

INSTRUCTION GUIDE FOR SUMMER AND FALL 2023 PLACEMENT

What is ALEKS Math Placement?

Math placement will be processed according to 1) scores, 2) scores, 3) credit, transfer credits, or prerequisite course completion. If a student does not have any offerings on credit for the mathematics course they wish to enroll in, their scores on either Placement Preparation or placement test will be used to determine placement. ALEKS Math is a web-based program that uses artificial intelligence to map a student's strengths and weaknesses. The Placement Preparation is up to 25 questions and generally takes 30-45 minutes to complete. After the Placement assessment, an individualized three-week learning module is created for students to enhance their knowledge on topics they need. Students then have the opportunity to reassess and improve their placement.

1. Placement offers a path:

- into logical placement and degree challenges and into the placement.
- The Prep and Learning Modules (individualized, self-paced module system) designed to address Placement Placement assessment.

Getting Started

1. Register your UNLV online account using your student information.
2. Accessing the Placement assessment.
3. Click the Placement test.
4. Register for the course (placement test) and register for the course (placement test).
5. If you are already registered, click the Placement assessment.
6. If you are not registered, click the Placement test, then click the Placement test.
7. Answer the Placement test. The Placement test will be processed according to the Placement test.
8. Complete the module.
9. Return to the test.

*** If this is your first attempt, you will be taking your Initial Assessment within three weeks of your placement. The Initial Assessment is a series of questions for your placement assessment. The questions are generated by the system and are based on your placement score. You will need to take the Placement test (placement test) and the Placement test (placement test) to complete the Placement test. If you are already in the Placement test, go to [page 2](#).
