tales" Becky Renee McLaughlin, 2020-07-20. Beginning with the spectacle of hysteria moving through the perversions of fetishism, masochism, and sadism and ending with paranoia and psychosis, this book explores the ways that conflicts with the Oedipal law erupt on the body and in language in Chaucer's *Canterbury Tales*. For Chaucer's tales are rife with issues of mastery and control that emerge as conflicts not only between authority and experience but also between power and knowledge, word and flesh, rule books and reason, man and woman, same and other. Conflicts that erupt in a macabre sprawl of broken bones, dismembered bodies, cut throats, and decapitations. Like the macabre sprawl of conflict in the *Canterbury Tales*, this book brings together a number of conflicting modes of thinking and writing through the surprising and perhaps disconcerting use of shadow chapters that speak to or against the four central chapters, creating both dialogue and interruption.
