Elements of Metaphysics Alfred Edward Taylor, 1952

Language Policy and National Unity William R. Beer, James Jacob, 1985-06 The central focus of each chapter is language policy and how it accomplishes or fails to accomplish the task of maintaining national unity in the face of linguistic diversity Included among the nations considered are examples of postcolonial cultures as well as nations that have sheltered linguistic minorities within their borders throughout their history countries fragmented

into tribal groups and those divided by a plethora of local dialects

Puerto Rican Labor History 1898-1934 Carlos Sanabria,2017-12-22 Puerto Rican Labor History 1898 1934 presents a history of the organized labor movement in Puerto Rico from the United States colonial domination of the island in 1898 to the Great Depression in the early 1930s Although the most prominent Puerto Rican labor leaders in the early twentieth century were strongly influenced by revolutionary European socialist and anarchist ideology the organized labor movement as represented by the Federaci n Libre de los Trabajadores de Puerto Rico and the Partido Socialista became a fundamentally reformist trade unionist campaign that relied heavily on the democratic rights guaranteed by the United States government and the support of the American Federation of Labor Rather than advocating for the overthrow of capitalism the abolition of private property and the wage labor system and its replacement by a socialist egalitarian cooperative society free of centralized government authority the organized workers movement focused on the immediate struggle for higher wages and better working conditions by means of the organization of labor and participation in electoral politics

Historical Dictionary of Anglicanism Colin Buchanan,2006-02-27

Anglicanism arguably originated in 1534 when Parliament passed the Act of Supremacy which transferred papal power over the Church of England to the king Today approximately 550 dioceses are located around the world not only in England but also everywhere that the British Empire s area of influence extended With an estimated total membership of about 75 million Anglicanism is one of the largest and most varied Christian denominations With such a long history and widespread flock it is not easy to keep track of the variations of a religious community that has not ceased adapting since its inception Hundreds of entries on significant persons and events concepts and institutions rituals and liturgy and national communities make this an invaluable reference for religious historians theologians and researchers Also included are an introduction a chronology that traces the church s evolution over time and a bibliography

An Ethical Turn in Governance Pearson A.

Broome,2021-04-09 The recurring image throughout the developing world is one of the disintegration of civil order debilitating leaders into a crisis of governance Not a day goes by without extensive media coverage of some form of corruption perceived or real concerning the lack of productivity and or increasing incidences of fraud and unethical behavior

An Ethical Turn in Governance The Call for a New Development Narrative posits that the intensification of this crisis is compatible with the root cause of capitalist modernization with its rapid and disorientating changes To mitigate the accompanying effects a call is made for re conceptualization of the search for a solution through incorporating and strengthening the value of an ethical consciousness in our thinking and policies of governance The idea is an urgent possibility perhaps even a controversial and ambitious proposal for countries to begin imagining how it might be brought about and what it would look like The central aim and objective is to move toward a framework for continued theory development and empirical research thereby offering a new narrative on governance and by extension development Recognizing that the inclusion of an ethical turn in governance is fraught with difficulty because of the different opinions the

relativism of different value systems and options identified often derived from the perspectives of various stakeholders a call is made for an interactive discourse in the public sphere The argument advanced is that a body politic with sensible social values germane to the policy process is the best way in which human conduct is ordered guided and appraised in order to live together in well functioning societies critical for the success of any democracy

A. H. Nasution and Indonesia's Elites Barry Turner, 2017-11-17 This is an account of the military political and personal life of Abdul Haras Nasution who was a seminal figure in modern Indonesian history in the years prior to his effective sidelining in the 1960s He was an important commander during Indonesia's struggle for independence who rose to become a key leader of the Indonesian armed forces under the first president Sukarno Perhaps more significantly he developed ideas about guerrilla warfare that developed into a sophisticated and socially conservative doctrine for the mobilising of civilian communities This in turn became the underpinning of the repressive military backed New Order regime of Indonesia's second president Suharto who ruled from 1966 until 1998 and which Nasution initially supported Understanding Nasution's thinking about total people's resistance is therefore very important for understanding the broader trajectory of Indonesian political history That includes both the New Order and the emerging democratic regime that developed after its collapse The new political system that called itself the Reform Era was in many ways a direct reaction to the New Order military's penetration and close control of Indonesian society but it has never dismantled the shadow state structure of the armed forces that Nasution designed and Suharto perfected In other words as this book shows Nasution's legacy still looms large today in Jokowi's Indonesia This is not the first assessment of Nasution's life but it differs from earlier works by its investigation of Nasution's personal life and in particular his relationship with the well off and well connected Gondokusumo family of which he became a member by his marriage to Johana Sunarti Gondokusumo The author's thorough investigation of Nasution's relationship with Sunarti and her father offers important new insights into how Nasution's ideas evolved as does the translations of important extracts from Nasution's own voluminous writing included in the text

The A to Z of Marxism David Walker, Daniel Gray, 2009-08-13 Marxism one of the few philosophies that turned into an effective movement was not so long ago the official ideology in one form or another of much of humanity It was initially promulgated by the Soviet Union then imposed on Central and Eastern Europe later emerged in the People's Republic of China and gradually spread to other parts of Asia Africa and Latin America Although declining in popularity the movement still remains in power in several countries and is supported by numerous parties and countless individuals around the world The A to Z of Marxism covers in a comprehensive manner the history of Marxism and its philosophers and schools of thought It contains a chronology a list of acronyms and abbreviations an introductory essay a bibliography and hundreds of cross referenced dictionary entries on basic terms and concepts as well as significant people parties and countries Book Jacket

Places and Politics in an Age of Globalization Roxann Prazniak, Arif Dirlik, 2001 This ambitious work provides a unique statement on the question of place based activism and its relationship to

powerful forces of international capital Arguing that specific places around the world are sites for the defense and enhancement of daily life in the context of rapidly expanding global technologies and investment options the contributors reach for a vision of social development that supports sustainable humane cultures Bringing together the local and the global this work provides the first sustained linkage of ethnic groups in diaspora to macrocosmic processes of world capital that inevitably reach down to mediate even the most local experiences The essays ranging in their discussion of place from Los Angeles and New York to New Zealand and Indonesia offer both reasoned argument and authoritative information on how local experience interacts with larger processes of global capital and the diasporic phenomenon The book will be an invaluable resource and launching point for scholars and students in ethnic and identity studies and will interest all readers exploring the production of place and identification
